winter, some of the farmers of the middle west have found it more advantageous to burn corn for fuel than to sell the corn and buy coal. Apparently, the bottom has dropped out of the corn market and the farmers themselves cannot depend upon getting more than 10 cents a bushel.

BITS FOR BREAKFAST

Cool reception yesterday morning. But it is good for most of the prospective fruit crop, so far.

George H. Street, the man who proposes to build a dam in the Salem district is due in Salem now. Mrs. W. P. Lord wrote, some time ago, from Baltimore, that he was to start for Salem as soon as the tariff hearings were over.

Robert Crawford, superintendent of the penitentiary plant, is also due home from his trip to Ireland and the flax manufacturing districts of this country.

It is time the growers of the flax were beginning to get very busy, though the sowing here has usually been about the first of April.

With the tariff question at the front it begins to look like the good old time again," says an exchange. It will have a very short engagement at the front. The bill will be ready when congress convenes in special session, and it will be rushed through on record time, as it should be.

Will H. Hays, a little fellow, physically, but his friends say he is the sort who will deliver the mail.

APRIL 11 IS DATE OF NEXT CONGRESS

Adjournment Expected At Late Hour Today By Senate

WASHINGTON, March 14.—April 11 was selected for the special session of the 67th congress, the first under President Harding's administration. The adjournment was received with general satisfaction by senate leaders.

Senator Lodge of Massachusetts, Republican leader, notified the senate of the president's decision late today after he and Senator Underwood of Alabama, minority leader, had returned from the White House. They had gone to the president with a message from the senate that it stood ready to adjourn sine die.

The president, however, requested the senate to meet at 11 a. m. tomorrow when he said he expected to submit names of nominees for "important offices" vacated by resignations of Democratic appointees.

PAIN GONE! RUB SORE, RHEUMATIC ACHING JOINTS

Rub Pain Away With a Small Trial Bottle of Old "St. Jacob's Oil"
Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacob's Oil" right on the "tender spot," and by the time you say "Jack Robinson—out comes the rheumatic pain and distress. "St. Jacob's Oil" is a harmless rheumatism liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins. Mentho-Sulphur is a specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

POOLROOM TRAINING IS BAD TRAINING

The youth who ran away with three-quarters of a million dollars' worth of Liberty Bonds, several young men who have committed mail robberies and some juvenile check passers all admit that the substitution of a poolroom training for that of the home is largely responsible for turning their thoughts into criminal channels.

A poolroom is an easy place to kill and bury a lot of time, but it also takes some money.

The youth cannot often make the money while he is killing the time and so he drifts into the easiest way of rounding up the dough without having to work for it. This breaks the ice for criminal adventure and presently our youthful pool shark is also an accomplished porch climber or a first-class highwayman.

And it is often appropriately suggested that parents who willingly consent to the substitution of the poolroom for the home as a training field for the morals and manners of their offspring should share the responsibility for their crimes. The pool table is an innocent and harmless thing of itself, but frequently its environment is rotten.

It has paid the poultrymen to wait. There is to be a new poultry building this year on the State Fair Grounds, and it is to be a magnificent structure, of hollow tile construction, stucco finish, and a composition roof, and it is to be 80 by 140 feet. It is to be on the corner where the roadway turns to go to the new stadium—a fine location.

If this tar and feather business keeps up in Kansas, the bunch of Bolsheviks who elected the Non-Partisan League will ere long conclude that they are not wanted in the Sunflower or Windy State. Though it must be admitted that the Kansas boys have been treating 'em a little rough.

The news coming out of Russia is conflicting; because it is largely propaganda, which is largely lies. The one safe conclusion is that things in that distressed country are going from worst to worst. The status of bad to worse has long since passed.

It is proposed to have employees and employers equally represented in all the Armour plants, for the regulation and settlement of working conditions and labor disputes, with arbitration when they fail to agree. This is along the ideas of the Four-L organization in most of the saw mills and logging camps of the north-west, and of the industrial board in Salem. The demand for measures for insuring industrial peace is growing all over the country.
