LINCOLN IS SUBJECT OF SIX O'CLOCK TALK

Eddy Compares Education Of Ex-President With Present Day

State Senator B. L. Eddy of Roseburg delivered a masterly address before the Six O'clock club last night on the subject of Abraham Lincoln. He discussed particularly Lincoln's education and the manner in which he secured it, and made application to the present day education of the young people in the high schools and colleges of the land. He pleaded for more education secured by hard work, and cited the fact that when Abraham Lincoln wanted a grammar, but none was available in his neighborhood, he finally heard of one six miles away and walked the six miles and back in his hard days. His work was done to borrow the grammar and mastering its contents by the flickering light of the open fire. He declared that present day institutions were spending their time and money in trying to secure instruction who could teach by improved methods, with less work and study by the pupils.

The senator declared that present day libraries, both public and private, were filled with books written by moral perverts or intellectual criminals, whose writings break down everything we hold sacred; that destroy the home, virtue and manly and womanly qualities. The young people are getting the habit of doing the easy thing, and reading the easy, trashy books that dissipate the thinking powers, destroy the virtues, and distort the vision of the youth. He declared that high school and college students were reading Ibsen's plays and studying Roman history and Greek mythology when they knew little or nothing of American history and could not write, read, spell or punctuate the English language.

At the speaker mentioned the beautiful marble memorial building now under construction on near Arlington Heights at Washington, being built by the government at a cost of \$2,750,000, which will be dedicated this summer to the memory of Abraham Lincoln, but that no marble pile could be as fragrant, beautiful or perpetual as the memory of this martyr in the hearts and minds of the people of America.

He paid tribute to Lincoln's Gettysburg address and the second inaugural address, comparing the former with the wonderful two hour address on the same occasion by the most finished orator of the time, not a word of which has survived, while only a person in the nation but would recognize it, if three lines of the Lincoln address were repeated.

Senator Eddy was introduced by Judge Daniel Webster, past commander of the department of Oregon, G. A. R., who presided.

The following bills were introduced in the senate yesterday: S. B. 342, judiciary committee—Fixing the salary of the justice of the peace, Multnomah district.

S. B. 343, judiciary committee—Increasing the salary of the constable of Astoria precinct from \$1080 to \$1250 a year.

ANTI-JAPANESE BILL PASSES LOWER HOUSE

Japanese legislation and charged that their only mistake was in not passing it earlier.

HOUSE BILLS

JUDGE TAKES CASE UNDER ADVISEMENT

Mother Sues to Recover Property Deeded to Daughter

The case of Barbara Robinson vs. J. T. Hurley and wife, which has occupied the week so far in the circuit court, was last night taken under advisement by Judge G. G. Bingham.

Mrs. Robinson is endeavoring through the court to recover possession of certain land deeded some time ago to her daughter, Mrs. Hurley, and husband, the defendants in the action. It appears from the testimony that the farm was deeded several years ago with the understanding that the mother would make her home with the daughter. Later complications set in and the mother was adjudged insane and taken to the Oregon State hospital, where she remained but a short time when she was dismissed in care of a son, Frank Morris, and proceedings were commenced to nullify the deed.

During his possession of the property, Mr. Hurley has made extensive improvements on the place according to the testimony offered in the case. Gehlher and Heitzel were the attorneys for the defendant and Dayton and Goldstein of Portland acted for the plaintiff.
