

WALTER COX PILOTS BOTH

Winner in Two Divisions of 2:08 Trot Driven By New Englander

COMPETITION IS CLOSE

Division of Purse Breaks Track Precedent—Cup Is Given to Driver

NORTH RANDALL, CLEVELAND, Ohio, July 6.—Walter Cox, the New England reinsman, distinguished himself by piloting the winners in both divisions of the Ohio stake for 2:08 trotters, the feature of today's Grand Circuit harness horse racing, some of the finishes being the closest of the season.

The stake was cut in two because of 18 entries, nine starting in each division, each of which carried a purse of \$5000. A cup went to the driver.

Precedent Set. It was the first time in the history of this track that such a purse has been divided and the

original purse given to the winner of each section and probably the first time in the history of harness racing that a stake of this value has been so handled. In the first division Cox was behind Natalie the Great, a filly by Peter the Great, owned by the Laurel Hall farm, Indianapolis. After finishing eighth in the first heat Cox drove the filly to victory in the next two heats.

Field Is Bunched. The second division went to E. Colorado, owned by B. Pardee of Atlantic City, in straight heats. Cox lay in third position with the bay horse until the three quarters pole in each mile.

In the second heat Dorothy Day furnished the closest competition in the race to the wire, but the remainder of the field was not far behind and well bunched. The time for this mile, 2:04 3/4, was within half a second of the record.

Both Natalie the Great and E. Colorado were overwhelming favorites.

Season Record Established.

Periscope established the season's mile record time for trotters in the second heat of the 2:05 trotting sweepstakes when he went the distance in 2:03 3/4. He won the event after finishing sixth in the first heat and then taking the next two. The time for the three miles was fastest of the season. Tom Murphy of Poughkeepsie drove his second winning race of the season in the 2:18 trot. He piloted Neva Brook to victory in straight heats. Best time, 2:09 3/4.

Jimmy McKerron, winner of the 2:12 pace, was the fifth favorite of the day to win. He took the first and third heats, finishing 10th in the second after breaking coming into the stretch. Best time, 2:06 3/4.

LIBEL CHARGE AGAINST TWO

Totten and Gummerson, Newspapermen, Accused By Non-Partisans

BOTH ARE UNDER BONDS

Special Edition of League Newspaper Contains Offensive Matter

FARGO, N. D., July 6.—Warrants for the arrest of George A. Totten, Jr., and C. K. Gummerson were issued here today on a charge of criminal libel following publication of an article in a special edition of the Courier News charging members of the state executive committee of the Nonpartisan league with misusing funds for the league's recall campaign.

Complaint by Chairman. The complaint against the men was filed by A. A. Liederbach, chairman of the state executive committee. Both were arrested and later released on bond pending a hearing July 8. Previous to filing charges against them, Gummerson and Totten had been relieved of their positions as editor and business manager, respectively, of the Courier News, a daily newspaper controlled by the state executive committee.

Totten also is at liberty on bond following his arrest Saturday on charges of embezzling \$102.70 of the league's campaign fund, and is under injunction, obtained by Liederbach today, forbidding him to have anything to do with the management of the Courier News.

Charges Denied. In a statement issued tonight Liederbach denied the published charges made against the committee of mishandling league funds, and declared that "every dollar expended by us has been in conformity with instructions of the mass convention that authorized the fund."

"We shall submit a complete report of all receipts and disbursements at the next state convention," Liederbach's statement said. "We shall be glad to welcome an inspection of our books by a committee of leagueurs whenever the league wishes."

CLOVERDALE NOTES
Mr. and Mrs. J. D. Craig accompanied their son-in-law and family of Salem to Pacific City to spend the Fourth. They left here Friday evening.

Miss Hazel Craig was given a birthday surprise Sunday when her sister invited in a few friends for a 12 o'clock dinner.

Mr. and Mrs. Ivan Hadley accompanied Mrs. Hadley's parents, Mr. and Mrs. Mickey of Salem, to Corvallis to celebrate the holiday.

F. A. Wood and family spent

the Fourth in Salem with relatives. A. Wood has purchased a new threshing machine. Everybody is busy now in the fruit and hay.

Dangerous Curves to Be Eliminated from Highway

ASTORIA, Ore., July 6.—Work of removing all the dangerous blind curves on the Columbia River highway between Astoria and Portland will be started next Friday. It was announced here today by J. J. Lynot, superintendent of that division of the highway, and J. W. Foster, construction foreman.

The decision to eliminate the dangerous curves which in many cases have contributed to serious accidents to motor cars on the Astoria-Portland division of the Columbia River highway, was reached by the state highway commission following a personal inspection made last Thursday by Commissioner John B. Yeon of Portland, who made the trip from that city here, accompanied by W. D. Clark, division engineer, for the Columbia River highway, and J. J. Lynot.

MISS WILLIAMS IS NOMINATED

Tennessee Woman May Head National Education Association Next Year

DES MOINES, Iowa, July 6.—The high water mark of the meetings of the National Education association was reached this afternoon when 22 separate departments and organizations gathered in various places here to discuss important phases of education. It is a part of the plan of the new organization that in addition to the general program of education adopted by the main body of the association, each department or affiliated organization shall adopt a plan of work in its special field of activity.

Important developments of today's session included the nomination of Miss Charl O. Williams of Memphis, Tenn., as president of the National Education association for the coming year. The election will be held Friday morning.

It was informally announced tonight that the resolutions committee had agreed upon 13 resolutions.

