RELIGION AND BUSINESS

(Copyrighted by the San Jose Mercury) Pittsburg, Pennsylvania, is one of the greatest industrial centers in the world. Yet one would hardly look to that city for leadership in religion Still news has reached us that the Pittsburgh Chamber of Commerce has taken up the Golden Rule as a slogan. It has become plain to the business men of Pittsburg, as it has to many people elsewhere, that if the Golden Rule were generally practicad there would be no strife in industry. These hard-headed business men also declare that "the whole trouble with the world is that the principles of religion are not observed enough in everyday af-

fairs. And now comes Roger W. Babson, probably the greatest authority on business economics in this country, preaching milk goat people in the Salem district. There are big commerthat the fundamentals underlying permanent prosperity are district. There are a number of cial poultry plants around Cotthe ten commandments and the Golden Rule. He attributes the present industrial depression to a lack of real religion. subject for next Thursday. We He summarizes the rules of success thus: "The six I's of suc- should have more goats, of all the cess are Industry, Integrity, Intelligence, Initiative, Interest better kinds. and Intensity, and these need good soil and much water if they are to succeed. The good soil is good health and good habits, and especially the habit of loyalty, and avoiding crit- Allenby during the great war icism, sarcasm and knocking of any kind. The water is re- stirred the imaginations of milligion; and if statistics have taught me anything, it is the lions of people throughout the need of more religion on the part of all of us-employers, em-

ployees and the public generally."

There is not a doubt about the soundness of these doctrines if we understand them as these practical men of affairs mean them to be understood. The religion that they are rested. The centuries were lookcalling for is the real kind, not any counterfeit that spends ing down on the contending itself chiefly in cant and pretense. They are not particularly forces. interested in any religious specific warranted to save one from the fires of hell in the next world, if this specific does not also cleanse the nature from inhuman greed, injustice,

envy, dishonesty and immorality in this world. They are not calling for more of the sort of religion that spends itself principally in the enunciation, elucidation and defense of theories, creeds and dogmas, however new, or ancient and venerable. What they want more of is the religion that develops in human life the precepts and spirit of the Prince of Peace, applies them to the practical affairs of this world, and lives and manifests them in all the daily associations and relations of and winning to the same of

In many of our great cities, too, men of affairs are organizing to try to meet this need for more religion in several ways. During the pleasant weather of the warmer seasons meetings by these organizations are held during the noon hour in the squares and parks contiguous to the populous centers, or where this is not possible, right on the public streets or on vacant property. These meetings are not only addressed by preachers of all denominations, but by practical men in all walks of life. And at least in one great city during the present winter such meetings have been held in the largest theatre in the city. At first only one or two hundred gathered, but now not only is the body of the theatre usually filled, but one and sometimes all of the galleries are drawn upon to accommodate the crowd that attends these noon hour

At these meetings there is congregational singing as well as one or more erisp, short, strictly non-sectarian, religious talks. These things are not only a welcome and beneficial diversion for the noon hour for the men and women who gather, but this is a disinterested work of the highest public value. At one of these recent meetings a high official of the federal government appeared and in the course of his talk declared that the religious future of the country, to a large extent, is in the hands of the business men and women of the land. He urged that each man and woman present endeavor to bring religious principles and practices into his daily life and work, and to try to influence others to do the same, with a view to improving the United States religiously and in every other way.

On the other hand, the committee on churches and religious organization of the National Civic Federation, reporting at a recent meeting of the Federation in New York,

ment & Landbury St. manager

declares that certain preachers of all denominations are teaching, or permitting the teaching of radical or Bolshevistic doctrines not in harmony with true Christianity or ideal Americanism. Some idealistic preachers may be doing this, but no serious menace is to be feared from this source. The ranks of Bolshevism, anarchy and revolution are today not recruited from the churches or religious organizations. They are chiefly made up of men and women who have thrown to the winds the restraints, precepts and worship of all religions, and are boldly advocating complete gratification of every human passion and appetite, however debasing or re- pressed down with an abject and volting. The sure refuge from Bolshevism, anarchy and destruction is in religion of the pure and undefiled sort which the better class of the business men of the country are be- had been bumped off. ginning to demand.

But there is another class of "Religion and Business' organizations forming in the various commercial centers of the country. We are advised that one of these new organizations is forming or has already formed in our neighboring city of San Francisco. The men who are organizing these new associations are not only fully alive to the value to themselves and to the country of bringing into and applying to business the precepts and principles of religion, but many of them have become aware of the existence of spiritual powers and faculties in themselves of which, until recently, they never dreamed. They are coming to see that the developmnt of these powers and faculties is not only a benefit to them and to the world, but that such development is a real busi-

The sole hope of the world is a religion that will purify and soften the human heart; that will displace greed, envy and strife by justice, harmony and love; and that will cause to spring up in human life out of the mire and ooze of human selfishness, immorality and brutality the beautiful, pure, white blossoms of holiness, mercy, love and spirituality. It is the reality that the world needs. It matters not at all to paradise was Thought? Adam what particular creed it subscribes or what name or label

RULERS OF THE NAVY.

