An expression of appreciation for the co-operation of the large corps of assistants and all those who gave cast off clothing and toys for the Armenians on Sunday last Wednesday, is made by Mrs. W. C. Kautner, chairman of the drive for Marion county. More than five tons of clothing, garments for both children and grownups, were collected and have been forwarded to the Near East Relief headquarters in Portland.

Particularly was the work of the members of the city council, the Boy Scouts and of the Scout council helpful in gathering up the bundles. The drive was also aided very much by the clergy of the city who made the appeal from their pulpits on the Sunday previous to the drive.

Interest in Salem as well as in Portland and other northwest newspaper and theatrical circles is the marriage of Miss Mae Norton, for several years a feature writer on the staff of the Portland Telegram, to Broderick O'Farrell of the Baker players, near Portland yesterday. The ceremony was performed on the upper bridge at Multnomah falls.

Miss Irma Keefe, pianist, pupil of Bertha Junk-Darby, was presented in recital Saturday night at the First Presbyterian church, having completed the four-year course of the Godowsky series of piano lessons under the instruction of Mrs. Darby. Mrs. Vita Mallory Beatty, contralto, was assistant artist.

Miss Keefe played her entire program from memory, performing with an ease and self-possession that was attractive as well as

was the display of her mastery of technique required for the interpretation of the various styles of music presented on her program. Although young she evinced considerable talent as a musician.

The additional numbers by Mrs. Beatty were unusually delightful and the audience called her back for an encore at the close of her second group of songs. Mrs. Darby was accompanist.

Presentation of the certificate from the Godowsky school was made by E. Kothe, western manager of the Art Publication society of St. Louis, who spoke on the work required under this course.

The program follows:  
Eclatante waltz, Scherwenka  
Serenade, Scherbert-Liszt  
Norwegian Bridal Procession, Grieg

