UNIQUE "ETON" IN OLD FARM HILLS AS VIEWED FROM THE VILLAGE GREEN.

To the genius and generosity of a woman will be due an important and unique addition to the rank in this country of those great preparatory solools for boys -Eton, Rugby and Harrow, in England; Groton, St. Paul's and St. Mark's in America-which wise men have credited with a significant influence on the progress of the Anglo-Saxon race. A wise man privileged to become a boy again could ask for nothing better than to become one of the first 300 pupils at the novel and fascinating Pope School for Boys, being built on a bluff overlooking the Farmington River at Old Farms, Avon, Coun., by Mrs. John Wallace Riddle-profession ally known as Theodate Pope, achitect-as a memorial to her parents, the late Mr. and Mrs. Alfred Atmore Pope. Architecturally and educationally the Pope School for Boys, for the establishment and management of which Mrs. Riddle has incorporated the Alfred Atmore Pope Foundation, will be unlike any other great preparatory school. It will differ from Groton, St. Paul's and St. Mark's, for instance, in giving its students the daily interest of genuine country life in the shape of a little practical farming, forestry, dairying, carpentery and what not, in addition to a full allowance of the highest standard of academic work.

## YOUNG OLD PEOPLE" ARE ON THE INCREASE, AND THERE'S A REASON

S. Stimson, Proprietor of the Great Hollywool Farm, Near Seattle, Gives the Reason, and the One Way Under Heaven by Which Young People May Remain Young and Virile and Purposeful and in the Enjoyment of Health.

Statesman building. Mr. Stimson is proprietor of the great Hollywood Farm, near Seattle-a farm hat produces pure bred livestock and poultry and their products; a farm that is conducted like a bank, with a close system of bookkeeping for every department, and a farm that is made to pay, on a fact. very large scale - though Mr. Stimson could afford to own it without making it pay. But he prefers to see that it does pay-and that every department makes a profitable showing. Following is

the article:) It has been manifest for some on the increase. Through the disknow that the reason is improper

sity Man Approved By Sinn Fein

CORK, Feb. 27. - An original scheme of government for Ireland, by Professor Alfred to one quart per day per individ- O'Rahilly, registrar of the University of Cork, is arousing great insuch a fact and began to reduce terest in Ireland. The correspondent has been informed that the plan has been indorsed by many men prominet in the Sinn Fein movement, in which Professor garding proper diet. I present two O'Rahilly is a recognized leader.

Briefly, the scheme calls for an Irish confederation and, according to Professor O'Rahilly, who discussed it at length in an interview with the correspondent, it provides the only solution of the northeast Ulster question.

Professor O'Rahilly is not opposed to the idea of partition, 'Our proper attitude," he said. should be to insist on more partition. Ireland should be divided

"What many quite fair-minded palatable, and included only nat- Ulster business men fear is the possibility of an all-powerful central parliament in Dublin, And to tell the truth Cork men are not really enthusiastic about a Dublin Westminster, nor are Connemara peasants likely to favor a central sovereign assembly controlling all the minutiae of Irish life. "It's a mistake to think there

is merely an Ulster problem. There are about 40 problems. We are a hetereogeneous people and to remain true to ourselves we must have far more local liberty and regional autonomy than is allowed in the ideal of a central parliament or two assemblies in Belfast and Dublin." In Switzerland, he pointed out,

here are 22 sovereign states dif-
