HOUSE FAVORS TAX OF ONE CENT ON GAS
Funds Would Be Applied To Retirement of Highway Bonds

An additional tax of 1 cent a gallon on gasoline used by motorists in Oregon to be applied to the retirement of state highway bonds would be collected under the provisions of a bill passed by the house yesterday.

Under the provisions of this bill, introduced by the joint committee on roads and highway commission, it is estimated that the state will receive approximately \$375,000 additional revenue annually to be applied on the road construction program of the state if the bill becomes a law.

Such additional revenue has been deemed necessary, it was pointed out, because of the repeal of the 1-1-4 mill general tax for road purposes. Approximately \$300,000 on hand in this fund is to be applied to the erection of a new boys' training school, if the plans of Governor Olcott are carried out.

In brief the bill provides that an additional tax of one cent shall be collected by the gasoline dealers of the state on every gallon of gasoline sold, for all purposes, except for use in any other manner except that of propelling motor driven vehicles on state or county roads, may secure a rebate of the one cent tax paid, upon presentation of a claim to the secretary of state.

It is estimated that approximately \$340,000 annually would be rebated to purchasers for domestic and commercial use and the share apportioned to the counties would cut the net revenues to the state to approximately \$375,000.

Representative Hindman opposed the passage of the bill on the ground that it simply added to the number of citizens already exempted from paying any share in the cost of improving and maintaining state highways.

"The quarter-mill tax intended to be used for the highways of the state," said Hindman, "is being juggled about and is to be applied to the cost of building new buildings while additional taxes are being imposed on the motorists."

Bean For Bill
Speaker Bean, who took the floor in support of the bill, argued that there should not be a tax of even a fraction of a mill applied to the property of the state to provide for road improvements, but that the traffic should bear the entire cost.

The house also passed senate bill 362 by the joint roads and highways committee, relating to protecting sub-contractors, material men and laborers, which provides that these persons or firms may assign their claims against the state in certain cases.

MANY ARRESTED ON TRAFFIC CHARGES
Eleven Will Report Today For Breaking City Regulations

An unusual number of traffic violators were reported to the police department during the past 24 hours. Traffic Officer Hayden declares that violations of the regulations governing the city traffic, goes in "streaks" and that he did not realize he was reporting so many until he referred to the record and found that he had reported 11 victims.

George Bower, 870 Mallory avenue, Portland, was reported for operating his truck without a rear light. He deposited \$10 for his appearance Wednesday to answer to the charge. E. W. Palmer of Rickreall was also arrested for the same offense and deposited a like amount.

Harry Stege, 1569 State street, was arrested for riding a bicycle without a light, and F. E. DeLong, 1108 Chemeketa street, were cited to appear on a like charge. E. F. Bonsteel, 184 South Commercial street, reported for driving an automobile without a rear light burning.

F. H. Spears, 246 North Thirteenth street, was arrested for driving an automobile without a rear light, as was also L. S. Geer, 475 North Commercial street, W. A. Cummings, 1857 North Winter street, A. C. Nelson, 255 Chemeketa street, and C. B. Webb. Clark Morton, 549 North Capitol street, who is running a delivery truck for Steussloff Brothers' market, was reported for breaking the traffic regulations in driving at the rate of 28 miles an hour on Commercial street, between Lincoln and Meyers.

The offenders were all cited to appear this morning before Judge Earl Rice to answer to their respective charges.

DENTAL BOARD STARTS CAMPAIGN
Dr. H. C. Fixott, Portland, to Visit Schools of State

The Oregon state board of dental examiners have inaugurated a dental campaign along the lines of the relationship of the mouth and teeth to the general health. They have secured the services of Dr. H. C. Fixott, D. H. D. of Portland, who will visit the various cities and towns throughout the state to talk to the student bodies and civic organizations in the interests of the movement. The lectures will be illustrated with stereoscopic views showing different conditions in mouth infections.

Dr. Fixott is scheduled to be in Salem on March 2, when he will speak to the junior high schools in the morning and the afternoon before the senior high. At the noon-day luncheon of the Rotarians he will address that organization and in the evening will be the guest at a dinner given by the local dental society.

The principal address of the day will be delivered to the general public at the First Christian church at 8 o'clock when he will use illustrations to impress the vital truths contained in his message. A short musical program will be given at this gathering.

Final arrangements for the coming of Dr. Fixott were made by the board at a luncheon given at the Spa yesterday.

Portland Will Not Get Highway Funds

Senate bill No. 318 was yesterday killed by indefinite postponement when Representative Hindman attempted to have a minority report for the bill substituted for a majority report against the bill on the floor of the house. The bill, introduced by Senator Moser, if passed, would have amended the law which provides for the disposition of funds received by the secretary of state from motor licenses and fees, so that the city of Portland might receive 80 per cent of the amount of funds which are the share of Multnomah county. Representative Hindman, and others of the Multnomah delegation who favored the bill, laid claim to the 80 per cent of the money on the grounds that 80 per cent of the paved highways in the county were within the city.

Senate bills passed were:
S. B. 289, Nickelsen—Increasing the appropriation of the Hood River experiment station.
S. B. 330, Ryan—Increasing the salary of the insurance commissioner from \$3000 to \$3500.