## CLASS ATHLETES IN MEET TODAY

High School Teams Struggle for Supremacy On Willamette Field

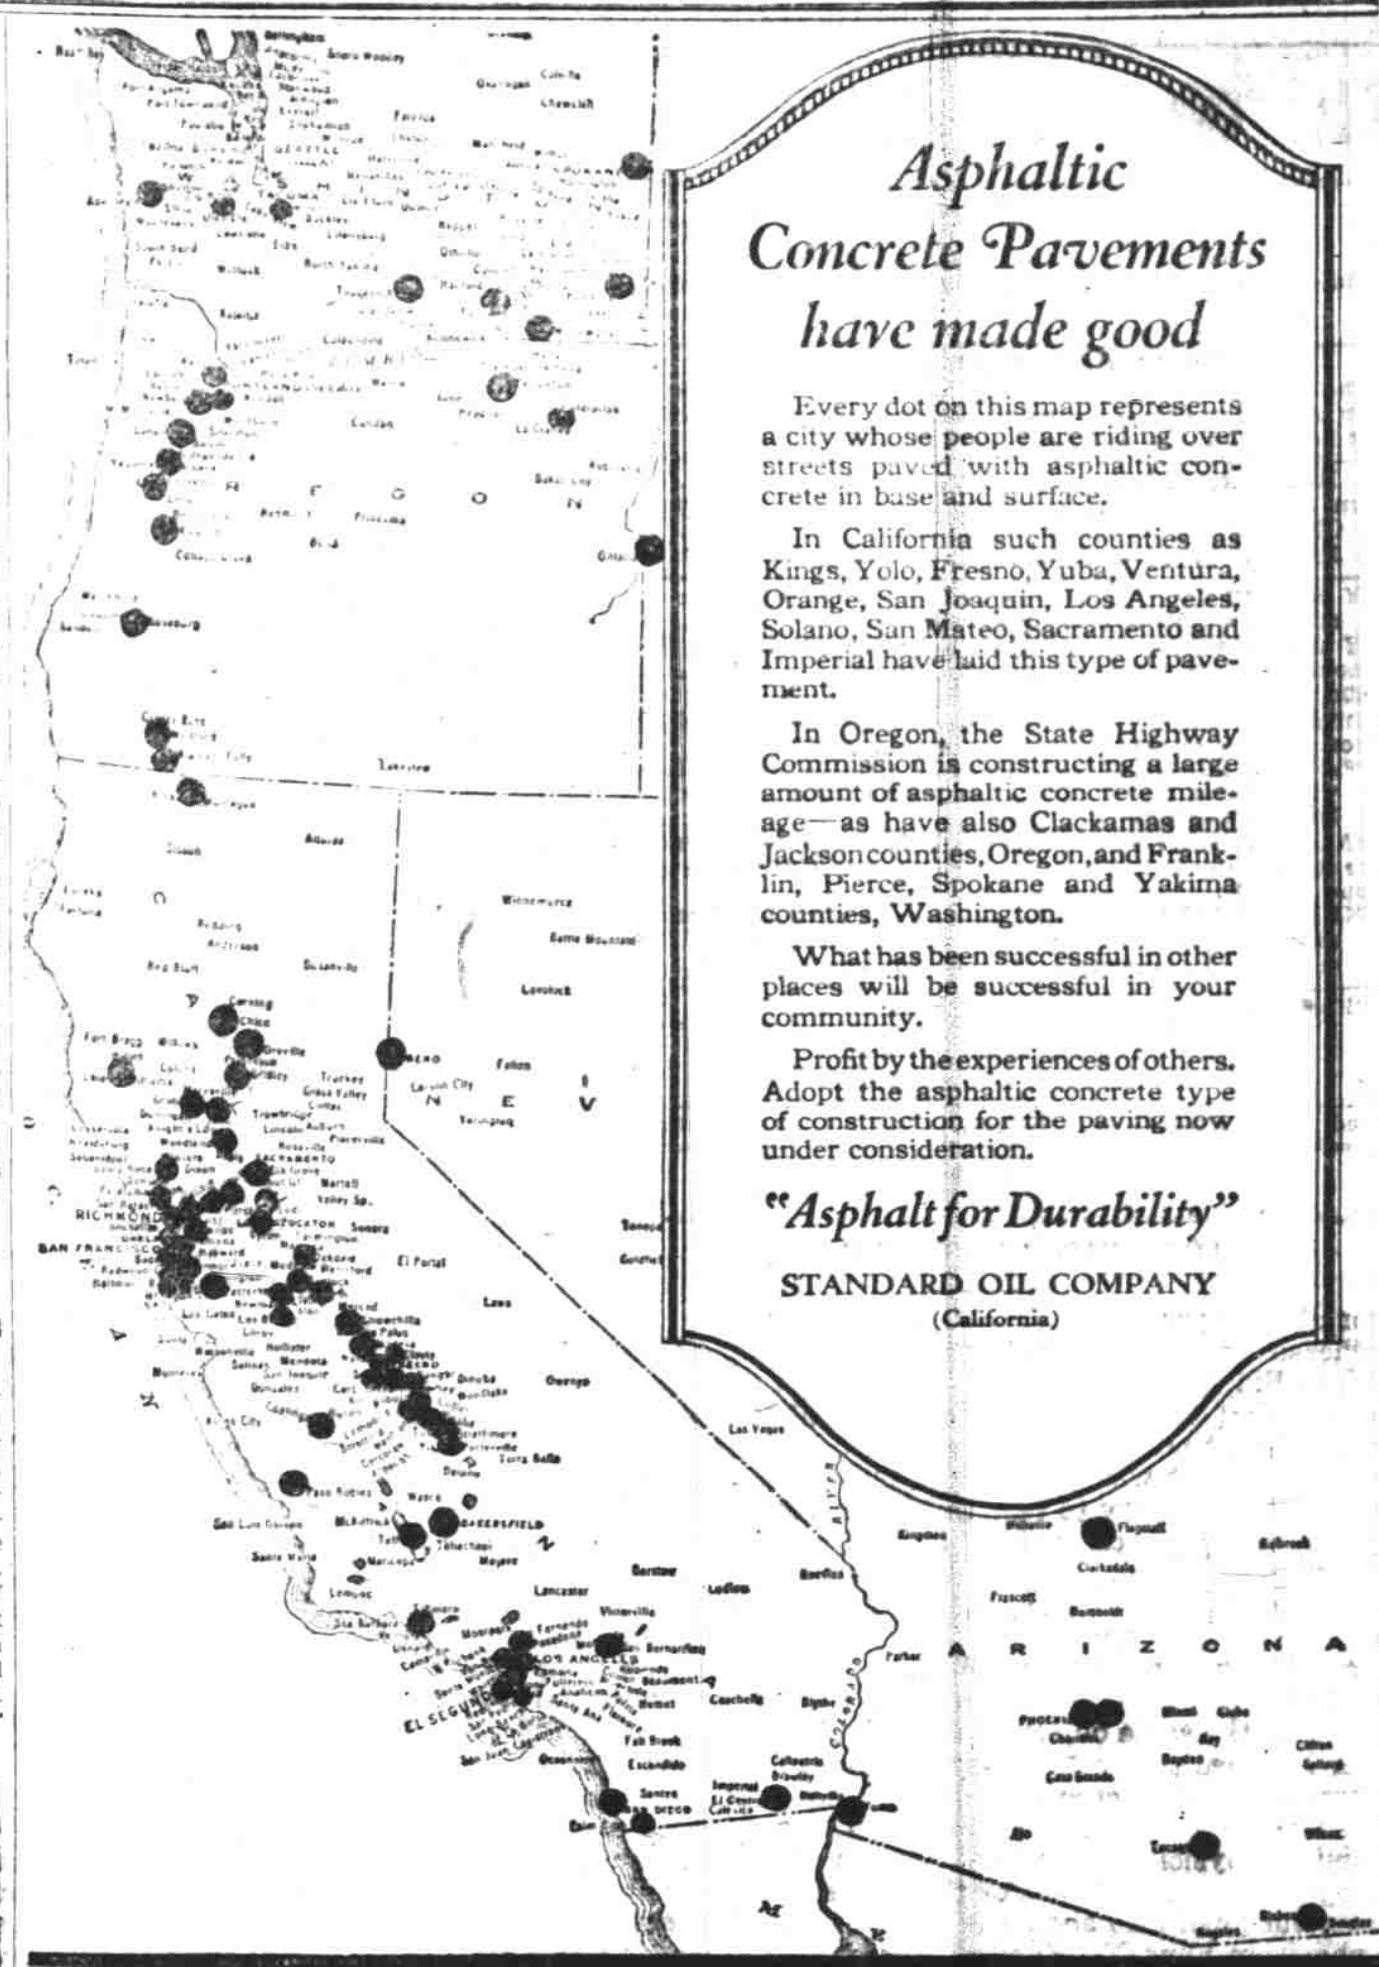

A stiff battle is predicted for high school class track men when the Willamette field for supremacy in track today at 1 o'clock. The best runners of the school team men has earned his letters as yet and therefore none is barred from class participation.

The advantage, though uncertain, seems to be generally conceded to be with the juniors, who have three of the best school team men. Socolofsky, Salem star, Post and Tucker, are among those who will enter from the junior class. Roberts, another fast school team man, will be running with the seniors.

The class meet has been postponed many times, but it is expected that unless the weather should not permit, the schedule will go through today. The card calls for all of the regular track events with the exception of the pole-vault and the hurdles which at present are still uncertain.

## Irrigation Districts To Undergo Inspection

The Silver lake and the Summer lake irrigation districts in Lake county will be inspected by Percy A. Copper, state engineer, and Frank C. Bramwell, state superintendent of banks, in their capacities as members of the state irrigation securities commission, relative to recent application of the two districts to sell about \$35,000 in bonds at 80 cents on the dollar. Copper and Bramwell will go to Lake county this week.

## How We Build the Structure of Good Paint

WE make good paints like this—to save you money; and we've put 72 years' experience into them.

We use pure PIONEER WHITE LEAD, pure linseed oil, zinc and color in scientifically exact proportions.

The lead base is made so fine that it will pass through a silk screen with 40,000 meshes to the square inch. That means covering capacity and ease of spread.

A special device super-purifies the lead, making it "Whiter" so Fuller paints are exceptionally clear-toned. All ingredients are thoroughly mixed in specially designed machines, so the paint is always uniform and smooth.

