Entered at the Postoffice in Salem, Oregon, as second class matter.

Father Bernard Vaughan, chiefly famous for his series of sermons in London on "The Sins of Society," is exhorting British women voters to defeat the new divorce bill, which is designed to make divorce easier in that country. The bill allows five counts instead of the present two-adultery and cruelty-on which divorce can be obtained.

"If you do not wreck this bill it will wreck you," he told the women, "for easy divorce undermines the foundations of the race and degrades women."

American divorce laws are generously quoted by both sides in the fierce campaign now pending. The antis hold up the United States as a horrible example, a country of victimized half-orphans, of loose habits and impossible homes, while the proponents, on the other hand, see us as a country in which women are free, in which marital debasements do not have to be tolerated, where children are freed from the bad influence of erring parents and homes are purified and purged by the courts.

The proposed British measure does not, however, go anywhere nearly as far as our strictest states, and in this country we should consider it highly conservative and reformative. Our own judiciary are recommending something similar for this country as a federal amendment, so while Britain works downward, we are working upward.

It seems obvious that, while our own laws are too easy and confused, the British are unfair as they stand at present. Moreover, the British laws discriminate severely against the towards supplying the demand in woman, while the American laws are more apt to discriminate the large eastern cities. in favor of the lady-and either is equally unfair. It is highly obable that Father Vaugnan's exhortation to the women voters in England will fall upon deaf ears-for English women have envied American women their privileges and advantages for, lo, these many years, and they would be slow to agree that any special "degradation" has ensued.

A Ringing Appeal to Oregonians

> By R. A. Booth Chairman State Highway Commission

THE USE of Oregon Products is fundamental or even elemental if Oregon is to prosper. The population of Oregon cannot be sustained if Oregon payrolls decrease.

It is a matter of vital interest, then, to every inhabitant of the state to keep Oregon dollars in the state!

To buy our own products and use them is like eating the cake and having it, too. It is keeping the products and the money also. Let's do it with renewed energy! Let's patronize those merchants who feature Oregon-made merchandise.

Let an Oregon product give us pleasure and strength at every dining hour. Let's go to the greatest extent reasonable to build and furnish our homes with Oregon Products and let us daily as we enter the store rooms and shops keep before us an obligation that we cannot shift-BUY OREGON PRODUCTSI

The English Lord Moulton, once an ardent free trader, publicly confessed his conversion to the protective principle in a speech before the Association of British Chemical Manufacturers.

"I used to think that the prime duty of a nation was to buy in the cheapest markets, but now I see that nothing is so important as the development of a nation's

most precious asset, its people," he admitted, pointing to America's commercial supremacy as evidence of the wisdom of the pro-Lord Moulton was responsible
