### SALEM IS THE DEHYDRATION CENTER OF THE WORLD

Do you realize what that means? It means that there is a market, and a growing market for every vegetable and fruit that can be raised on the land in this territory.

And that means more than is apparent to the stranger at first glance; for a greater variety of fruits and vegetables can be successfully grown here than in any other part of this country or the world.

Dehydration is the greatest thing in the world, in food conservation.

It takes out the water; the consumer puts it back, at any time in the future, anywhere under the shining sun—and then he has the fruit or the vegetable as good as fresh, in every nutritive quality, and in every other way.

The saving will be billions, annually. And all the money comes to Salem—excepting what is expended for the nails in the shipping boxes.

Better than a gold mine; for it will never "pinch out."

### KING'S PRODUCTS COMPANY

SALEM OREGON (This company is committed to the growth of this community, by a program that will make its output ten times its present output—that will employ 2500 people at its factory; that will pay to the growers \$20,000,000 a year for their products.)

A page taken from the savings account of Any Farmer with the Indiana Silo.

What You Save 40% corn fodder now wasted. 25% mill feed saved. Weedy or wet hay crop saved by ensiling them. Silage feeding saves up and down of milk production by supplying regular succulent rations. Saves feeding problems because you can figure exactly number of stock silo will care for. Saves 10% on butterfat costs. Saves \$2.50 per 100 pounds on beef production. What You Get More stock per acre, forty cows have been kept on 35 acres with silage rations. Use of pasture land for more valuable crops. More butterfat; University of California got 10% more. Control of your own pasture by having it under cover. A permanent silo which will pay for itself in a few years. AN INDIANA SILO IS A SAVINGS BANK IN YOUR BACKYARD

### The Spinach Industry in the Salem District May Have a Boom

The spinach industry in the Salem district has been large and growing—But there is a hint in the Salem Slogan pages of this week that it may be due for a boom; a permanent one. Medical and dietary science have given spinach a place of great importance among vegetables—Because it is now generally known among up to date people in these lines that spinach has more iron than any other vegetable—And its use is very important for growing children, and for everybody else who has any regard for his or her health—And now the King's Food Products people are putting out a powdered dehydrated article that is making a hit—And who can say to what magnitude this may not lead the spinach industry; with the whole wide world for a market? Our farmers may sit up and take notice; but they will be ready for their part of the industry. Next week's Salem Slogan subject is onions.

DID YOU KNOW that Salem is the market center of the largest spinach growing industry in Oregon; that our dehydration plant and canneries must have more spinach; that the market for the manufactured product is large and bound to grow very fast, owing to the fact that spinach is one of the greatest vegetables in dietary schemes; that there is money in the growing of spinach, and more farmers are needed here who will grow spinach; and that the powdered dehydrated product may take all that this section can produce?

### CLETRAC Tank-Type-Tractor

As soon as the plowing job is finished, hook the Cletrac to the harrow and seeder, and finish the job.

The CLETRAC rides the top of the soil lightly and does not pack the ground.