The result on the house is a beautiful, elastic, tough, protective coating that stays, if properly applied, five or more years, keeping the wood like new.

Some people figure paint economy as "cost per gallon." That is wrong. For "cheap" paint doesn't cover so much surface—you buy more gallons. "Cheap" paint is harder to spread and you have more labor cost. So the "cheap" paint on the house costs just as much as the best of paint.

Don't allow surfaces to rot—it costs less to paint them.

"Cheap" paint on the average starts cracking in twelve months, while the best paint stays intact from five to ten times longer, if properly applied. Figure the cost per year of service and decide which paint you want to use.

We spend more to make paints for your economy. Be sure you get them when you paint.

## G. A. R. GOING TO PENDLETON

Round-up City Making Elaborate Preparation for Annual Encampment

On June 14, 15 and 16 the annual state encampment of the G. A. R. will be held in Pendleton and the Commercial association of that city is making every preparation to give the veterans and their wives an elaborate entertainment. Several members will attend from Salem.

In handling the G. A. R. and auxiliary conventions, comprising the Woman's Relief corp, the Ladies of the G. A. R. and Daughters of Veterans, the Commercial association committee has enlisted the co-operation of the American legion, the local organization of Ladies of the G. A. R. and the Boy Scouts, according to information reaching here.

Features of the convention will be a general reception at the county library, Tuesday evening, June 14; a parade on the forenoon of the next day and a dinner and "camp fire" meeting on the evening of June 15.

The dinner on the evening of June 15 will be staged in the open air in Pioneer park and will be served by the Ladies of the G. A. R. and assistants. The dinner will be not only for the G. A. R., but for women attending the auxiliary conventions and it is felt no indoor place will be large enough to handle the affair.
