**SOUND CARRIER IS INSTALLED**

New Invention Will Enable All to Hear at Portland Rose Festival

INAUGURAL IS RECALLED

Pacific Telephone & Telegraph Co. Brings Apparatus from East

The Pacific Telephone & Telegraph company is installing and will operate for the benefit of the Rose festival and the thousands of visitors during Rose festival week in Portland a sound amplifying equipment which will convey to and distribute over the festival center grounds musical programs, addresses, announcements, etc., from distant locations about the city.

Two experts from the east have been in Portland for the last two weeks installing the necessary apparatus in order to furnish this unique entertainment to the visitors during Rose festival week. The festival committee is arranging to feature this apparatus as the means of entertainment to all visitors. Heretofore an address or a musical program has been available only to the limited number who could crowd inside a hall or within range of a speaker's voice. With the amplifying apparatus furnished by the telephone company a complete address or musical program will be spread over an area of several city blocks and everyone who wishes to will be able to understand every word spoken and hear every musical note of the program.

Machinery is Delicate The apparatus consists of a system of motors, generators, wires, transmitters, amplifiers and other electrical equipment weighing several tons and filling several rooms. The machinery is very delicate, requiring the utmost care in its operation. A drop of water at a certain point or a piece of metal the size of a pin head will put the whole plant out of business. The transmitter, amplifiers and horns are very delicately adjusted and sensitive to the slightest change in current and resistance in the circuits. None of the apparatus will be visible at the festival center, except the suspended horns, and will give the impression of sound created out of the air.

Used At Inauguration This apparatus was given its greatest outdoor test at the inauguration of President Harding in Washington March 4, where the voice of President Harding in the inaugural address was distributed over a radius of six blocks from the Capitol steps and could even be heard distinctly on the steps of the congressional library, more than 1200 feet from the inaugural platform.

At all previous presidential inaugurations only a few hundred people who were fortunate enough to secure positions directly in front of and near the inaugural platform were able to hear the inaugural address, but on March 4, 1921, with the amplifier apparatus in service on the Capitol grounds 125,000 people, the largest crowd that ever heard one man's voice at one time, distinctly heard every word of President Harding's address. It is this same apparatus which has been forwarded to Portland and will be placed in service for the entertainment of those who attend the Rose festival in June.

Installation Expensive The offer of the Pacific Telephone & Telegraph company to furnish and operate this apparatus for the Rose festival committee will insure a distinctly new entertainment feature for the Rose show. The high expense for installation of the necessary electrical apparatus has precluded the use of this equipment at any except the largest and most notable gatherings, such as the Republican and Democratic conventions last year and the inaugural ceremonies for President Harding.

**SAGE TEA DANDY TO DARKEN HAIR**

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks are wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.—Adv.
