Four More Acres Added To List for Broccoli Two more broccoli growers have come to the front with two acres each making four more acres to add to the car shipments that will go out of Salem next February and March, provided all goes well with the crop. The acreage is getting up towards 150, outside of the Independence section. The Salem Broccoli association does not wish to assume responsibility for seed after Saturday night, so all others who contemplate growing broccoli this year, let it be repeated, should get their names in today, tomorrow or Saturday. The two new growers are: E. B. Anderson, Salem, route 2. C. F. Valentine, Salem, route 3. As the Valentine is the variety of broccoli to be grown in the Salem district, it is very appropriate that Mr. Valentine should be the latest man to join in the game.

CONDITION OF ROAD GIVEN IN DETAIL (Continued from page 1) well macadamized or gravelled. This stretch of twenty-three miles is fast, and road users can be made through Cascade Creek canyon. In fact, it is an easy matter to drive it in one hour. From Wolf Creek, over the divide, a distance of five miles, the road is paved from this point to the top of Section Mountain. The road is macadamized, but from the top of Section Mountain to Pleasant Valley, there is one section of approximately two miles over the old Section mountain road and thence over the main line in Grants Pass which has not yet been surfaced and the condition is only fair. The distance from the end of the pavement, five miles south of Wolf Creek to Grants Pass is eighteen miles. Highway Surfaced From Grants Pass to Rogue River, nine miles, the highway is surfaced, but from Rogue River to Gold Hill, ten miles, it will be necessary to detour over the old highway, the condition of which is only fair. From Gold Hill to Ashland, a distance of twenty-seven miles, the road is hard surfaced. From Ashland to the California line, a distance of twenty-seven miles, the road is hard surfaced. PACT CALLED INFAMOUS

Kellogg Says Ratification of Treaty Breaking Faith With Roosevelt MEANS BAD PRECEDENT

Acceptance Would Cast Shadow on Bright Page of History

WASHINGTON, April 13.—Ratification of the \$25,000,000 Columbia treaty would not be keeping faith with Theodore Roosevelt, Senator Kellogg, Republican, Minnesota, declared today in opening senate debate for opponents of the pact.

Acceptance, even as amended, he asserted, would be a "punishing act" and "a shadow on the brightest page of the history of American accomplishments." He reviewed the part played by the United States under President Roosevelt in the events that attended the revolt of Panama from Columbia and noted a message received in 1917 from Mr. Roosevelt, saying ratification of "this infamous treaty" would set a dangerous precedent.

"It makes precedent," Mr. Roosevelt was quoted as saying, "for some successor of Wilson to pay at least a large sum of money to Costa Rica, Nicaragua, Haiti and Santo Domingo for what has been done to them recently, and also to Chile for our insolent and improper treatment of her in connection with the Alsop claim."

Senator Kellogg also alluded in the record a letter written by Colonel Roosevelt in 1917, in which he declared the "crux of the matter is as to whether we ought, or ought not to have recognized Panama."

"I did badly," Mr. Roosevelt wrote, "we are in honor bound now to restore both Panama and the canal zone to the bandits from whom they were severed. Mere payment of blackmail is not enough. Of course, no smallest particle of evidence to show we engineered the revolution can be produced, because our every action was open. No revolution was ever more justified than that of Panama against Columbia and had I not acted as I did, there would be no canal."