A summary of these resolutions which is expected to go before the general session Friday follows:

1—A competent, well trained teacher for every teaching position in the United States; 2—Two probationary periods of service to determine fitness for permanent service; 3—Permanent tenure during efficient service after probationary period; 4—Adequate retirement law; 5—Adoption of single salary schedule based upon preparation and expert service; 6—More adequate program of education for rural America; 7—Welcome co-operation with American Legion in developing a program of Americanism; basic language of public, private and parochial schools should be English language; Citizenship through history and civics endorsed; compulsory attendance for 9 months through high school period advocated; 8—Recognize that when expenditures for schools are an investment bringing larger returns than any other type of public expenditure; recognize necessity for larger state distributive funds for schools to equalize burdens and opportunities throughout the state; 9—Renewed unequalled endorsement of a department of education with a secretary in the president's cabinet and federal aid and encouragement to the states in the promotion of education as embodied in the Sterling-Towner bill, and earnestly protest against the submerging of education in any other part of the government and the subordination of education to other national interests; 10—Urgent adequate library service on country wide basis in charge of professional librarians; 11—A course of study for all schools dealing with taxation and expenditure of public funds; 12—A national program of health education leading to physical fitness, and 13—Entering upon a program of education leading to international peace.

In an address here today Dr. John J. Tigert, United States commissioner of education said that while army figures indicate that probably 20 per cent of the population in the United States cannot read or write the English language, illiteracy is slowly being eradicated. Dr. Tigert said that it appears that rural illiteracy is about double the urban illiteracy.

E. L. Holton, dean of education of the Kansas state agricultural college, speaking before the department of educational publication, strongly urged that the people of the United States furnish only the best text books to their school children. Dean Holton denied that text book publishers are profiteering.

Chicago is said to be the only city making bids for next year's midwinter meeting of the department of superintendents. It is considered likely that the board of directors of the National Education association may decide to hold the main organization meetings with the convention of the department of superintendence. Heretofore the meetings have been separate. Portland, Ore., has extended an invitation for the association to hold its 1925 convention in the city in connection with a world's fair to be held there.

KABER JURY WILL BE MEN

Every Woman Dismissed Peremptorily by Attorneys For Defendant

DISEASED MIND, CLAIM

Jurors Are Warned to Be Prepared for Horrible Things in Testimony

CLEVELAND, O., July 6.—Twelve men will decide whether Mrs. Eva Catherine Kaber is guilty of first degree murder in connection with the fatal stabbing of her husband, Daniel F. Kaber. Every woman tentatively seated on the jury was dismissed peremptorily by Mrs. Kaber's counsel thus making good the declaration of Francis Poulson, Mrs. Kaber's personal counsel, that no women would be permitted to sit in judgment against her if he could help it, because he considers them "heartless" in judging one of their own sex.

Many Admissions Made. In his opening statement to the jury, Attorney Corrigan for the defense, admitted that many of the state's contentions were true, but that the defense testimony would show that Mrs. Kaber had not intended to murder her husband, and that her actions were the result of a mind distressed from childhood and even before birth and worn down by "horrible things" that will reflect no credit on the dead man.

He asserted that Mrs. Kaber's acts were done down her mental capacity, and warned the jury to be prepared to listen to "some horrible things that would come out in the testimony."

Poison Attempt Made. Assistant County Prosecutor Cassidy, in outlining the state's case, asserted that testimony will show that Mrs. Kaber first attempted to kill her husband by poisoning, and failing in this, hired assassins to kill him.

The motive, he said, was to obtain possession of Mr. Kaber's estate for herself and daughter, Miss Marion McArdle, who also is indicted for first degree murder, for her alleged participation in the plot.

PRUNE ORCHARD TO BE PLANTED

H. S. Gile Says He Will Put His Faith in Industry Into Action

"Now is the time to plant fruit, rather than to plow it up," is the optimistic declaration of H. S. Gile of Salem, one of the pioneer fruit handlers of the Willamette valley.

"We are preparing to put our faith into action by planting 50 more acres of prunes near Salem. Fruit is low in price this year, but we believe we'll never again see a return of the conditions back in 1902, when small prunes sold as

low as a cent a pound. Conditions have been feverish enough for these last two years, but they promise to stabilize, and they will pay both the grower and the handler if we'll all keep our faith with the industry.

"Alarmist predictions early in the season, were that there would be a vast quantity of fruit without a market this year. As a matter of fact, every berry so far picked has been sold, and there seems to be a way out for every one that can be picked. A few fine late Etterberg strawberries are still on the vines, and there is a chance that their owners will let them go because of the rush to get the berries and jocos out of the way. They are beautiful berries, ripe and sweet and even more perfect than the earlier product. It is an unusual coincidence that they ripen so late as to conflict with the other fruits. The total leaveage, however, is negligible compared to the whole year's crop, and it comes only from lack of time to harvest the conflicting crops, and not because there was no market for them."

SCHOOLS TEACH FIRE PROTECTION

Course of Study Sent To County Superintendents By Mr. Churchill

"Boy, go fetch Mr. Churchill's volume on fire protection. Let's put out this blaze in the approved manner."

So say the children remark in the future, J. A. Churchill, state superintendent of schools, proposes to teach 'em young.

A course of study in fire prevention is being sent out by Mr. Churchill, through the various county superintendents, to all of the school districts in the state. In the manual, acknowledgment is made to Horace Sykes, secretary of the fire marshal's department, who prepared the material for the manual.

In the foreword Mr. Churchill says:

"The conservation of life and property is necessary in promoting the welfare of the state and the nation. The loss of property occasioned by fires from preventable causes is far greater than most of us realize. Forest fires alone mean a loss of thousands of dollars. Oregon has one-fifth of the standing timber of the United States and much of our revenue comes from the source. It is important, therefore, for us to use

Here's why CAMELS are the quality cigarette

BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show.

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper—secure foil wrapping—revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows.

Such things do not improve the smoke any more than premiums or coupons. And remember—you must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigarettiness aftertaste,

It's Camels for you.

Camel
