SALEM IS THE DEHYDRATION CENTER OF THE WORLD

Do you realize what that means?
It means that there is a market, and a growing market for every vegetable and fruit that can be raised on the land in this territory.
And that means more than is apparent to the stranger at first glance; for a greater variety of fruits and vegetables can be successfully grown here than in any other part of this country or the world.
Dehydration is the greatest thing in the world, in food conservation.
It takes out the water; the consumer puts it back, at any time in the future, anywhere under the shining sun—and then he has the fruit or the vegetable as good as fresh, in every nutritive quality, and in every other way.
The saving will be billions, annually. And all the money comes to Salem excepting what is expended for the nails in the shipping boxes.
Better than a gold mine; for it will never "pinch out."

Salem Has Become a Good Wholesaling and Jobbing Center

Salem has been gaining advantages in the past year as a wholesaling and jobbing center. The patronizing territory has been growing fast.
And the conveniences and advantages of centering this business here has been gaining favor steadily.
The increasing mileage of paved highways radiating from Salem as a center has helped and is helping.
The greatest manufacturers of the United States have recognized Salem's claims as a wholesaling and jobbing center, giving our houses equal facilities for buying that are enjoyed by the dealers in like lines in the big cities.
As long as the surrounding country continues to grow, and this means for generations, there will be a growth of business here in these lines.
In the fields already occupied, the service is already very good; but there are opportunities in other fields not yet represented.
The Salem Slogan subject for next week will be the Salem Commercial Club, along with the regular schedule, which is Cucumbers.

DID YOU KNOW That Salem is an important wholesaling and jobbing center; that there are already a number of individuals, firms and corporations doing well here, with a constantly growing volume; that the territory to be served is a large one, and its wealth is constantly increasing and due to increase even faster in the future; that already some of the greatest manufacturing concerns of America recognize Salem as a wholesaling and jobbing center on an equality with the biggest cities; that the volume of business has grown faster in the past year than ever before, and that there is room in several lines for a number of other good concerns in wholesaling and jobbing enterprises here?