(Continued from last week.) CHAPTER FORTY-NINE.

For a long time that night neither Porter nor I said a word. The whole prison seemed to be sodden misery. The cons missed the Kid from the patch of sun-light in the yard. They knew he

"Coloney, have you any special hope as regards heaven?" Porter had a glass of Tipo half raised to his lips. The grafters had sent us a new case of costly wines. "Give me a swallow of that, Bill; it must have a wonderful kick in it-up to heaven in two gulps!" Porter ignored me. It

was not a night for jests. "I am not speaking of a churchy paradise, but what, Al, is your idea of a state of perfect bliss?" "At present, Bill, a dugout way off in the wilderness, where I would never again see the faces of men. I would want plenty of cattle and horses, but no trace of the human kin except perhaps a ew of their books."

Porter Impressed By Own Brilliance.

"No, the books would spoil it. Don't you realize, colonel, that the serpent who wrecked the first and Eve and all their unfortunate descendants might still be lollin' in joyous ignorance on the banks of the Euphrates if Eve to know. It's quite a feather in a woman's cap. Mother Eve was the first rebel-the first think-

Porter seemed impressed with his own brillance. He nodded his head to emphasize his conviction. 'Yes colonel," he continued. "thought is the great curse. tience of God. "I am right, Colonel, for all of your opposition, thought not poised with humility, is but a good lashing man's conceit to madness or at the other extreme we have thought unblended with faith then it is but a bludgeon striking man's yearnings down to despon-

Abruptly he came over to me. He had picked up another bead for his fantastic chain.

"Was there ever a case in this pen when a man was electrocuted that it was afterwards found that he was innocent?"

"Not in my time, Bill. they tell of several. The old stirbugs could freeze the marrow in your bones with their tales."

"Some of them must be true. It is inconceivable that a man's judgment should always be correct. The fact that one man has been cut off from life on evil evidence is sufficient indictment against the whole system of murder on circumstantial proof. How can men sit on a jury and take into their hands such wicked pow-

Several hours before the 9 o'clock gong had sounded there was a thick hush over the sleeping institution. Porter's whispering eloquence had lulled into quiet. Our uneasy pangs were well diluted in Tipo and into our harried minds there had drifted a half-dozing contentment. Suddenly a hoarse, rumbling growl that lifted into a piercing shriek hadn't been stung with the desire came rasping out from the cell block. Porter leaped to his feet.

Shriek Sounds Like Crack of Doom.

"What was that? I was dreaming. It sounded like the crack of doom to me. This infernal place is haunted. I wonder if the Kid's spirit rests easily tonight? Colonel, do you believe in spirits, in an after life, in a God?

"No, I don't-leastwise, I don't "Well, I do in a way. I think

here is some kind of an all-powerful spirit, but the God of humanity doesn't loiter in this pen. He doesn't seem to be a student of

"If I thought much about this affair of today I would lose all faith, all happiness. I would never be able to write a hopeful line." It was well for Porter that his release was due in a short time. The world could not afford to miss

New Hair Growth After BALDNESS

On legal affidavit. John Hart Brittain, business man, certified to this; "My head at the top and back was absolutely bald. An expert said that he thought the hair roots were extinct, and there was no hope of my ever having a new hair growth.

"Yet new, at an age over 66, I have a luxuriant growth of soft, strong, lustrous hair! No trace of baldness. The pictures shown here are from my photographs."

INDIANS' SECRET OF HAIR GROWTH

Mr. Brittain certified further: "At a time when I had become discouraged at trying to grow my hair again, I came across, in my travels, a Chero-kee Indian 'medicine man' who had an elixir that he ameverated would grow my hair. Although I had but little faith I gave it a trial. To my amazement a light fuzz soon appeared. It developed, day by day, into a healthy growth, and ero long my has was as prelific as in my routhful days."

True Hair Grower at Last That I was asionished and happy is expressing my mule of mining the party was beld, mildly. Obviously, the hair roots had not been dead, but were demant in the scalp, awaiting the fertilizing potency of the then symptious pomade. I negotiated for and came into possession of the principle for preparing this, now called KOTALKO, and later had the recipe put into practical form by a chemist. That my own hair growth was permanent has been amply proved."

Falling Hair

It has been proved in very many cases that hair roots did not die even when the hair fell out through dandruff, fever, aloperia areaia, or certain other hair or scalp disorders.
