

WALTER P. EATON TALKS TO SCOUTS

Boys of Salem Are Admonished to Exert Efforts to Preserve Woods

"Help save Oregon's wonderful natural forests for the Scouts of the future, that they may enjoy the privileges of outdoor camp life which you now have," admonished Walter P. Eaton, writer and critic, speaking before a small group of Boy Scouts which gathered to hear him in the Commercial club rooms last night. Mr. Eaton spoke highly of the natural forests and highways of Oregon but he cautioned his young listeners that it was their duty as Scouts to help preserve them from artificialities of the highways and forests of the east.

He related how advertisements had ruined such highways as the "Mohawk trail" and warned the Scouts that the same would happen in Oregon unless all of its citizens were continually on their guard. Mr. Eaton told them of how eastern Scouts were denied the privileges of a camp such as the local boys are to have this summer, and urged them that after they had outgrown scouting that they take an active interest in seeing that Oregon Scouts of the future should have those privileges.

Following Mr. Eaton's talk, Mr.

Kalber, as whose guest Eaton is traveling through Oregon, spoke briefly. He emphasized the need of the precautions which Eaton had mentioned.

Tomorrow Mr. Eaton and his party will leave for Crater lake from where they will continue their trip to the scenic places of Oregon.

REFORM BUREAU FIGHTS EFFORT TO STOP FIGHT

(Continued from page 1)

his world's championship against Georges Carpentier at Jersey City on Saturday afternoon.

The champion took his final workout under the burning heat of a mid-afternoon sun, under such conditions as may prevail when he crawls into the ring to face the European champion. He performed in public.

Dempsey's final day of training was exceedingly quiet. After taking a long walk over the paved highway Dempsey returned for a brisk rubdown and a light breakfast. Before dressing the champion jumped onto the scales and balanced the beam at 152 pounds.

He expects to shrink another two pounds within the next 26 hours.

William Is Opponent

Jack spent the balance of the morning chatting with a few friends until time for his mid-day nap of an hour.

Dempsey then tugged at the heavy weights for a three-minute round and then shadow boxed for another three minutes before putting on the gloves to face Larry Williams. Jack's speed in foot work and cleverness in blocking convinced the experts that Carpentier will have a hard task hitting him. Dempsey permitted Williams to drive punches at his legs and body and contented himself with attempts to knock them in the clinches. The champion displayed his ability at in-fighting. He frequently tricked Williams by partly turning him around with a shove at his elbows so he could get him off balance and nail him with a right or left uppercut.

Hiding Place Provided

Tomorrow Dempsey will do nothing more than punch the light bags for a round or two. His departure for Jersey City is scheduled for Friday. He may make the trip in a special train. He will be secluded in a private residence in Jersey City the night before the battle.

Front View of Building Occupied by Showalter & Jacobs

Although there were seven forest fires in Oregon during the last two months, no monetary loss resulted and no extra expense in fighting the fires was incurred, according to an announcement made yesterday by the state forester's office. Six of the fires broke out in June and only one in May.

Ninety permit-to burn slashings have been issued by the state forester since June 1, for the territory aggregating approximately 4,700 acres.

Georges Works Secretly

MANHASSET, N. Y., June 29.—Georges Carpentier boxed four rounds with as many sparring partners this afternoon, Francois Descamps, his manager, announced tonight. Identity of the four was not revealed. It was also declared at the camp that the challenger had not boxed with Tom Gibbons, St. Paul heavyweight, despite widely circulated reports to that effect.

Today's activities were largely shrouded in mystery. Carpentier went out on the road this morning for a light but lengthy workout. When he returned he was sent behind the barn with Trainer Wilson, Charles Ledoux, French bantamweight champion, and Paul Journee. He remained there three quarters of an hour. Strict orders had been given the attendants to keep everybody out and after it was over Descamps came to the fence and said Georges had worked lightly and had not sparred.

Boxing at End

"He will not do any more boxing until the bout," he said.

Then Descamps motored to New York for a conference with Tex Rickard, the promoter. They later went to Jersey City to look over the arena.

While the manager was away Georges spent 45 minutes shadow-boxing and jumping the rope. When Descamps returned he announced that in his absence Georges had boxed four rounds. The only sparring partners seen by newspapermen in the camp during the day were Ledoux and Journee.

It was rumored that Carpentier would go to Jersey City Saturday morning on board the yacht which he had been cruising several Sundays. The party probably will reach the arena about 2 o'clock.

Ring 20 Feet Square

NEW YORK, June 29.—The Dempsey-Carpentier ring will be 20 feet square and not 18, Tex Rickard announced today. It had been previously understood that the ring would be 18 feet square. The fight promoter said that Carpentier's manager was satisfied with the measurements.

CHANGE VOTED IN NAVY FUND BILL

(Continued from page 1.)

cern to the administration what form the expression of congress shall take, though it is most agreeable that congress shall express itself in favor of securing, if possible, an international agreement upon a program for the limitation of armaments.

"I think it has been pretty well understood that the administrative branch of the government has already been seeking information with regard to the attitude of the foreign nations on the general subject of disarmament. These inquiries and negotiations will be continued and the time and manner in which the matter may be formally presented to foreign governments can only be determined after the fuller development of inquiries already initiated."

Consideration Promised

"It is wholly desirable to have the expression of a favorable opinion on the part of the congress relating to this world question, and it would seem to me ample if it would be expressed in the broadest and most general terms."

"I am vastly more concerned with the favorable attitude of the congress on this question than I am as to the form of expressing that attitude. You may be sure that the executive will be ready to give every consideration to such expression as the members of the two houses of congress find themselves disposed to make."

DAWES URGES BUREAU HEADS TO BE SAVING

(Continued from page 1)

here. If we ever get down where we want to get, it will be these men who do it."

"We propose just the organization which is the backbone of every business," he said. "Under the old system, it's always been the practice of a live bureau to hold up congress for everything it had a chance to spend. I know because I did it myself when I was running a bureau before."

"Now they have to go the other way, and just for my reputation, I've got to cut that \$225,000 appropriated for the budget bureau just 25 per cent, if it takes my salary this year."

SEE YOUR OWN IN ACTION

In "Powder River," shown at the Grand theater last evening, many Marion county boys were shown in action.

Veterans of Foreign wars are very fortunate in securing these government war pictures, as veteran organizations all over the states are clamoring for them.

These pictures are said to be the most remarkable ever taken under actual shell fire. Records show that eleven camera men were killed and 27 wounded during the taking of the 6000 feet of hair-raising thrills. Many of our own county boys are really seen going into action and bringing in the German prisoners. The photography is remarkable and gives great credit to the men of the Signal Corps, U. S. A. The pictures are in truth the only authentic films taken of the Yanks in action and authorized as official by the government. Aside from their entertainment value the views are quite instructive and educational. You can ill afford to miss them.—Adv.

Vorse and Keene Expected To Put Up Close Contest

A close match is predicted for Sunday when Vorse and Keene battle for the local golf title and for the president's cup in the championship game of the season on the Ilabe course. A large crowd of local enthusiasts is expected to witness the championship game.

In the contests last Sunday Vorse defeated Keene and Thielson defeated Roberts. Thielson

was barely able to hold his title for Roberts tied with him at the 18th hole, forcing him to play additional holes for the title to the game.

Comparative playing during the season shows the two stars as being almost evenly matched with neither having any decided advantage. They will play 36 holes Sunday.

What has become of the flood of German helmets with which the country was filled after the armistice?
