

MISTLAND PRUNES ARE ADVERTISED

Editor of American Fruit Grower Helping Fight for Lower Freight Rates

Mistland prunes, tart sweet Oregon's famous orchards and incidentally Salem Oregon, received fine advertising in the May issue of the American Fruit Grower published in Chicago.

For it is in this issue of the magazine in the United States that appears a two column cut illustrating one of the large Mistland posters placed in the subway of New York City. From this illustration, more than a million readers will be introduced to "Mistland" the brand under which the Oregon Growers Cooperative Association packs its prunes.

The illustration is used in connection with an article on "Advertising—A Factor in the Fruit Industry," by C. I. Lewis, assistant general manager of the association.

Samuel Adams, owner and publisher of the American Fruit Grower was a visitor at the offices of the association a few months ago and expressed his great surprise at the wonderful fruit possibilities of the W. Hammett valley. Through his magazine, he is making a fight for fruit growers in western Oregon to secure lower freight rates.

It was Samuel Adams who first

one time almost had the nomination for vice president on the Republican ticket at the national convention in Chicago last summer. He had strong support from southern delegates but could not

Highway Work Halted on Dangerous River Cliff

Because of conditions that have arisen endangering the lives of workmen and possibly property of the Oregon-Washington Railroad & Navigation Company the state highway department yesterday

The location is a point around which flows the Columbia river with the railroad lying on a bench around a cliff about 100 feet high.

The construction workers attempted to "shoot" a tunnel through the point but because of the seamy formation of the rock it crumbled and killed, making the work extremely hazardous.

Work will not be resumed until an agreement can be reached as to procedure. This involves will either be a "burning off" of the entire point or an arrangement with the railroad to shift its tracks in such a way as to let the highway by.

Hamilton, the Salem Women's Club, Dr. Mary Rowland, the Business and Professional Women's League and Dr. E. E. Pound, the American Legion Representatives to the Chairmen and Rotarians have not yet been announced.

HARDING ACCEPTS COUNCIL INVITATION

(Continued from page 1)

Word late today to Sir Auckland Geddes, the British ambassador, who yesterday handed to Secretary Hughes the invitation of the council which was signed by Premier Lloyd-George of Great Britain, as the president.

Democrats Disapprove Announcement that the invitation had been accepted came late in the day after the senate had adjourned. Republican senators generally, however, expressed their approval while Democrats

Administration officers made it plain that Mr. Harvey would sit with the premiers of Great Britain, France and Italy and the representatives of Belgium and Japan on the supreme council as the personal representative of the president of the United States and not of the American government.

Mr. Harvey will be in a position to keep the president fully informed on all subjects with which the council has to deal.

settlement of the more important questions resulting from the war and to it has been referred the American protest to the League of Nations against the award to Japan of a mandate for the island of Yap.

The supreme council also is expected to take up the whole subject of mandates which was reopened by Mr. Hughes' recent notes to the governments of Great Britain, France, Italy and Japan, in which he dealt specifically with the mandate for the Pacific island.

Mr. Harvey is en route to England and it is assumed that he will begin his duties as the president's representative on the council at the next meeting. It is pointed out that by making the new ambassador his own representative, the president did not have to ask the approval of congress as would have been necessary had it been desired to appoint an official representative of the government.

Administrators on officers have indicated that one of the first subjects to be taken up by Mr. Harvey will be the question of a world conference for disarmament. While the president has asked that no action on this question be initiated in congress in the present state of conditions in Europe, some of those close to the White House expect that so soon as the present emergency has passed the supreme council will be asked by the United States to take up the whole disarmament question.

Wallace to be Relieved. For the present Ambassador Wallace will be the American officer at the conference of ambassadors. He acted in this capacity of the Wilson administration until decision was reached to withdraw him and also Mr. Hodson as the unofficial representative with the reparations commission. This action was taken, it was explained, in order to avoid any possible embarrassment to the new administration.

Myron T. Herrick, the newly appointed ambassador to France, will relieve Mr. Wallace in the near future.

Mr. Hodson sat with the reparations commission for many months and also was the unofficial American representative at the recent allied financial conference at Brussels. He was held at Paris by the last administration, so that he would be on the ground in the event the present administration desired to authorize him to resume his duties.

CENSORSHIP IS NOT BEST PLAN

Dr. Wilbur F. Crafts, National Reformer, Agrees With Picture Men

HE VISITS PRODUCERS Hampton Issues Statement Commending Action by Preacher

LOS ANGELES, May 6.—Rev. Dr. Wilbur F. Crafts, head of the International Reform Bureau of Washington, D. C., has been in Los Angeles for several days conferring with motion picture producers, visiting studios and

preaching from pulpits and club rooms on the subject of pictures. For several years Dr. Crafts has been the principal inspiration of the movement to censor motion pictures. During the last few months Benjamin B. Hampton, the producer, has been conducting a lively warfare through magazines and newspapers against Dr. Crafts' censorship and federal commission plans.

