### Strike of 175,000 Marine Workers Threatened If Wages Are Cut

### BENSON CALLS MEETING

#### Representatives of Two Fac-tions Parly in Washing-ton Wednesday

NEW YORK, April 25.—Lines tending toward a nation-wide strike on May 1 of more than 175,000 unionized marine en-gineers, firemen and seamen were closely drawn here today when the unions refused to consider a new contract proposed by the owners carrying wage cuts averaging 25 to 35 per cent.

The engineers, through their national president, William H. Ryan, followed their refusal by issuing a strike order effective that date if the cut is put into effect. The firemen and seamen, through Andrew Furuseth, presi-dent of the International Sea-

men's union, said their men had voted on the matter and they would quit work if the wage cut was made effective. Overseas and coastwise American flagships on the Atlantic, Gulf of Mexico and Pacific will be involved unless the differences are adjusted.

#### Federal Aid Probable

At the close of the conference today it was announced that Ad-miral Benson, chairman of the United States shipping board, had called a conference of representa-tives of the owners and unions next Wednesday at Washington. It was indicated federal influ-ence will be used to bring about an agreement and prevent a strike.

The conferences today were the culmination of a series of meet-ings between representatives of the unions and owners. The en-gineers last week announced a wage cut would not be accepted and today the declaration was re-iterated. At previous conferences the firemen and seamen insisted that wages be made necessary to enforcement of alleged violations of the LaFollette law, abolishment of the shipping board's sea service bureau prefer-ence in employment of union men.

#### Discrimination Alleged

It was further stated that this bureau was furnishing American ships with seamen, 80 per cent of whom were American citizens while the seamen's unions were furnishing a negligible percentage of Americans. Preference in em-ployment of union men was de-clared to be discrimination against Americans and the de-mands were refused.

As a result of the refusal, Mr. Furuseth and his associates left the meeting and declared the men would refuse to work after May 1, if the wage reduction was put into effect.

#### Miners in Conference

LONDON, April 25.—An official report on this morning's con-ference says the conferees consid-ered a statement by the owners proposing dividing the country into agreed areas.

Standard wages for the miners would be fixed as against standard profits for the owners, under the

#### Gandil Sends Word From Texas That He Will Appear Involuntarily

SAN JOSE, Cal., April 25.—Hal Chase, noted former major league ball player, was arrested here late today by local officers on a warrant which they said had been issued in Chicago in connection with recent inquiries into baseball scandal charges.

#### Proceedings Not Delayed

CHICAGO, April 25.—That proceedings would be started im-mediately against Hal Chase, "Chic" Gandil, "Bill" Burns, "Sport" Sullivan, "Abe" Attell, and other recently indicted in connection with the 1919 world's baseball series gambling scandal, who had not appeared and given bail, was announced several days ago by States Attorney Robert Crowe.

At that time the chiefs of police in the cities where these men were supposed to be residing were asked to take them into custody. In case of their refusal to return vol-un-tarily to Chicago, it is proposed to start extradition proceedings without delay.

#### Gandil Sends Word

Arnold "Chic" Gandil, former major league infielder, has sent word to the state's attorney from Texas that he would come to Chi-cago voluntarily and it was stated tonight that he would be given a reasonable time to appear before his arrest is ordered.

The states attorney's office also announced that the arrest of Ed-die Cleotis, former major league pitcher, and Rube Brown, al-leged gambler, also has been re-quested.

Judge G. W. Riddle, of Riddle, Oregon, is in the city today at-tending the annual meeting of members of the cooperative asso-ciation. Judge Riddle has served for the past year as one of the directors of the association and was re-elected at the January election.

Judge Riddle, although 82 years old, is one of the most ac-tive and energetic fruit growers of southern Oregon. For many years he has taken an active part in the affairs of Douglas county.

#### LAND BOARD TO GET MORE TIME

### Extension of Ten Years On Tumalo Development Is Allowed by Spry

The state desert land board at a session yesterday did its first of-ficial business with William Spry, the new commissioner of the gen-eral land office, who granted a request of the state for an ex-tension of 10 years in which to complete reclamation of the lands of the Tumalo irrigation project in Deschutes county. The project embraces 27,000 acres.

A district has now been orga-nized in the project and the exten-sion has been obtained so that work may continue under a con-tract between the district and the state.

The board reappointed F. N. Wallace manager of the Tumalo project.

At a meeting of the state land board an application was received from the Hockett Digger company for a lease on the bed of the Willamette river between Broad-way and Essex street, Portland, for the purpose of extracting gravel. The board, however, will ad-vertise for bids on the lease for a period of two weeks.

#### SCOTT'S MILLS ITEMS

SCOTT'S MILLS, Or., April 23.—(Special to the Statesman)—A birthday party was given at the home of Mrs. C. A. Dunagan for her son Shirley Saturday evening, April 16. to Oregon just a few years before Judge Riddle was born.

He was nine years old at the time of the Mexican war, that war that gave California, Utah, Ari-zona and parts of Wyoming, Colo-rado and New Mexico to the United States. He was 20 years old when Oregon was admitted as a state into the union.

And yet, Judge Riddle has a been interest in the problems of today, is a hard worker and was one of the first fruit growers in southern Oregon to become a member of the Oregon Growers Cooperative association, believing in the principles of cooperation.

#### ARDUOUS JOB

A motorist touring in the west-ern counties where, though the scenery is beautiful, the roads are bad, managed to get his car stuck in a tenacious mudhole.

After he made vain attempts to escape a boy appeared with a team.

"Haul you out, mister?"  
"How much do you want?"  
"Two dollars."  
After a long and fruitless argu-ment the motorist agreed to pay the amount asked and the car was pulled to dry land.

After handing the money to the lad, the motorist asked:  
"Do you haul many cars out in a day?"  
"I pulled out twelve today."  
"Do you work at night, too?"  
"Yes; I haul water for the mudhole."

#### BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and actually correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "fullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c.

### B-H Workers are Experts

Though not generally known, it is a fact that expert paint and varnish makers require many years of training before becoming efficient, and even then but few become experts. In the Bass-Hueter factory all varnish making is supervised by an expert of over forty-two years' experience. Similarly the superintendent of paint manufacture has had over thirty years of success in this work. But expert personnel is just one of the reasons for the high quality and economy of Bass-Hueter products.

A scientifically operated plant doubled in capacity and equipped with the most up-to-date mechanical devices, many of which are exclusive Bass-Hueter features, brings production costs down to a minimum.

Quality for quality Bass-Hueter products cost the consumer less. In addition there are over 600 exclusive Bass-Hueter dealers distributing the many varieties of Bass-Hueter paints and varnishes to consumers located in five Pacific Coast states.
