

Studebaker

LIGHT SIX CHASSIS on display at our showroom is attracting much attention. Come and see the best car on the market.

Because Studebaker makes in its own plants such vital parts as drop forgings, castings, stampings, motors, axles, transmissions, steering gears, springs, bodies, tops and fenders, it controls the quality of these parts and eliminates partsmakers' profits—which result in cars of highest quality at moderate prices.

This is a Studebaker Year
