ents. They will probably visit here again on their way back to their home in eastern Oregon at the end of the summer.

For the regular meeting of the Rapharian club this week, Mrs. H. B. Compton was hostess at her home on South Commercial street. A hard times social was held at the Bungalow Christian church by the Christian Endeavor society recently, a large number of young people enjoying the informal affair. The rooms were decorated in Scotch broom and a delightful program was given by the older members of the church.

The Kork home at 407 North Twenty-first street was a center of enjoyment and entertainment Tuesday night when the members of the Young Peoples Alliance of the Seventeenth street Evangelical church gathered there to hold their monthly business meeting. The chairman of the various committees gave reports concerning their work during the past month. It was decided that each member of the Alliance take different days to write to Mrs. F. W. Launer, who at present, on account of bad health, is staying at the home of

her daughter, Mrs. Barclay Newman of Eugene.

Following the completion of business, the meeting adjourned. A literary program was then given which caused much merriment on account of the many strange and comical parts which were acted. One feature which caused much amusement was an original dialogue planned and superintended by Miss Elsie Lippold and Miss Alta Zinn. Ice cream and cake were served at a late hour by the hostess.

A recital given at St. Vincent training school in Portland Wednesday night is of interest to a number of Salem people in that

Fred L. Boynton, tenor, the principal in the recital, was for a short time a resident here. Mr. Boynton was assisted by Miss Florence Warmoth, contralto, and Miss Eva Pitman, pianist and accompanist.

Each number on the program was heartily enjoyed by the large group of persons in attendance. Mr. Boynton is remembered by Salem people as having a fine, smooth and sympathetic voice. His interpretations are excellent, according to Miss Minetta Magers who is instructor for the three. The Well Dressed Woman

By NORMA TALMADGE,
Star of Associated First National Fashions.

As the hat is the frame of the face, it takes the most conspicuously important place in every woman's costume, and the variety of sizes, shapes and materials was never so arresting as this year. It seems to me as I try on shape after shape or go into consultation with the designers regarding this most fascinating selection.

Apart from the costume hat, which carries out the color or period scheme of many of the gowns this season, there are some exquisite models which harmonize with all styles of formal costumes. These are all either extremely large or small and droming, with trailing streamers of feathers or fruit or flowers.

Very fine hair braid, which is transparent, showing the coiffure beneath, is one of the best liked fabrics for dress hats, and these are usually designed with a narrow brim at the front and back

and very wide at the sides. One extremely chic model by Lucie Hamar is made of a heliotrope shade of braid, with many strands of chenille surrounding the crown and long strands of glycerined ostrich meeting at the centre front and falling over the sides.

Another sort is a model of black milan straw, which is also very much a thing of the hour, the only trimming being a huge crush bow of moire ribbon pressed closely against the crown and brim at the right hand side.

Foot, rich instead of ribbon and embossed cre main, with a raised surface in floral design, is seen on many of the latest models, and a bebe metal ribbon, which is sometimes used instead of braid to form the entire hat and in other instances braid is manipulated into intricate bows, is a novelty of this year.

Peggy Hoyt's hats are characterized this year by exquisite coloring in pastel shades, hair braid, handmade flowers and linings. One of my favorites is pictured in the sketch. It is of two shades of lavender hair braid, trimmed with American Beauty roses in tints of a soft summer evening twilight, delicate pinks, mauves, grays and purples. This hat I can wear with any afternoon frock, as the colors are so dainty they would serve only to enhance any costume with which it might be worn.

Leghorns are also being shown, trimmed lavishly with fruit and flowers, but are not considered especially smart.

Grants Pass District May Issue Bonds

The irrigation securities commission has under consideration the certification of \$75,000 in bonds of the Grants Pass irrigation district. The proceeds from the sale of these bonds are to be used in taking care of the bills for construction work done during the past few months. It is expected that construction work on the Savage Rapids dam and pump house, which has been suspended during the high water season, will

begin again about the middle of June. The Tokay and High Line canals are practically completed, and with the completion of the third canal, the dam, power house and the installation of the direct connected pumps, which have been purchased and are now on the ground, the system will have sufficient capacity to serve approximately 18,000 acres of land.
