

P. B. Conklin of Los Angeles Has Severe Experience At Camp Ground

P. B. Conklin of Los Angeles was severely burned at the camp grounds yesterday when a casoline stove exploded. Late last night he was reported to be doing well at the Salem Deaconess hos pital. Those in attendance said that the burns were not as bad as had at first been thought.

Mr. Conklin, who is said to be about 60 years old, was heiping around camp where Mrs. Conklin was washing. It is not known just what caused the explosion. Superintendent Albert had been at the camp a few minutes before and said he was surprised or turning around to see the human torch rushing through the woods. Other campers intervened and stopped the man, wrapping him in blankets. He was rushed to the hospital which is only a short distance from the park.

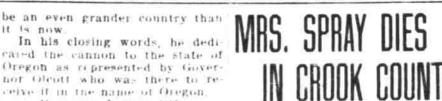

Mrs. Conklin phoned immedi ately after the accident to Mr and Mrs. Fred Hazlett of Portland, old friends, who came to Salem late last night. The Conklins home it at at 1236 West Firty-first street, Los Angeles, It is thought it will be at least two weeks before he will be able to leave the hospital.

HULL, England, June 7 .- The shortage of coal has been so serious here during the strike of miners that the people were unable to obtain hot water. To meet this situation, the National Kitchen, which happened to have a supply of coal, sold hot water to the working people at one-half penny a bucket

The shortage of coal also produced a shortage of ice, as it handicapped the artificial ice plants. To obviate this, trawlers were sent to Holland to bring coal which they exchanged here for ice.
