

# GREETING WILL BE EYE-OPENER

### Commercial Club Leave Out Nothing to Make May 18 Event Famous

### DANA WILL BE SPEAKER

### Mrs. Carrie B. Adams Will Lead Crowd in Community Singing

If all the 780 members, their wives and sweethearts, and all the "strangers" in Salem, turn out at the invitation of the Commercial club Wednesday night, May 18, they will have a most enjoyable and about three deep.

An invitation is being sent out for all interested Salemites to attend and be the club guests on this occasion. They are to come

Laughter Tears Thrills in "Partners of the Tide" At THE OREGON Sun—Mon.—Tues.

prepared to have a good time. They can send their ears home to bed after only about 30 minutes of official use in case they do not wish to use them for personal purposes, for there is only one 30-minute talk on the program, by Marshall Dana, of the Oregon Journal.

Audience Will Sing But few will want to dispense with their hearing for the rest of the evening. Mrs. Carrie B. Adams, the talented master of music who is a prime favorite wherever American music is known, is to be seen here to lead in the community "sing". An audience that has never known the difference between music and noise, will sing like larks under Miss Adams' skilful direction. This "sing" is expected to be one of the finest features of this or any other program this year, for it will have the soul of the whole people in it.

At 10:30 Mr. and Mrs. Gerald Volk will lead off in the Virginia Reel. If there is anybody who has felt lonesome for the old dances, and the fiddles and the smell of hay and the steen of autumn pumpkins in the bro-frolics of the long ago, or the stately ceremonial settings of the more formal "terpsichorean delights" before the war, this is for her and him. It isn't exactly an old-timers' party, but this one tration of the olden times is offered especially for those who would like to enjoy such a dance just once more.

No Dead One Wanted It is urged that every member, every member's wife, every member's sweetheart and every stranger who wants to know more about Salem as a royal good place to live, be on hand. But if you're an old-timer and haven't a membership, the official plucker may say "Here's your hat—what's your hurry? What, going out to buy a membership and be eligible? Here's a check—sign on the dotted line and we'll be delighted to have you stay. Boy, take Mr. Long-Time-Forgot's name off the bad book, and list him with the live ones."

# RECALL MONEY NOT PROVIDED

### Emergency Board to Await Filing of Petitions Before Allowing Funds

### LEGAL ERRORS ARE MET

### Enactments of Legislature Which Failed to Appropriate Remedied

The state emergency board at a meeting yesterday created deficiencies aggregating \$84,806.50, and provided for expenditure of funds to cover.

The board deferred action to appropriate an amount to cover expenses of the proposed recall election affecting a member of the public service commission, the petitions for recall having not yet been filed. Should the petition be filed within the next few days it would be possible to call the election for June 7, making it parallel with the special state election. This would necessitate another call of the emergency board for funds.

Bounties Are Provided. The amounts allowed were made necessary by errors in the enrolling of bills passed by the 1921 legislature. A sum of \$67,305.50 was allowed for the state's half of the bounty on coyotes, and \$15,000 was allowed for the eradication of predatory animals. The enrolled bill read that the money was appropriated for the two years from January 1, 1919, to December 31, 1920, and should have read from January 1, 1921, to December 31, 1922.

The sum of \$25,000 was allowed under chapter 166, laws of 1921, which provides that when any judicial district shall be composed of more than one county the judge of the district shall be entitled to reimbursement for expenses caused by his traveling about in the district in the performance of his duties. While the law was enacted, no appropriation was made, due to error. Twelve districts are affected, including the Marion-Linn and the Polk-Yamhill districts.

Labor Allowance Deferred. Needs of the state labor department, \$15,500 for the department proper, \$6750 for the board of inspectors of child labor, and \$5500 for the industrial welfare commission, also were deferred. These also are caused by errors in the enrolling of the bill which reads to cover the two years beginning January 1, 1920, and ending December 31, 1921, when it should read for the two years from January 1, 1921, to December 31, 1922.

Toby Says—"Comedy is the straw that tickles the world." Let me tickle you.—Adv.

### Welfare Commission's Record Public Property

All records of the industrial welfare commission are open for public inspection during office hours of the commission, says an opinion of Attorney General Van Winkle, in reply to a question by Mrs. Millie R. Trumbull of Portland, secretary of the commission. The question asked by Mrs. Trumbull was whether all the commission's records are open for public inspection, particularly abstracts of payroll and records of wages, which are required by the commission under certain conditions and which have always been considered by it as confidential matter not primarily the property of the commission. The question is answered in the affirmative.

Germ of Disease should be promptly expelled from the blood. This is a time when the system is especially susceptible to them. Get rid of all impurities in the blood by taking Hood's Sarsaparilla, and thus fortify your whole body and prevent illness. (adv.)

### OBITUARY

SCOTTS MILLS, Ore., May 11.—William Chandler Hickox was born November 20, 1833, at Ridgefield, Loraine county, Ohio. He lived at Ridgefield for 2 years. In 1860 he was married to Miss Emma Vaughn moving then to Byron, Kent county, Mich., where his wife died the following spring. In 1863 he was married again to Miss Kliema

Coming Sunday

Chilson. To this union one son was born, Emmett E. Hickox, who survives.

