Prospective buyers of motor trucks need have no fear for a "falling market" in reference to MACK trucks.

The average increase in the price of MACK trucks has been only 15 per cent in eight years... This is a longer period than most trucks have been in existence... Think of that and ponder.

MACK truck prices are as substantial as the trucks, and everybody knows there is no truck that compares to the MACK in ruggedness of construction.

Can you name any truck besides the MACK that has a heat-treated, case-hardened crankshaft and camshaft?
