As Lillian was much occupied with the many ends of the web she was weaving for the enmeshing of Grace Draper and Mrs. Allis, and as my mother-in-law wasn't strong, the greater burden fell upon me.

The Game of Hide and Seek.

There was a touch of irony in the fact that my chief assistance Ave., Kearney, N. 'Yes." Lillian replied inscrutably, "and I want you to promise me not to see any one of the applicants, if there be any, or, indeed, any other caller until after give William, who will be at the door henceforth, orders to call me first, but I also want you to understand it thoroughly."

ly, for I knew there was no use of even questioning one of Lillian's decisions, but in the hours that followed I pondered wonderingly over this particular part of her plan in the few moments' respite I had from watching Kato

and Cousin Agatha.
For with an inward smile I had to acknowledge the graphic picturesqueness of my mother-inlaw's caustic homely comment upon them to the effect "that the snooping of those two animals is worse than any cat's." seemed to be everywhere at once. and I gradually recognized the fact that both were hunting the same thing—the hidden paper.

That Kato should be doing this was understandable. That Agatha should have found out anything concerning the paper surprised and troubled me, but Lillian cleared it up with a few trenchant words.

They've Taken the Bait."

"She's got a hunch that you have something secreted about the house, and she's taken it into her suspicious old noddle that it is something discreditable to you," she said, "so she'll move heaven and earth to find it. We must take care she doesn't get at that vase first, although neither she nor Kato have come anywhere near guessing so far."

For we had placed the bogus paper in the same Chinese vase where the genuine had reposed for so long. It was protected with the same metal pencil casc. and as the vase was kept constantly supplied with a fresh blossom in water, and as it was so constructed as to require a magnet to get the pencil case out of it, we felt assured that we had almost an ideal hiding place until we should ourselves get ready

In the meantime the game of nide and seek of the Asiatic and Cousin Agatha made it necessary for me to play so absorbed me that I had almost forgotten Lillian's request to see no callers first, and my wonderment con-
