## DYE TRUST IS HELD MENACE

American and British Industry is Threatened by German Industry

NEW YORK, Jan. 6.—A plea for congressional action to restrict the importation of German dyes into the United States has been issued here by the American Chemical Society through Dr. Charles H. Herty, former president of the organization. Dr. Herty was appointed by President Wilson to negotiate for the American share of the German dyes impounded in France after the war.

The eminent chemist calls attention to the action of Great Britain in passing an act similar to the Longworth bill, which was passed by the United States house of representatives and held up in the senate committee on finance.

Pointing out the similarity of the dye situation confronting Great Britain and the United States, Dr. Herty recalls that during the war poison gasses were made in German dye factories and adds "when our textiles, leather, paper and other industries were smarting under the experience of servility to a foreign nation, supplies of needed dyes and thought of the nation was clear as to the necessity of a complete self-sustained American dye industry."

Although the American makers of dyes have \$100,000,000 invested in factories and apparatus, prominent American chemists maintain that these manufacturers cannot withstand a German invasion without suitable legislation. They are, however, equipped to manufacture 85 per cent of the dyes required by American industries and would be able, according to the bulletin of American Chemical Society, to make the other 15 per cent if they had time to develop the special processes under favorable auspices.

The German dye trust, Dr. Herty declared, is shown by published reports to be stronger than ever, both in capital and in organization. Moreover, he continues, it has just made arrangements through the organization of subsidiary company to enter the field for control of the world's supply of fixed nitrogen, the chief element in fertilizers, nutrients and many dyes.

## REDS PLAN TERRORISM

German Radicals Make Lists of Capitalists Who Are to be Killed

BERLIN, Jan. 13.—German radical disciples of what is called here "Red Russian terrorism," who say they are planning to overturn the present German government and establish a proletarian dictatorship, openly announce that they have drawn up lists of "capitalists and undesirables" who shall be killed when the revolution begins.

One of these men, a hotel waiter, who calls himself a "precinct leader," complained the other day that his list included nearly everybody around here "who has influence, property or money. He said a 'superior' came to him one day and read a list of names and announced these were to be the 'precinct leaders' quota when the killing began. The waiter declared he acknowledged 'orders' but thought the program was being carried too far."

### Telephone Company Elects Directors

DAYTON, Or., Jan. 13.—The annual meeting of the stockholders of the Yamhill County Mutual Telephone company was held at this place January 12. At the election of officers the following men were chosen as directors for the ensuing year: J. E. Proffitt, A. Resner and D. A. Snyder. The report of the secretary-treasurer showed that the company had made a substantial earning for the year just past.

### Brazil Seeks Elasticity for Its Credit System

RIO DE JANEIRO, Dec. 8.—Creation of a bank of issue and re-discount is being urged here by newspapers representative of the business interests as a means of giving elasticity to the country's credit system. It has been suggested that the Bank of Brazil be given re-discounting powers pending the creation of a special institution.

### 100,000 Persons Are Moscow Prisoners

RIGA, Jan. 13.—Latvian hostages, returning home from Moscow, state that all the Moscow jails are overcrowded with prisoners, the number imprisoned being more than 100,000, one-fifth of all the inhabitants of Moscow. All monasteries in the city have been turned into jails and the upper story of a large rubber works has been fitted up so as to accommodate 20,000 prisoners. The conditions in the jails were said to be indescribable. One of the hostages referring to the conditions during June and July said: "We were living under the shadow of death. Every night 60 or 80 prisoners were torn from the jail for execution."

## Flour Advances—

It appears that the bottom has been reached in the price of flour, the mills having raised the price 40c per bbl, the first advance in many months. We have a car of Fisher's Blend purchased before the advance and will sell it at the old price with a liberal discount by buying in barrel lots. Fisher's Blend needs no introduction as it is and has been one of the best sellers in this market having won favor by its high quality, a blend of eastern Washington and Montana Hard Wheat.

Fisher's Blend Flour, per sack.....\$2.95; 4 sacks \$11.20  
Fisher's Art Flour, per sack.....\$2.85; 4 sacks \$11.00