Mr. Hampton has been insistent that censorship is un-American and inefficient and that the police power is the only weapon that can be used to improve picture conditions. On arriving in Los Angeles Dr. Crafts announced that his visit was to enable him to study conditions at first hand and to confer with Mr. Hampton.

Comment is Favorable. Through Walter J. Reynolds, secretary of the Motion Picture Producers' association, Dr. Crafts met leading producers, among them Jesse L. Lasky and A. Lehr of Goldwyns. In sermons and addresses Dr. Crafts spoke most favorably of the producers and their efforts to improve picture conditions.

After conference with Mr. Hampton, Dr. Crafts issued a statement in which he declared "censorship only a little better than nothing," and said that much of the objection to Sunday movies would die away as soon as pictures measure up to the new standards of the national association of the motion picture industry. Dr. Crafts declared himself in favor of the police power plan advocated by Mr. Hampton.

New Era Apparent. Producers and picture people believe that this action by Dr. Crafts means the beginning of a new era. Now that the chief advocate of censorship has declared himself in favor of new methods, it is believed that his adoption of a similar policy by reformers throughout the country.

Dr. Crafts' statement in full is as follows: "April 25, 1921. Young Men's Christian Association, Los Angeles, Cal. My plan for the reform of motion pictures is in brief: First, to cooperate to the largest possible degree with motion picture producers, believing that a majority of them have concluded for many reasons that the 13 standards agreed upon by the national association of the motion picture industry, are sincerely adapted and will be very largely applied to future pictures. The problem that we must mutually solve, is how these standards can be imposed upon all producers.

Censorship is Makeshift. Second, I favor censorship only a little better than nothing until some other more efficient method of improving the motion pictures can be put in operation. Third, it has been my announced plan to hold back the proposed federal commission—which is not censorship, but regulations similar to that of railroads and I have been secured by argument and by the experience with other methods of accomplishing the desired results, the cooperation of a group at least of the motion picture producers.

I published this plan after the New York meeting, not as something that was to be introduced in congress, either or no, but as stated in my letter, (as anyone who will read my letter will see) as a matter to be submitted to producers, reformers and the public to think about, with reference to the development of something effective in this direction.

Police Must be Used. Fourth, for the present I believe the strategic thing is to press the use of the police power to the utmost, first getting the laws against obscene pictures in force which can be done in any town taking those which have the best index and the strongest public sentiment. Then there is a very large possibility for police regulations through the discriminatory powers of mayors, all of whom have power to control shows as an essential part of the executive office, as has been demonstrated in my experience all over the country.

In scores of cases, shows have been stopped before they began, shortly after they had started, and in the midst of the week's engagement by direct executive act of the mayor, and never have I known of a single instance when the use of the police power has even been threatened, where the authorities have been prosecuted for using the police power in this way. Of course it would be possible to make use of this

lower but if this was ever tried it could be shown that it was not with the intention of public service, it would prove a boom-trunk. Publicity Necessary. I believe that it is extremely important to circulate in every possible way the women's clubs and ministers' meeting and others with copies of the judicial interpretation of obscenity and with information as to what has been done in various places in applying these laws. While this seems to be a fragmentary method in that in some places the police power is almost favorable and the courts are not favorable to high moral ideals, there is an advantage in that pictures travel the whole country and the bad picture that can get through the corrupt towns may find hard sledding in a hundred towns of another type, and after it has been once condemned it is likely to be shut out by the mayor or in some other way. The town that would not have taken the initiative in shutting it out would be ashamed to take what has been barred from some other town.

Fifth, as to the Sunday question, the talk about blue laws should be eliminated, because it has been based on misapprehension, there having been no real blue laws in the past and no national Sunday laws whatever, time or otherwise, proposed in congress in recent years.

There are two classes of people now opposed to movies on Sunday—one the class that would have no objection to them if they were in accord with the new exclusion standard; the other class believing that Sunday should be

free from all labor and business, save work of mercy and necessity, not interfering so far as civil law is concerned, with uncommercialized activities. —Wilbur F. Crafts.

ZBYSZKO WINS FROM STRANGLER LEWIS

(Continued from page 1)

They were tossing each other about the ring when Lewis got a lead seissors, holding it for more than half a minute. Lewis then tried a flying headlock and missed. His arm slipped over Zbyszko's prepping neck and head and the force of his plunge carried him to the floor. He fell on his back to the mat. Zbyszko then pounced on him, threw the weight of his body on Lewis' chest, locked his arms around his neck and forced his shoulders to the mat, winning the fall and the championship.
