Wheel Broken—A broken wheel on his automobile was the result of a collision occurring yesterday when E. A. Aegerter, route 8, attempted to pull out from the curb on Court street, and was struck by an automobile driven by L. W. Polk, 2345 Myrtle street. In making a report of the accident to the police department, Mr. Polk claimed that Aegerter failed to give a signal.
Prices Are Still Low—There has been no advance in our prices as the Easter season approaches, in fact they have dropped. Mosher, the tailor. (adv.)
Johnson Divorce Case—The Statesman of Wednesday contained a news item concerning the granting of a decree of divorce in the case of Mary A. Johnson and Hiram Johnson, in which Mrs. Johnson was awarded the custody of their adopted child, Leo Delbert Johnson, and \$40 a month for the support of the child. That is the record, as far as the decree is concerned. But the findings make a much different showing. The case was tried before Judge H. H. Belt of Dallas, sitting at Salem. He found that the plaintiff, Mrs. Johnson, failed to sustain any of the allegations as to the cruel treatment of the defendant—in fact, that she failed to maintain any of her allegations at all, alleging grounds for divorce, but that she herself had deserted the defendant on October 15, 1919, and had continued such desertion. Therefore a decree of divorce was made in the case. The decree of divorce, therefore, was really granted to the defendant, Mr. Johnson.

DR. O'NEILL'S EYE TALKS
Do you suffer from HEADACHE?
Do you suffer from eye headache? This is one symptom of eye trouble that should not be overlooked. The brain in sensing the messages brought to it by the optic nerve becomes overworked when such picture-message is obscure and causes brain-fog and headaches that nothing will relieve except correct vision. Let our optometrist examine your eyes.

Debs Visits Daughterty to Review Case (Continued from page 1)
communicative, nor did he evince any desire to talk either before or after his conference.
The attorney-general told newspapermen that the calling of Debs here did not mean the adoption of a policy of general amnesty toward political prisoners, but was merely to facilitate the investigation of the Debs case.
ATLANTA, Ga., March 24.—The departure from the Atlanta penitentiary yesterday of Eugene V. Debs, who discussed his case with Attorney General Daughterty in Washington today, was shrouded in secrecy.
The fact that Debs had left the prison was the subject of rumor here last night, but not even his attorney, S. M. Castleton, knew anything about it, according to his own statement. F. C. Zerbst, warden, avoided questioning by keeping him where about concealed and late today when located for a few minutes, declined to discuss the matter.
The unprecedented trip, as announced by the attorney-general, was the first time Debs had left the penitentiary since he was sent here in 1918. His trip to the station was understood to have been under guard of department of justice agents. It was understood this was a precaution to forestall possible interviews.
Debs was scheduled to return here Friday. He has been regarded as a model prisoner, according to a recent statement of the warden and so far as known has only once been disciplined.
That was on the occasion of his criticism of President Wilson shortly before the latter retired from office.

Mayor of Bandon Files Application For Water
George F. Topping, mayor of Bandon, has filed personally with the state engineer an application on behalf of the city of Bandon for the appropriation of 10-second feet of water from Willow creek for a municipal power plant. It is proposed to develop 795 horsepower, utilizing a head of 700 feet. The power plant will be located a short distance south of Bandon, necessitating the construction of a transmission line. It is estimated that the development will cost \$105,000. A small reservoir will be built on Willow creek for the purpose of equalizing the flow.
Other applications have been filed as follows: By Edwin O. Morse of Amity covering the appropriation of water from an unnamed spring for domestic use and irrigation of a small tract in Yamhill county.
By Louis Hoerlin of Hood River, covering the waters of an unnamed spring for domestic water supply in Hood River county.
By Roy Conley of Buck Fork, Oregon, covering the appropriation of water from North Myrtle creek and springs for irrigation of a 10-acre tract and domestic supply in Douglas county.

Libel Filed Against San Francisco Walnuts
PORTLAND, March 24.—A libel was filed in the federal court here today against five cases of walnuts shipped by a San Francisco firm to a local candy factory. The complaint alleged that the walnuts were decomposed and unfit for human consumption. The proceeding was brought under the federal pure food act.

Season Proves Exceptionally Favorable for Growers At Independence
The broccoli crop of Independence will amount to nine car lots this season. Already, through the Oregon Growers Cooperative association, shipments by freight have been made of four car lots to eastern points, and two car lots by express to Seattle, Spokane and other northwestern points. There are three more car lots to be shipped by the association to eastern points before the season closes.
This last season has been a favorable one for the Independence broccoli growers. According to Sloppe brothers, the heaviest shippers, the price this year averages 25 cents more a crate than for that shipped last year, even when all food commodities were selling at a top figure.
Through the Oregon Growers association, the Independence growers have been receiving from \$1.25 to \$1.60 a crate with an average of \$1.50 a crate for car lot shipments made by the association.
