CHERRO FLOUR

is manufactured by the Cherry City Milling Com-pany, Salem, Oregon and distributed in Salem and throughout the Willamette Valley by the grocers who buy it direct from the Mill, thus eliminating all overhead expenses possible.

CHERRO is altogether a new brand of flour that we manufacture and for the short time it has been on the market, has proven entirely satisfactory to thousands of customers who demand a high patent hard wheat flour.

The manufactured product depends on the crude material used and the methods of production. In manufacturing CHERRO, only the very best hard wheat is used, which is scientifically blended, tempered and milled under laboratory tests and there is no way to make better flour and if there ever is we will make it.

What we claim for CHERRO is that it's as good as any hard wheat patent flour there is or has ever been marketed in Salem. We do not claim that CHERRO makes more bread or that we have the only flour that's good. We do claim and will back it up that there is no better family flour made regardless of cost. We make this statement from a scientific laboratory and mill test backed up by reports from hundreds of satisfied users of this high grade hard wheat patent flour.

Give CHERRO a fair and impartial trial and if it is not exactly as we represent it, your money will be refunded and we will also pay you in cash the price of a sack for your trouble. The reason we can make you this proposition is because we have sold thousands of sacks of CHERRO in the last sixty days with only one complaint to our knowledge.

Why continue to use flour manufactured outside, which is highly advertised and also has a jobber's profit added, which means about 25c per sack more, when you can get just as good an article made at home which leaves your money where it justly belongs?

Regardless of what kind of flour you have been using, order CHERRO the next time and be convinced. Even if quality and price were equal to other flours it's to your interest to patronize local industries but when you can save about 25c per sack, just buy Oregon Prunes with the balance.

More than thirty groceries are back of CHERRO Flour in Salem and are at your service.

Keep "Oregon Made" Dollars Working for Home Prosperity

\$1,000,000 8 Per Cent Five-Year Gold Notes Portland Railway, Light and Power Company

Dated March 1, 1921-Due March 1, 1926 TITLE & TRUST COMPANY, PORTLAND, OREGON, TRUSTEE

You should invest what you can in the 8% Gold Notes of this Company because:

Every dollar invested in the growth and development of this territory is a dollar that will help this community grow.

Every dollar invested elsewhere deprives Portland and vicinity of that much capital and helps some other place become more prosperous.

Invest your savings and surplus money in your home town and help it accomplish bigger and better things for everybody.

If you invest your savings at home the return on that money stays here and benefits every line of business activity in the community.

In investing in the 8% Gold Notes of this Company which are now being offered, you help to increase the service to the public in one or more of the many communities in this district.

This money will be used by the Company in furnishing the 330,000 people now enjoying our service with power, light and transportation, which are absolute necessities of daily life.

The earnings from the many utility properties operated by our Company will continue as long as people live and do business in these various communities and this Company will expand with the development of these communities.

In fact, these 8% Gold Notes afford one of the best investment opportunities you ever had, and give you the added opportunity of serving your home community in a substantial manner.

In view of the fact that this Company offers a limited amount of this issue of Gold Notes to be bought on the partial-payment plan, this attractive investment is within the reach of evrybody who can save a few dollars every month.
