For Thirty Years
This school has been training young people to fill places in the business world. During this time we have steadily labored to make our courses as concise as possible, and yet include the essentials. The scores of graduates who have made a marked success in the business world, indicate the degree of success we have attained along this line. Let us tell you more about these courses. Our school is in session throughout the entire summer. A good time to enroll is RIGHT NOW. Write or call for information. Capital Business College, SALEM, OREGON

CAMPAIGN ON AGAINST LAW

Insurance Companies Said To Seek Destruction Of Compensation Act
ORGANIZERS IN STATE
Effort to Scuttle Act Expected to Be Made at Next Legislature

Casualty insurance companies operating in Oregon are now making the greatest organized drive to break down the workmen's compensation law in this state that has been made since the compensation law went into effect nearly eight years ago.
"Information confirming these facts have come to the commission from so many different sources that we are positive of their correctness. We have also been informed that these companies, if they find it necessary, are prepared to cut insurance rates far below cost to them in order to induce employers to 'break away' from the compensation law in this state, while this temporary loss will be made up by profits in other states where the companies have a freer hand.

There is no reason for the casualty insurance companies centering their attacks on the Oregon compensation law at this time. Oregon is one of the few states which have an exclusive state compensation fund. By this we mean that in Oregon casualty insurance companies are not permitted to write compensation insurance under the compensation law, but instead all employers and employees who come under the compensation law must look to the state accident fund exclusively for their protection.
Nation-wide attention has been called to the fact that the Oregon compensation law is being administered more efficiently than the standards of the promptness in payment of claims and the scope of the service rendered, than any insurance companies in the United States.

This fact was made known as a result of an exhaustive investigation conducted by Carl Hooker, compensation expert for the bureau of labor statistics of the United States department of labor. Mr. Hooker's report was first given publicity at the San Francisco meeting of the International Association of Industrial Accident Boards and Commissioners last September, and later his report was published in full in the December, 1920, issue of the Monthly Labor Review in his report. Mr. Hooker said:
"Probably the fairest and most convincing method of comparing state funds with private carriers would be to compare the best in each class. Let us, then, compare the competitive fund of California and the exclusive fund of Oregon with the Liberty Mutual company of Massachusetts as shown by its own figures. Please bear in mind that the area of Massachusetts is small and the industries compact. Both California and Oregon are large states, and in each state lumbering is one of the principal industries. It takes a longer time to obtain reports and to make payments. Under the circumstances one would expect to find much better results in Massachusetts. But what are the facts?
"The percentage of cases in which the first payment has not been made within six weeks are as follows: Liberty Mutual 29 per cent; Oregon state fund 18.9 per cent; California state fund 22.1 per cent. Oregon, in spite of its large area, had a better record and California almost as good as the Liberty Mutual.

Now take the percentage of cases where the first payment had not been made in 10 weeks: Liberty Mutual, 6.3 per cent; the Oregon fund, 3.9 per cent; the California fund, 6.5 per cent. Again Oregon has a much better record and California equally as good as the Liberty.

There you have a fair test, it seems to me, and it shows that the

LEAGUE SERIES NEARING CLOSE
Games of Tuesday and Thursday Promise Some Exciting Developments

There's an interesting story about a spotted dog that almost caught a rabbit. He would have done it, too, if he had kept on the way he started.
That's what it will be in the Twilight league series that closes with the two games Tuesday and Thursday nights of next week. They're running so near neck-and-neck that same one may win by a whisker or a half an eyelash—and they may have to play an extra game even at that. Nobody

We Carry The Trunk
right up where it is wanted. Our transfer service does not end at the front door. It aims to be complete and satisfactory in every detail. If you are going away have us take your trunk and check it. When you return hand us your baggage checks and we'll have your things up and in their places as promptly as it is possible to get them there.
