BY MARGUERITE GLEESON

ON Thursday evening, June 16, Miss Nellie Schwab was presented in a vocal recital by Dan F. Langenberg, at his studio in the Derby building.

Miss Schwab is a mezzo-soprano and sings with much ease. Her song interpretation, clarity of enunciation and tone-work were especially noteworthy. Miss Schwab's program was of great interest, and the entire recital was characterized by simplicity and charm.

Her program was as follows:

A Birthday ..... Cates
Morning ..... Speaks
Flower Song (from Faust) ..... Gounod
Lullaby (from Jocelyn) ..... Godard
The Stars are Failing ..... Bell
'Acqua Sapphic Ode ..... Brahms
There is no Death ..... Geoffrey O'Hara
Croon, Croon, Undermeat de Moon ..... Cadman
The Star ..... Rogers
Wake Up ..... Lehmann
By the Waters of Minnetonka ..... Lieurance
The Swallows ..... Frederick H. Cowen

SARGENT FINDS ROADS ARE GOOD

Federal Reserve Banking Man Comes From 'Frisco In Three Days

An automobile trip from San Francisco to Portland can now be made easily in three days, according to S. G. Sargent, assistant federal reserve agent and chief examiner for the San Francisco reserve bank, who is here for his vacation. Mr. Sargent was formerly vice-president of the United States National bank of Salem and later, state superintendent of banks.

Mr. Sargent says the roads are in excellent condition except north of Roseburg where some detours are necessary because of construction work. He believes that within two years the trip from Portland to San Francisco can be made easily in two days by automobile.

Mr. Srgent is accompanied by Mrs. Sargent, and while here they are guests at the T. A. Livesley home. The branch federal reserve banks at Portland, Seattle and Spokane will be visited by Mr. Sargent while he is away from San Francisco.

West Salem Will Ask Relief for Armenians

Attendance was small at a meeting in the old school house in West Salem last night in the interests of Armenian relief, but the nucleus of a movement was formulated that it is believed will bring the desired results.

The people decided to take up the issue of affording relief to Armenia with the Oregon delegation in congress. The question will be brought up again at the Sunday night service at the West Salem church where it is believed a more successful presentation of

The Clues	????????????	????????????	????????????	????????????

SAID that great Movie Producer, Cesar B. DeMiller, to his hated rival, Movie Producer David Warkfield Griffin, "I have picked engaged four of the greatest Moving Picture Stars in America for my next big Moving Picture Play." Of course this made Griffin angry because he likes to be the greatest of all the great Movie Producers and he tried his best to persuade DeMiller to tell him the names of the great Movie Stars. Just to tantalize him, Cesar B. DeMiller gave David Warkfield Griffin four secret codes representing the names of the four Movie Stars he had engaged and told him that if he had brains enough to discover the names from these secret codes he deserved to know them. It was too much of a puzzle for Griffin, so it is said he called in Scotland Yard and offered them a thousand dollars if they would discover the names for him from the four secret codes that DeMiller had given him. This was an easy job for the great Scotland Yard Detective Force, and in less than an hour they had the four names. They gave the names to Griffin and also gave him their system for working out their clues.

HERE IS THE WAY THEY DID IT.

"It's easy," said Chief of Detectives O'Flynn. "I have worked out four sums which you see beneath each one of the four codes.

"Add up these four sums and your totals give you the four clues to the four names.

"You go about it this way. Each secret code has ten letters to it. Each letter represents a number. The first letter of the code represents 1, the second letter represents 2, the third letter represents 3, and so on. The tenth letter in each code represents the cipher 0 instead of 10.

"Each sum, as you see, instead of numbers is made up of letters, but it contains only the letters that are contained in the code above it.

"Now change the letters of each sum into their equivalent numbers, according to the code above, putting them down line by line from left to right exactly as the letters; for instance, the first letter of the first sum is N. N as you will see in the first letter of the secret code above that sum and therefore represents number 1. H, the second letter in the first line of the first sum is the eighth letter in the code above it, therefore it represents number 8.

"After you have changed every letter of the sum into a number, add up the sum just exactly as you would any other sum of figures, and the total that you get gives you your clues to the names of the Movie Stars.

"Then work out your clues this way:

"Beginning at the left-hand side of the total of your sum change each figure of the total back to its letter as represented in the secret code above the sum; for instance, I can tell you that the first number of the total of the first sum is 7. The letter G is the seventh letter in the code above the first sum, therefore the first letter represented by your total is letter G. Now change every number of your total in the same way and you will have the name of the Movie Star represented by that sum."

This is not an easy problem, but patience and perseverance may find you the names of the great Movie Stars. For the best answers submitted we will pay the following prizes:
