Why Gamble? Many young people are starting out in life without any definite aim. They live from day to day, go from job to job. Their whole future is an uncertainty. Perhaps they will eventually be successful, perhaps they will fail—it all depends upon circumstances—but the odds are against them. Why gamble with the future when a definite plan, aided by a little well directed effort, can point you successward? We can help you. Write or call for information. 600 Salem Automobiles At Bay City on July 4 That 600 Salem automobiles were registered at Bay City, on July 4, is the statement of A. H. Moore who yesterday returned from a three days' visit to the seaside pleasure resort. A free clam-bake, plenty of beef, a la barbecue with bean pastimes and games were features of the program Sunday and Monday. Moore says that as the Ford flies, at 70 miles to Bay City with good roads all the way except for a five mile stretch of rough dirt road between Hebo and Bay City. The route taken by Mr. Moore was by the Wallace road to Westland, thence to Hebo and Hebo.

C. E. SESSION PLANS PARADE Thousands Will March In Streets of New York, Sing Militant Hymns

NEW YORK, July 6.—Ideals of Christian citizenship drew to New York today 8000 delegates from nearly all parts of the civilized world to attend the sixth world Christian Endeavor convention which opens tonight and continues through July 11. The last international convention was held in Chicago in 1915.

The delegates, embracing the religious faith of more than 100 denominations, represent 80,000 societies with a membership of 4,000,000. Every state in the United States and every province in Canada was represented.

A spectacular feature of the convention will be a parade on Fifth avenue Saturday in which many thousands will sing militant hymns as they march. A series of floats will depict important epochs in religious history. After the parade a mass meeting will be held in Central park and William Jennings Bryan will deliver the principal address.

More than 200 speakers of prominence in the religious world will address afternoon and evening sessions in the 71st regiment armory. The Rev. Francis E. Clark, founder and president of the United Society of Christian Endeavor, will preside at the opening exercises tonight. A choir of 1000 voices, led by Homer Rodeheaver, will render a musical program and addresses will be made by representatives of the city and delegates from other lands.

MELLON WARNS AGAINST BONUS LEGISLATION (Continued from page 1) would be serious injury and loss to the whole community and in the long run, the veterans themselves would lose far more than they would gain. I cannot bring myself to believe that this would be "adjusted compensation" for a service that was performed as the highest duty of citizenship and a sacrifice that can never be measured in terms of money.

Not the least disturbing feature, he continued, was the bill's plan to postpone actual distribution of funds until next year, which, he said, "tends to mislead the people into the belief that in some way the proposed program can be accomplished without imposing a serious burden on the country."

War Burden Would Increase. "It must inevitably increase the war burden which the people have to bear," he contended. "It could be financed only by addition to the burden of debt and taxes under which the country is now staggering. However financed, no such sum could be taken out of the public treasury without throwing a corresponding load upon the whole people in the form of increased interest charges, increased taxes and increased cost of living."

Cost of refunding the early maturities of public debt, the secretary said, "would be vastly increased, and the refunding operations themselves seriously embarrassed." Holders of liberty bonds,

Kinky Freight Siding Replaced by Company Salem used to have the crookedest railroad ever built, crooked that is, as to its rails. It was the freight siding on the down town line of the Southern Pacific between High and Commercial streets. A snake track would be the passing traffic, and keep the twist out of pure cussedness. The new rails are twice as heavy and many times as straight; indeed, they've lost every mark of distinction, and so Salem has lost its one outstanding railroad landmark, that warped track that used to be the daily astonishment for everyone who expected it to crawl away into a hole and never come back.

Two Boys Escape from State Training School The escape of Herbert West, 16, and Raymond Kinger, 13, was reported yesterday by Superintendent Gilbert of the state training school. The boys escaped about 4 o'clock from the play ground. Both boys were trustees and had been in the school for some time. It is thought that the boys will attempt to find work in some berry field before they try to reach their homes in Portland. Superintendent Gilbert has offered a reward of \$5 each for their return. He described West as having blue eyes, a ruddy complexion, curly brown hair and a rather husky voice. Kinger has blue eyes and brown hair, clipped close.

