# OLCOTT LAUDS NORTHERN RACE

### Address by Governor Feature of Norwegian Church Session Yesterday

### BUDGET IS PRESENTED

### Pacific District Requires $1,250,000 For Work Of Coming Year

SILVERTON, Or., May 31.—Governor Olcott was the chief speaker at the afternoon session of the Norwegian Lutheran church of America synod meeting here today. The speaker paid tribute to the loyalty of the Norwegian citizens of America, saying that they had come from a country where personal liberty was the most cherished of human desires and have given to America all the passionate longing for freedom that had been developing in their race for age.

**President Responds**

Right Rev. H. A. Stub, of Minneapolis, president of the general church, responded to the governor's address.

Memorial services were held Monday, the main feature being an inspiring patriotic address by Rev. O. J. Ordal of Tacoma. The forenoon was spent in routine synod work.

The proposed budget of the Pacific district was presented Tuesday for consideration. It totals $1,250,000, of this $450,000 is asked for the support of the educational activities of the church.

**Noted Divine Heard**

The day's chief feature was the address by Rev. Mr. Hoff, noted divine of Los Angeles, who delivered a sermon on "Stand on the Old Ways," an appeal to the church and the nation to hold fast to the faith of the fathers who had built both church and nation.

One interesting incident of the day was the presentation of a substantial purse of gold to Rev. J. C. Fosso, of Tacoma, who has served the church on the coast for more than 20 years, and of 13 years has been the efficient president of the Pacific district.

**Session Closes Today**

The work of Wednesday, the closing day, will be to close up the routine work of the synod, and select a meeting place for the next annual conference. It is probable that San Francisco will be chosen.

The visiting delegates, almost 1,000 in number, will leave today for their homes, all the way from British Columbia to the Mexican border.

## Air Mail Official is Relieved After Inquiry

CHICAGO, May 31.—E. W. Masters, superintendent of the Chicago division of the air mail service, was relieved from duty on orders from Washington today, following a month's investigation by postal inspectors. Assistant Superintendents W. S. Moore and Paul V. King and Field Manager Paul Dumas also were relieved from duty pending further instructions. C. A. Parker was appointed temporary chief of the division in Majors' place.

# TACKLE STORES DOING BUSINESS

### Tempting Displays of Trout Cause Old Anglers to Spend Their Coin

The tackle stores sold almost a months supply of fishing paraphernalia Tuesday, following the display of trout in the window of one of the local stores. A. J. Cowan and wife and Harold Moyer and wife, who visited Tillamook county the day before and came home loaded down with long, wide, deep thick, chubby trout, that fairly oozed delectable fatness. The trophies were on exhibition during most of the day, and many a man who never even caught the measles or the itch or the hookworm, gingered up to the counter and bawled

"Say, where'd you git 'em? Hey? Fresh, ain't they, hey? What's it cost to ketch 'em on, hey? Spunky? Gimme a dozen the finest fingerlings you got how much, hey? Just you watch my smoke when you want to see some real fishin' done. I know how to ketch fish an' here I go for the fall trather.

He's going as fast as the law will permit him to go, and maybe he'll do as he says—"ketch 'em" for the trout are biting generous as a Jersey mosquito or a bull-tree with corns to make him road and cross. Not every, but not in th coast streams. Dozens of fishing parties were out over Memorial day, and many fine catches have been reported, though not many of the fish have been placed on public exhibition.

It is understood that one local troll fisherman near Pacific City, out beyond Hebo, hooked a 40-pound salmon, that mad his eyes stick out like rafts. The salmon are said to be taking the hook well and a 10-pounder on a light tackle would keep most anyone busy as a one-legged man in a footrace.

The Santiam is still high enough to be poor fishing. There is still much snow on the hills near Mill City and it will perhaps be a number of days before the stream, now bank-full, will lower sufficiently for the best angling. The riffles that should be the very best fly-fishing spots are hidden and now drowned under a flood of water that will have to chase itself clear down to the sea before it's of any use for any kind of fishing.

## Many Teachers Apply From Other Sections

School boards all over the country are receiving applications to teach from teachers in outside cities. In many cases the applicant offers to teach at a reduced rate in order to get a foothold in the profession in this part of the country.

Mrs. Mary L. Fulkerson, county superintendent, speaking of the unusual number of such applications that are being received urged caution on the part of the boards in hiring teachers with whom they are not acquainted for the sake of a small money consideration, when they thereby let go a teacher who has done satisfactory work.

It is considered that nearly half of the school teachers in Marion county have already been engaged for the next school year.

## RAILWAY LABOR BOARD MAKES HUGE WAGE CUT

(Continued from page 1)

hour. Construction and section foremen are reduced 10 cents an hour.

