SALEM IS THE DEHYDRATION CENTER OF THE WORLD

Do you realize what that means? It means that there is a market, and a growing market for every vegetable and fruit that can be raised on the land in this territory.

And that means more than is apparent to the stranger at first glance; for a greater variety of fruits and vegetables can be successfully grown here than in any other part of this country or the world.

Dehydration is the greatest thing in the world, in food conservation.

It takes out the water; the consumer puts it back, at any time in the future, anywhere under the shining sun—and then he has the fruit or the vegetable as good as fresh, in every nutritive quality, and in every other way.

The saving will be billions, annually. And all the money comes to Salem excepting what is expended for the nails in the shipping boxes.

Better than a gold mine; for it will never "pinch out."

KING'S PRODUCTS COMPANY

SALEM OREGON (This company is committed to the growth of this community, by a program that will make its output ten times its present output—that will employ 2500 people at its factory; that will pay to the growers \$20,000,000 a year for their products.)

Salem Is Oregon's Onion Center; A Great Industry

The wide world uses onions; has always used onions, since the memory of man runneth not to the contrary. The onion industry is a staple industry— And it is a great industry in the Salem district, which produced last year, perhaps, two-thirds of the four or five hundred cars of onions grown in Oregon. The possibilities of expansion in this industry in this district are very great. The Labish Meadows district alone can produce a million dollar annual crop of onions, at the average range of prices for the past ten years. There are possibilities in dehydration of the stabilizing of the industry. Experiments were made during the last season, in this line, on a large scale, at the Salem dehydration plant. There is every reason to expect good net profits in the growing of onions in this section, taking one year with another, and there is every reason to welcome more onion growers. The Salem Slogan subject next week will be potatoes.

DID YOU KNOW that Salem is the market, shipping and manufacturing center of a great onion industry; that the world does not grow better onions; that, on our beaverdam lands, 400 sacks of 100 pounds can be grown on an acre; that, year in and year out, taking the average range of prices for ten years, the raising of onions here is a very profitable line in intensified agriculture, and that there is room for many more onion growers?