Worrell Has Gun Collection One of Best Exhibits of Pistols Anywhere Owned by Former Salem Man S. C. Worrell, formerly one of the employes at the state prison, and for the past three years on the Portland police force, where he is now a sergeant, was visiting his friends in Salem Wednesday. He was a member of Company I, Second Ore. on regiment, that served in the Philippines in 1898-1899, enlisting from Albany.

Mr. Worrell has one of the most interesting, though not yet the largest, collections of pistols in the state. There is one other in Portland that exceeds his in number, though he has more than 200 specimens in his collection. It is an especially complete line of Colt's revolvers and pistols more than 50 kinds from this one famous maker. One is the famous old dragoon model, weighing four and a half pounds, of the type that served in the Mexican war. Another is a specially made "pistol" model, 3.50 caliber swing-out pattern, gold plated, ivory handled and elaborately engraved, the finest revolver the Colt factory ever turned out. It is one of the most beautiful arms ever made anywhere.

Mr. Worrell formerly had a large collection of "long guns." One of later years has specialized on revolvers and pistols as more portable and occupying much less room for a proper display. For some years he has had a number of antiques in the Hauser Brothers' loan collection in their Salem store, and still has their Albany store walls well decorated with strange and obsolete weapons that made modern shooters stare and wonder what "those old ducks" used to do with such weapons.

SHAW HERE TO BUY PRODUCTS San Jose Manufacturer Is Ready to Take Any Kind Of Fruit Grown Here

JAMS AND JELLIES MADE Californian Comments On Favors Nature Has Bestowed on Valley

When you get a jar of jelly, jam, marmalade or fruit butter with the label, "The Shaw Family company, Inc.," you are likely to get a good piece of money—but like wise you will divorce yourself from the suspicion that the delicacy was made of culls, of renovated fruits, or benighted pickle to arrest the process of incipient decay.

It will have been made partly by the man who spoke at the Salem Rotary club luncheon Wednesday, E. R. Shaw of San Jose, Cal., though he will say very modestly that it is his wife and three children who are most largely responsible for the super-excellence of the quality product.

Purchases to be Made Here Mr. Shaw is in Salem to arrange for the purchase of practically every kind of pit and berry fruit grown here—loganberries, raspberries, blackberries, strawberries, currants, cherries. The Shaws make up nothing but preserves and jams and jellies, they do no canning whatever. They hope to buy a considerable quantity of fruit here. Mr. Shaw himself will be returning to California very shortly, but his son will be here within the next few days, to look after the actual purchase.

We raise in the Santa Clara valley as good fruit as there is anywhere in Oregon, and we grow everything that grows in the United States," said Mr. Shaw, "but we need more than we have, and we're coming out after it. Oregon has only fairly begun to realize what nature has given it in climate, soil, in productive possibilities. You haven't gotten into the realm of higher production as we've had to do. You have raised things easily, because nature does so much for you. This ought to be a wonderful country when the people fairly strike their gait.

Cooperative Value Proved Mr. Shaw says that the past year has shown the value of cooperation between buyer and manufacturer, such as long bitter experience has brought to the California growers. California growers last year in many cases sold their products for less than the sky-rocketing Oregon growers got for theirs, but this year they are going along still under a full head of steam, and living prices and working capital for both grower and packer. They have gotten past the warping stage, and are recognizing the mutual necessity of the two elements of business—growing and manufacturing—and there are no more serious stampedes and no bitter heart-burnings.

Many Lines Hit Mr. Shaw mentioned an interesting line of business catastrophe of the past year. The coffee dealers got a fearful jolt that paid enormous tribute to the Brazilian growers and others outside of America. The rice dealers "got theirs," and other countries took their money. The sugar men dropped uncounted millions into the waiting laps of the Cuban and Hawaiian and other non-American growers. The American canners, too, paid an unbelievable tribute to the American fruit grower, in exorbitant prices for fruit.

In this last case, however, the money was all left at home—and gradually, he says, will become equalized, partly through this year's excessively low prices, but it stays in America and isn't carted away to any off-colored foreigner who saw the squeeze coming and squeezed too hard. Mr. Shaw says that the time is ripe for more and better fruits, and that the markets of the world are wide open for the Oregon grower who will get in and dig and keep his head.