**Engineers Are Cut.**

Passenger and freight engineers who were given increases of 20 cents and 13 cents an hour by the 1920 award are to be cut 6 and 8 cents an hour, respectively. Passenger and freight conductors, who received increases of 12½ cents and 13 cents in 1920, are cut 7½ and 8 cents, respectively.

Train dispatchers and yardmasters whose monthly earnings average $260 to $270, are cut 8 cents an hour.

The smallest reduction will apply to office boys and other employes under 18 years of age, who will receive 5 cents an hour less.

**Clerks Affected.**

Clerks are re-classified so that offering clerks, usually young men and women of 18 to 20 years of age, will receive a monthly salary of $67.50 for the first six months and $77.50 for the second six months. Clerks with less than one year's experience now receive $120.

A new monthly schedule for floating equipment employes on ferries, tugs and steam lighters gives captains $200, engineers $190, firemen and oilers $140 per month. On lighters and barges captains will receive $120 to $150 engineers $140 to $160, and mates $100.

**Unions Will Meet.**

The attitude of the railway unions toward the decreases ordered remains to be determined. The big brotherhoods are expected to meet here July 1 to consider the board's decision.

Claiming they were hard hit by the winter slump in business, railroad managements have been clamoring for lower wages and the decision will mark the first relief granted by the board since it set the advanced wage scale more than 10 months ago.

**Cheaper Living Claimed.**

The decision tomorrow will say that since the 1920 wage award there has been a decrease in the cost of living and "the scale of wages for similar kinds of work in other industries has in general been decreased." These two points were the chief contention of the railroads. Testimony was offered in the hearing, which began April 18 and ended May 12, to show reductions of 20 to 50 per cent in the cost of living. Varying reductions in wages, mostly for common labor, were also cited by the carriers. "The board believes," the decision says, "that based on the elements shown the decreases ordered are justified and reasonable."

**Consumer Still Pays.**

"Whatever may be said as to the origin or contributing causes, there has been and is a marked depression in industry," the board says. "As a result heavy financial losses have been suffered and many hundreds of thousands thrown out of employment and the loss of purchasing power by them has accelerated the general depression by reducing the demand for the products they would otherwise have purchased. While it has been argued that the fall in prices has not reached to any large extent the consumer, it has without question most disastrously reached and affected the producers."

## CARPENTIER PLAYS LIKE SCHOOL BOY

(Continued from page 1)

**Dempsey Camp Quiet.**

ATLANTIC CITY, N. J., May 31.—Jack Dempsey's training camp was quiet today, the first of a four-day lay off prescribed for the champion before he begins his intensive training grind Saturday.

With "Mike" Trant, a Chicago detective sergeant, who acts domo of the champion's camp, Dempsey motored to Camden, N. J., 60 miles distant.

In line with his policy to take a rest, Dempsey did not work today. He will suspend all training activities for three days.

**Kearns Is Surprised**

Before leaving for New York tonight for a conference with Promoter Tex Rickard, Manager Jack Kearns expressed surprise that the New Jersey boxing commission has made an announcement concerning the selection of a referee. Kearns said that the choice for the third man rested with the two principals and the only action the state commission could take concerned granting the license for the match. While Kearns has displayed reticense in discussing the referee situation, it became known today that he is not altogether in favor of Harry Ertle of Jersey City, who is said to be the man the New Jersey commission has selected.

Camp gossip developed a strong rumor that James Dougherty of Philadelphia will be the referee. Kearns will attempt to have him chosen.

## Salem Water Company Presses Property Suit

An application was filed yesterday to place on the motion book of the circuit court for a hearing of the defendants motion to require the plaintiffs in the case of the Salem Water, Light & Power company vs D. C. Minto et al to accept or reject an award.

The case was decided in the circuit court several months ago, when the plaintiffs brought action for the purpose of obtaining property on Minto island. The land was found to be necessary for the use of the company in providing a pure supply of water for the city's use. The court set $18,000 as a reasonable price to be paid for the land.

## Foreign War Veterans And Legion to Meet

A joint meeting, in which the American legion and the Veterans of Foreign Wars invite all other military organizations to join them is to be held at the armory tonight, to go over the bonus and soldier relief bills now before the people of Oregon for their votes. All soldiers and all citizens are urged to attend and hear the matter authoritatively discussed. It happened that both these named organizations have called meetings for this same night, but when the conflicting engagements were noticed, the two meetings were merged into one. It is a genuine mass meeting, which it is hoped will pack the hall.

## Big Improvement Made At Penney Company Store

The department store of the J. C. Penny company is undergoing some extensive improvements through a readjustment of the fixtures an added floor space of practically 50 per cent has been made possible. In addition to this the present balcony will be widened and made to extend clear across the back part of the store.

D. B. Jarman, manager of the store says that when the improvement is complete the firm will use the balcony space exclusively for ready-to-wear goods and fitting rooms.

Beneath the balcony will be fitted up the shoe department.

## Albert Receives Thanks Of American Association

A letter thanking T. G. Albert, superintendent of the Salem auto camp grounds, for the information furnished by him to the American Automobile association regarding the Salem camp, was received yesterday by Mr. Albert. The material will be used in a pamphlet on auto camp sites all over the United States.

**W. S. C. 8, WHITMAN 2**

WALLA WALLA, Wash., May 31.—Washington State college today defeated Whitman college in baseball 9 to 2. This ends Whitman's season. The score:

|---|---|---|---|
| W. S. C. | 8 | 9 | 5 |
| Whitman | 2 | 5 | 6 |

Roberts and Sandberg; McDowell, S. Rich and Walther.

# FACULTY CHANGE WILL BE SLIGHT

### Dr. Franklin of Willamette To Give Full Attention To Library

Willamette will have very few changes in its faculty next year. Dr Franklin is to leave the active teaching in the department of social science to devote himself entirely to the duties of librarian. The reference work of the university has grown so that such a change is necessary, and Dr. Franklin's scholarship is expected to make thi sdepartment of the university especially strong. A successor will have to be found for his social science work.

Coach Mathews has already left and there is debate over his successor. A formidable list of capable applicants is understood to be before the athletic committee for consideration, so that the place will be filled without too long a search.

Commencement exercises will begin Sunday, June 12, when Dr. Doney, president of the university, is to deliver the baccalaureate address. Following that will come the class day exercises on Tuesday and the graduation exercises proper on Wednesday. Other exercises incident to the closing of the year, however, will be occurring during this week and next. On Friday night will be given the annual concert of the musical department, and last night saw one of the senior recitals of the class in dramatic expression. Various class picnics and society programs are to be given to fill up most of the evenings between now and June 15, which closes the year.

# SPEAKER TELLS OREGON STORY

### Interesting Address Given at Willamette by Mrs. Eva Emery Dye

A wonderful tribute to the early settlers of Oregon, who placed education as the most precious goal for their development and endeavors, was paid by Mrs. Eva Emery Dye, Oregon historian, in her addresses before the history classes and at the chapel service at Willamette university Tuesday morning.

The speaker reviewed appreciatively the ambitions of the missionary pioneers who laid the foundation for the splendid series of church schools in the Willamette valley the United Brethren church at Philomath, the Baptist college at McMinnville, the Friends school at Newberg, Pacific university at Forest Grove, and the Presbyterian college at Albany, besides the pioneer of them all, Willamette. The urge of better schools has made the northwest great, was the conclusion of the speaker.

Mrs Dye talked very interestingly of her work as a historian. She has made the acquaintance of all pioneers who she could meet, and gathered from them every scrap of personal history they could give her. She has read and studied on every subject that has to do with the history of the northwest. She has crossed the continent several times in search of material that bears on the story of Oregon. The original manuscripts of George Rogers Clark, who found the Columbia river for the white man, have been read by her, with painstaking care.

The study of history leads into curious bypaths. Sacajawea, the Indian woman who guided the Lewis and Clark party across the Rockies and to the Pacific, disappeared and the story of her passing was not known. Mrs. Dye, however, in tracing down some of the events, found that the devoted guide had died and been buried in Wyoming a fact that had almost slipped from the memory of man. Now the last resting place of this most famous native American woman is fittingly marked.

A number of visitors attended the chapel exercises, and members of the history classes, to hear the talks on Oregon history.

# LEWIS ATTENDS SEATTLE MEET

### All-Western Water Transportation Committee Is Called into Session

C. I. Lewis, assistant manager of the Oregon Growers Co-operative association is in Seattle, attending the organization meeting of the All-Western Water Transportation committee, of which he is a member.

This committee was named at the recent conference of western fruit growers held at Yakima, when arguments were made before the interstate commerce commission favoring lower freight rates on fruit to the east.

The committee will take up with steamship companies the shipping of fruits via the Panama canal to the Atlantic coast and Europe with proper refrigeration. Also, with port authorities at Seattle and Portland, the subject of cold storage warehouses for the holding of fruits while awaiting steamships.

## William Jefferson Hall Succumbs to Injuries

William Jefferson Hall, 62 years old, and a resident of Salem from the time of his birth in 1859 until 19 years ago when he went to Spokane to make his home, died in Spokane Saturday night as the result of injuries received in a railway accident at Adrian, Wash., ebruary 2. Mr. Hall had been in the railway mail service for 37 years, having had a run between Portland and Salem. Nineteen years ago he went to Spokane to take the run from Spokane to Adrian, Wash.

