The situation between the two women, almost equally heroines, is tense and occasionally dramatice, and the closing scenes are handled with nerve and dash. Still for all, the book's enjoyable qualities there is a taste of dead sea fruit on the grapes and oranges of sunny California. Life is too sad-even Paris is dull and prosy, and we long to escape into a purer air, unclouded by distastes of war, seismic convulsions, disappointed hopes and shattered

illusions. In short, the reared must sense from these pages, that our poor old world is no nearer Utopia than it ever has been.
