SALEM IS THE DEHYDRATION CENTER OF THE WORLD

Do you realize what that means?

It means that there is a market, and a growing market for every vegetable and fruit that can be raised on the land in this territory.

And that means more than is apparent to the stranger at first glance; for a greater variety of fruits and vegetables can be successfully grown here than in any other part of this country or the world.

Dehydration is the greatest thing in the world, in food conservation.

It takes out the water; the consumer puts it back, at any time in the future, anywhere under the shining sun—and then he has the fruit or the vegetable as good as fresh, in every nutritive quality, and in every other way.

The saving will be billions, annually. And all the money comes to Salem excepting what is expended for the nails in the shipping boxes.

Better than a gold mine; for it will never "pinch out."

KING'S PRODUCTS COMPANY

(This company is committed to the growth of this community, by a program that will make its output ten times its present output—that will employ 2500 people at its factory; that will pay to the growers \$20,000,000 a year for their products.)

Do You Want Your Cows To Pay? If so, Buy An Indiana Silo

S. H. Edwards, of Alderdale Hereford Farm, Fossil, Oregon, erected the first silo in Wheeler county—an Indiana—and filled it with sunflowers.

Mr. Edwards writes: "I will say further, to the feeder of sheep, beef and dairy cattle, that there is absolutely no investment that they can make that will give them the returns that they will get from a good silo, properly filled with sunflowers, corn or other suitable silage crop."

Can You Profit From the Experience of others

Chas. K. Spaulding Logging Company
SALEM OREGON

A Great Poultry Industry For The Salem District

There is no better poultry country than the Salem district. The greatest fourteen hens in the world were raised here, at the Oregon State hospital; the largest flock of 300-egg producers on earth.

This is the ideal place for the five-story farmer; for the farmer who raises nuts, fruits, bush berries, bees and poultry—

They have three-story farmers in other countries; we add a couple of stories here in the Salem district.

And you can add dairying and general live stock breeding and general farming and gardening, too; or you can specialize in a hundred different ways—

For this is the land of diversity; the land of opportunity.

You do not have to carry all your eggs in one basket here; you can have many baskets; but you should have some eggs.

"More acres and more to the acre" ought to be our slogan here in the Salem district, followed faithfully till there is neither an idle nor an unprofitably employed acre of land.

Salem should be the Petaluma of Oregon; we can produce the poultry and we can produce the feed for the poultry.

Next week's Salem Slogan subject will be Land.

Salem Bank of Commerce

DID YOU KNOW that the Salem district is ideal for the poultry and pet stock industry; that there is already an awakened and fast increasing interest in all the branches of this industry; that there is vast room for expansion here, in connection with fruit and nut growing, dairying and live stock breeding; that many large commercial poultry plants ought to be established here, making this the Petaluma of Oregon; that more intensified farming methods ought to be followed all over this district; that we should have less scratched over land, unless it is scratched over by poultry; that the invitation for more farmers who want to engage in diversified farming, with the poultry industry as a part of it, ought to be given broadcast throughout the country and throughout the world; that the warm welcome that is here and the splendid opportunities that are here ought to be much more generally known?