In 1864 Mr. Hickox enlisted and went with Sherman to his famous march to the sea returning home when the war was over. His wife passed away in 1866. Then Mr. Hickox and his small son went to live with his sister, Mrs. Carolina Reed, until 1880 when he came west to Washington.

He returned to Michigan in 1882, having been in all the states west of the Mississippi except Montana. He came to Oregon in 1892 with Mr. and Mrs. A. C. Reed and family, residing at or near Scotts Mills until October, 1920, when he went to Portland to live with his son and family.

The cause of his death was pleural pneumonia, he having passed away May 4, 1921, at the age of 87 years, 5 months, 4 days.

Surviving him besides his son Emmett E. Hickox of Portland are three grandchildren, two great grandchildren, two sisters, Hood A. C. Reed of Scotts Mills and Mrs. Iren Ewing of Olmstead, Ohio, and a brother, L. L. Hickox of Byron Center, Mich. Funeral services were held at the Scotts Mills Christian church Friday afternoon, Rev. Mr. Bennett of Silverton officiating. Interment was in Scotts Mills cemetery.

Those coming to attend the funeral were Mr. and Mrs. E. E. Hickox and family, Mr. and Mrs. Merton Crocker, Mr. and Mrs. Lloyd Crocker, all of Portland, Mr. and Mrs. Earl Reed of Hood River, Mr. and Mrs. W. C. Moor and family of Polk county and Mrs. Mona Blair and children of Marquam.

### Tentative Plans for Dormitory Approved

The state board of control at a meeting yesterday approved tentative plans for the construction of a dormitory at the state industrial school for girls, provided for by an appropriation of the legislature of 1921. The cost will be \$43,000. Mrs. W. H. Dancy of Salem and Mrs. Lola G. Baldwin of Portland, members of the advisory board for the girls' school, conferred with the board. The board also approved plans for a change in the heating plant at the state school for the deaf at an estimated cost of \$1700.

### Railroad is Completed To Grande Ronde Station

U. G. Holt of the Spaulding Logging company, has returned from Willamina where he spent two days in looking over the Spaulding interests in that territory. Mr. Holt reports that railroad tracks have been completed to Grande Ronde station, by the Willamina & Grande Ronde Railroad company.

At the present time about 90 men are employed in the construction of track from Grande Ronde station westward. Machinery and camp equipment are being rushed to the scene for use in a "two-side" logging camp which will be operated by the Spaulding-Miami Logging company, which owns about two billion feet of good saw timber tributary to the new railroad.

### Jordan Valley Project Has Development Scheme

The state desert land board yesterday accepted in a general way a new proposal for the development of the Jordan Valley project and will work out details to put it into effect. Representatives of the Jordan Valley Land & Water company appeared before the board and presented the plan to procure \$100,000 in cash with which to go ahead with the development of the project which is in Malheur county, on condition that the board enter into a new contract with the company to reduce its bond from \$100,000 to \$25,000. This contemplated improvement is completion of the canal and reservoir for the irrigation of the lower unit. The district embraces 25,000 acres. It is a Carey act project.

# POISON GASES TO BE TESTED

### Effectiveness Against Battleships Will Be Tried In Experiments

### CARE URGED ON CREWS

### Revolution in Naval Warfare Possible Result of Proposed Test

WASHINGTON, May 11.—The use of poisonous gases against naval vessels under simulated battle conditions will be tested for the first time during bombing experiments to be conducted off the Atlantic coast beginning June 21. While army and navy aerial forces are co-operating in an effort to demonstrate the effectiveness of aerial bombs against modern naval vessels, the chemical warfare service of the army will be launching a poison gas attack from the air against one or more warships in an attempt to show that the navy must immediately build up defenses against asphyxiation.

The ship to be gassed is to have a crew. Non-explosive bombs filled with "tear gas" will be dropped and every man on the vessel will be required to keep within the protected areas and wear a gas mask.

Airtight ships. Possible. Officers of the chemical warfare service believe that by using a gas of sufficient strength to incapacitate but not to kill the service can prove its contention that in the next war battleships must be made literally airtight.

The chemical warfare service and the war department are co-operating in conducting experiments in the use of toxic gases at sea and in building up adequate defenses for American sailors. As a result, important changes may be made in the design of new ships and of some under construction.

Air Shafts Dangerous. The "tear gas" is intolerable to the eyes but is not dangerous. Army officers assert it is of a concentration and persistency sim-

ilar to the instantly fatal gases which the chemical warfare service is prepared to use against a hostile navy in time of war. Army officers said that the ventilating system of all warships, based on a suction system, would be the chief ally of an enemy gas attack, sucking into all parts of the vessel the deadly gases introduced into the ship by deck-piercing shells dropped from aircraft. Gases in stock are of such deadly mixture, they declare, that one breath will kill instantly.

### BRONCHIAL TROUBLE CAUSED ANXIETY

No medicine has a better reputation than Foley's Honey and Tar for quickly relieving coughs, colds and croup. It loosens the phlegm and mucus, clears the passages, eases hoarseness, stops tickling throat. John G. Hekking, 192 Burgess Place, Passaic, N. J., writes: "I was suffering from an acute case of bronchial trouble which gave me considerable anxiety. Foley's Honey and Tar deserves all the credit for my being well now."—Sold everywhere.—Adv.
