cherries, while itself a cherry about equal in quality to the Royal Anne.

And add the honey bee; for the cherry pollen is not car- any of our reliable home instituried by the winds. It must be carried on the wings and legs tions. of insects.

Given the Long Stemmed Waterhouse and the honey Will of Ex-Empress bee, and the sweet cherry industry is a reliable industry in this district-

And given two other things, that are coming-

Cold storage and tariff protection.

Last year our cherry crop was too large, in the rainy season that we had, for our canneries and other plants, in the absence of cold storage.

Now, the King's dehydration people propose to build a large cold storage plant in Salem, in time for the next crop, and the Hunt Bros. Packing Co. will finally do the same after the fall of the French emthing, at their Salem cannery; and there will no doubt be pire.

## As to the protective tariff:

Immense quantities of maraschino cherries are now being imported from Italy; they are only blanched and not being a finished product are coming in free of duty, and as the rate of exchange is so low, they are being laid down in New York at 7 cents a pound.

These Italian cherries come into direct competition with sere bombing London and she a record attendance is expected. our Royal Annes, and there is a movement on the part of our | stroyed. people in Oregon and in Washington to secure in the new tariff law now being considered a protective duty on cherries.

The following letter from United States Senator W. L. Jones of Washington, under date of December 6, will be en- meant by "the diet of worms" lightening:

"Hon. W. H. Paulhamus, Puyallup, Washington :- Your favor of December 1 at hand. You can count upon my as- of the estates of the old Teuton sistance in every way possible to secure an adequate tariff to empire, which in this case met at protect our fruit industry not only from the Italian competition but also to put us upon a par, at any rate, with Canadian competition. These tariff measures must all originate in the House, and the Ways and Means Committee will hold What You'll See hearings and the industry in which you are especially interested should have some one appear before that committee who is thoroughly familiar with the situation. I do not know of anybody who could do that better than yourself. Of course, Senators and Representatives will do the best they can, but someone, I think, with the details of the business in hand should appear before the committee. "I shall send you under separate cover a Congressional

Directory which will give you the names and addresses of the present Senators and Representatives from the various states so that if you should desire to write to any of them you can do so. What we want to do, however, is to get this matter properly covered, if possible, in any bill that the House may Dass.

-"W. L. JONES."

Mr. Paulhamus is president of the Puyanup & Summer 4, Insury 4, Insury Growers Canning Co., which operates in Oregon also, and this fing Bing, armory 4, Insury 4, Insury Sing Bing, armory January 12, Wednesday-Open Forum meeting of Cammercial club.
