' The

With this fact in mind, many of costs \$20 in Salem, while the best the parties going out today will single reel so far offered by head for the coast waters, where American makers sells for only it is known that the trout are to \$6.50. A single glance shows the be had in abundance. A regular great difference in quality-as exodus of izaak Waltons is ex- well as in price. Splendid multipected if the day holds as it was plying reels are still being made

Trout Taking Flies

Trout are beginning to take flies quite well, after having preerred bait for the first early fishing. More and more angiers are coming to favor the dry fly, which is distinctively an English production. A few Scotch-made flies are offered on the local market, and some American files of the same general description; but or some reason the English product seems to hold the lead in popular demand. They are called the "qu'll" flies, red and blue. The fly, the two names standing for the same kind of tying.

Trout fishermen are usually es. sentially nationalists, and do not have a mania for the products of other countries merely because they bear the label "Made in Germany" or England, or Ireland or Dahomey. But the English angler has set his mark on the American market, and his ways and coming into this and three others brought in a products Bro fast-growing favor. In

matter of dry flies, for instance; and this requires the adoption of other equipment developed to fit it-the tapered line and the single action reel,

Americans Like Straight Line in length. Thomas creek, American anglers have usually Yamhill, and Willamina, all have paid fine tribute to the skillful used a straight line, where the Englishmen use a line with a de-

Commission is Informed of Southern Pacific Project Near Portland

tunnel through Elk Rock bluff on the Portland-Oswego line of the Southern Pacific company, and elimination of the dangerous trestle at that point which has been a menace for years, will be begun immediately by the Southern Pacific company, says a letter received by the public service commission yesterday from Southern Pacific officials.

It is said the project will be one of the most important engineering developments in or near Portland in years and will cost several hundred thousands of dol-

Slides Hit Trains

The railroad company will work four crews, operating from both ends of the tunnel location, so the project will be completed this

The dangerous Elks' rock trestle, because of the nature of the rock formation of the 150-foot perpendicular bluff which rises above it, and the frequency of slides, has brought numerous complaints to the public service commission from patrons of the road. The Portland-Oswego line carries an immense passenger traffic and 18 or 20 trains run daily on the line. A number of times rock or earth sliding from the bluff has hit moving trains, and for several months as a means of precaution all trains have been flagged.

across the span. Gauntlet Track Provided The condition of the trestle was first called to the attention of the service commission in October, 1920. The trestle is 1959 feet long, and it is estimated that the tunnel will be 1200 feet in length. A gauntlet track, for further protection, will be construct

Several conferences have been

railroad company and of the ser vice commission, and at one time engineers of the commission recommended either that a tunnel 200 feet long be constructed or hat a till be made with material blown from the face of the cliff.

New Lime Board Members Appointed by Governor

Governor Olcott yesterday appointed B. G. Leedy of Tigard, Sam H. Moore of Corvallis and Dean A. B. Cordley of Corvallis as members of the state lime board. The appointments of Moore and Cordley are made at large by the governor and the appointment of Leedy is made on recommendation of the state grange as provided by