Mr. Hall's father was a pioneer of '49 and the son was born in this city. He remained on a farm in western Oregon during his early life and then entered the railway mail service which vocation he followed for life.

Mr. Hall was injured when his mail car broke loose while being switched in the wards at Adrian and, running wild, crashed into another car. He was thrown to the floor under a table by the force of the collision, suffering a broken arm and dislocated shoulder.

The funeral was held at 2 o'clock yesterday afternoon in Spokane.

# CATTLE DROWN IN BIG FLOOD

### Loss to Farmers in Woodland District May Reach Half Million

WOODLAND, Wash., May 31.—Flood waters from three to 19 feet deep today had covered about 5000 acres of Woodland diking district No. 5 as the result of the break last night in the retaining wall at the northern end of the district. About 100 head of cattle were drowned.

The theory was advanced today that the break was caused by seepage of water along the pipes of the Burris creek pumping station and that the leak gradually loosened the pipes, which ran through the dike, until the force of the rising Columbia river tre away the wall and washed out the pumping station.

All of the farmers in the lowland district saved most of their personal belongings and the majority of the livestock also was rescued.

About 25 ranches were under water tonight and the flood was still spreading although it was doubted that the whole of the 7000 acres would be covered.

The crop damage was estimated at from $300,000 to $500,000. Most of the inundated land was in grain and other crops.

## Rebuke to Harvey Seen In President's Speech

WASHINGTON, May 31.—President Harding's utterances at Pohick, Va., Sunday, and his Memorial day address yesterday were interpreted in the senate today by Senator McKellar, Democrat, Tennssee, as "a rebuke" to Ambassador Harvey for his address at the Pilgrim society dinner in London.

Drawing what he termed a "deadly parallel" of the remarks of the president and Mr. Harvey, Senator McKellar asked that they be printed in the congressional record to show the "contrast." He also urged that Mr. Harvey be recalled.

Senator McKellar declared that portions of the Harvey speech constituted a libel on the American government and every patriotic citizen.

# SCHOOL BUDGET UNDER SCRUTINY

### Members of School Board Meet With Committee of Business Men

The Salem school board and five business men of the city met yesterday and outlined a proposed budget for the city schools which calls for $125,000. This amount is considered as being absolutely necessary for the use of the schools provided the present standard of efficiency is maintained and improvements made as required by the laws of the state.

The budget will be submitted to the people to be voted on at the regular school election to be held on June 20.

It calls for a 10 mill levy, which is 3.3 mills less than last year's levy. It is gratifying to note that the 10 per cent levy is the lowest school levy of all first class districts in the state.

Members of the committee which met yesterday to prepare the budget were H. O. White, Paul Wallace, Dr. H. O. Olinger, W. C. Winslow, G. E. Halvorsen, T. M. Hicks, Otto Hartman, U. G. Shipley, Paul Hauser and O. E. Price.

A statement submitted by the committee follows:

"Last year the levy was 13.3 mills. This budget will nly require a 10 mill levy. This is the lowest school levy in Oregon in a district of the first class and is necessary in order to retain manual training and domestic science in the junior high schools, the school librarian, school nurse and doctor, and to take care of the natural increase in next year's attendance.

"The amount which could be per cent limitatin law would be $107,000. The amount raised by direct tax on this budget is $125,000. The difference is practically what the voters gave the teachers two years ago in the nature of a bonus which has been retained in the salary schedule. Even this gives Salem a lower salary schedule than most other first class districts in Oregon."

## Disappointed Citizens Meet Near Band Stand

Several hundred persons were said to have gathered in Willson park last night to listen to a reported concert by the Salem band. The large gathering was an evidence of the pleasure the pjeople of the city are anticipating in the summer band concerts to be given under the able direction of Oscar Steelhammer and management of John Graber.

Just how the report that a concert would be given last night became current is not known, as Director Steelhammer said he knew nothing of it until seeing the announcement in a newspaper. It is expected, however that the concerts will commence in about two weeks time.

The courtesy of the band boys in assisting with the program and in leading the march on Memorial day is greatly appreciated by the citizens of Salem. The splendid martial airs added much to the spirit of the day.

## George Washington is Damaged by Small Fire

HOBOKEN, N. J., May 31.—A small fire of unknown origin tonight slightly damaged the steamship George Washington, which twice carried former President Wilson to France and back. The steamer is in drydock here undergoing repairs.

The blaze, which broke out on the hurricane deck, was extinguished less than an hour after its discovery. Drydock officials said the damage conlde be repaired within two days.
