## AIRPLANES FINISH SURVEY OF DAMAGE

### Timber Loss by Storm Is Greatest in Region North Of Lake Quinalt

PORTLAND, Ore., March 31.—Three airplanes which completed a survey of the damage to timber on the Olympic peninsula started south today en route to Sacramento.

Elmer Pendell, aerial observer from Eugene, arrived here today by train and will continue to Eugene where he is a senior at University of Oregon. He said that areas affected by storm damage showed 10 to 20 per cent loss. The damage increased northward from Lake Quinalt, he said. The loss was greatest around Lake Tyee and on the Soulduck river, where it averaged 8 per cent, he said.

EUGENE, Ore., March 31.—The three army airplanes detailed by the war department to make an aerial survey of the timber on the Olympic peninsula in Washington, recently damaged by a severe wind storm, arrived in Eugene this afternoon on their return flight to Rockwell field, San Diego, and remained overnight. The aviators expect to start on the second leg of their flight tomorrow morning. They flew to Eugene from Camp Lewis without stopping.

Captain Lowell Smith, in charge of the squadron, said that numerous photographs taken of the devastated timber show that immense damage was done. The pictures when developed will be turned over to the forest department and a complete written report will be made by the aviators.

## RECALL OF OFFICIALS HAS BEEN ORDERED

(Continued from page 1)

Industrial commission, on being informed tonight of the proposed recall, declared that decision to hold the recall election in November instead of in June as at first proposed, is for the purpose of defeating a sale of state bonds and keeping money out of the state.

Governor I. J. Frazier, chairman of the industrial commission, declined to comment.

Attorney General William Lemke, third member of the commission, is away from the city. The Republican league executive has announced it would institute a counter recall movement against independents now holding the offices of secretary of state, treasurer, superintendent of public instruction, member of the railroad commission and possibly a member of the state supreme court.

## HARTWIG SEES PEACE AHEAD OF DIFFICULTY

(Continued from page 1)

for unrest—which will not be confined to Salem but which will be reflected in all sections of Oregon.

"Arbitration is the proper policy, and I believe in this manner of settling labor disputes. It is my hope that the Spaulding Logging company will reconsider its action and submit to arbitration. Your local arbitration board is composed of men of integrity and intelligence and both sides to the controversy may expect a fair deal."

"This is an age of organization. Corporations created and operated along modern lines organize to promote their business. Without this organization of capital and effort failure would be inevitable. This being the case, why should mere employer deny his workers the right to organize?"

Arbitration Predicted. "Employers have said that they would rather deal with their men as individuals. This is quite natural for the reason that they well know that in times of distress they can drive a harder bargain with a hungry man than with an organized one."

"It seems strange to me that Mr. Spaulding has refused to arbitrate. If it is true that he cannot operate his mill at a profit at a minimum wage based on \$3.60 a day, this fact would be brought to the attention of the arbitration board. I know of no fairer way to get to the facts in the case—both as they affect the employer

## FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies Are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks beautiful and thousands of women and men who value that even color that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Weyth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Weyth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. and worker, than through the avenue of arbitration.

"It is my opinion that Mr. Spaulding will arbitrate, knowing as I do that he does not have the sympathy of hundreds of the largest employers in Oregon. I would go further, and in the absence of concrete information, say that he is being besieged by many employers to settle his labor differences that harmonious industrial relations may continue in this city.

Support Promised. "The entire labor movement of Oregon is behind you boys in this situation, and the federation will do all in its power to see that you get a square deal. Something has been said with regard to placing the Spaulding company on the unfair list. This action is serious, and I do not think it will be necessary for you to go that far. The company, I believe, will soon realize that it cannot defy the business interests of your city, the commercial organizations, trade and labor council and the state at large.

"The public is watching the labor situation in Salem, and from what I have been able to gather, there are few, if any persons who believe you should receive less than \$3.60 a day for your labor. Surely, with that return you will not be able to purchase a home or save any funds for a rainy day."

Committee Makes Report. Preceding Mr. Hartwig's address members of the committee of employees appointed to confer with Mr. Spaulding a few days before the mill was shut down, reported that they had acted as instructed but had not been able to reach any agreement. It was said that the proposal to arbitrate was submitted to Mr. Spaulding, but instead of replying to the request he ordered suspension of operations. It was explained by Mr. Spaulding, according to the committee, that the shut down of the mill was due to uncertain lumber conditions and nothing was said with relation to the labor differences.

I. V. McAdoo spoke briefly at last night's meeting. He said he concurred in the statements of Mr. Hartwig, and believed that

arbitration was the best means of settling labor differences. To this end he offered the suggestion that the executive committee of the central trades and labor council and the ways and means committee

of the timberworkers confer with Mr. Spaulding today and certain if he would be agreeable to arbitration.

The timberworkers then went into executive session.

### FIERY, ITCHY SKIN QUICKLY SOOTHED WITH SULPHUR

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing soothes fiery skin eruptions so quickly, says a noted skin specialist.

The mentho sulphur preparation is applied to the itching spots and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up.

A small jar of Mentho-Sulphur may be had at any good drug store. (adv.)
