Traveled 187,000 Miles In Buick; Used Log Chain as "Safety" Lock

Would you carry along a log
chain, back your car up to a tele-
phone pole each time you left it
and lock it with a padlock about
four inches in diameter as a pre-
caution against theft?
Paricularly would you do that
with a 13-year-old car that had
traveled 187,000 miles?
William H. Pardee, of Concord,
Mich., thinks enough of his 13-
year-old Buick to do just that. Mr.
Pardee is 91 years old.
No amount of persuasion can
convince him that a car that has
carried him 187,000 miles in 13
years of constant use can be re-
placed.

CONDITION OF ROADS (Continued from page 1)

tion of the road.
Coos Bay-Roseburg Highway —
Coos Bay wagon road open and
being used by auto stages; some-
what softened by rains; also open
via Drain and Allegany.
McMinnville - Tillamook High-
way — McMinnville - Sheridan,
paved; Sheridan-Grand Ronde, un-
der construction but passable,
rough; Grand Ronde-Hebo, maca-
dized; Hebo-Beaver, under
construction and rough; Beaver-
Hemlock, paved; under construc-
tion and closed from Hemlock to
Pleasant Valley, old road being
used; paved from Pleasant Valley
to Tillamook.
The Dalles-California Highway
The Dalles-Madras: fair
through Oufur, Maupin, Bakeoven
or Criterion and Antelope.
Madras - Crooked River: new
crushed rock road.
Crooked River - Bend: gully
graveled and in good condition.
Bend - Allen's ranch (20 miles)
cluttered road in fair condition.
Allen's ranch-Crescent through
Lapine: fair.
Crescent - Klamath Falls: Eith-
er west or east side of Klamath
Lake can be traveled; the west
side road, over San Creek hill, is
in good shape; if east side route
is traveled, take either Chiloquin
or Fort Klamath routes to
Lamb's hill, both in good condi-
tion; from Lamb's hill take fer-
ry to Barclay Springs; newly maca-
dized from Barclay Springs to
Algoona; old Fort Klamath
Falls not traveled.
Klamath Falls - California
state line: good all the way, some
macadam.
John Day Highway
Arlington - Condon: fair.
Condon - Fossil: fair, except 6
miles between Thirty Mile Creek
and Mayville; still necessary to
use old road as new road is un-
der construction and rough.
Fossil-Spray: being macadam-
ized from Fossil to Butte Creek
but road open; Butte creek to
mouth of Sarvice creek, unim-
proved and rough; new road from
Sarvice creek to Spray in fair
condition.
Spray - Dayville: The road via
Spray, Monument and Mt. Ver-
non can be used, but the route by
Mitchell to Dayville is preferable.
Dayville - Prairie City: good,
last 20 miles being good traveled
road.
Prairie City - Ironside: fair.
Ironside - Vale: fair detour
through apple orchards between
Jamieson and Lancaster to avoid
loose gravel; macadam, Brogan-
Vale.
Old Oregon Trail
Pendleton - Kamela: good, no
detours.
Kamela - La Grande: Kamela-
Hilgard: follow old county road,
mountain road passable but
rough; Hilgard - La Grande: take
old road, fair; numerous short
rough detours on account of high-
way construction.
La Grande - Telocaset: Good to
Hot Lake; detour along foot of
road past Sanatorium to Union,
fair to Telocaset. (Valley roads
still muddy and rough.)
Telocaset - Baker: good.
Baker - Huntington: detour
from Nelson school house to
Weatherby; good road with only
one or two steep hills.
Huntington - Ontario: take fer-
ry at Olds, via Weiser and Pay-
ette, Idaho, keeping on Idaho side
from Weiser to Ontario; rough
from Huntington to Olds and bal-
ance of road on Idaho side in good
condition.
Central Oregon Highway
Bend - Burns: Take new road
out of Bend for about 15 miles;
good.
Burns-Vale: better through
Crane than through Drewsey;
macadamized from Burns-Lawson;
balance of road rough and badly
rutted by recent rains.
Vale-Ontario and Nyssa: rough,
deep ruts account rains.
Oregon-Washington Highway
Washington state line - Pendle-
ton: paved almost entire distance
detour for 500 feet around bridge
at Blue Mountain station; repair
work under way 7 miles from
Pendleton and also 24 to 25 miles
from Pendleton, traffic should use
caution at these points.
Pendleton - Morrow county line
(via Pilot Rock): good out of way,
rough on mountains.
Morrow County line - Hoppner:
fair.
Hoppner-Gilliam County Line:
Grading under way in several

NEVADA DESERT RACE CAPTURED

Sensational Finish Scored
By Nikrent Brothers With
1922 Buick

Another sensational and meri-
torious showing has been made by
the Buick car and the Nikrent
brothers—Joe and Fred.

These intrepid pilots drove a
1922 Buick touring car in the
1,000-mile desert road race of Ne-
vada, one of the most thrilling
and hair-raising finishes in the
annals of road racing history.
In competition with some of the
most expensive cars built, and
specially constructed racing ma-
chines, this regular Buick touring
car proved its mettle by coming in
ahead of all its opponents and
giving the thousands of spectators
at the Reno race track an oppor-
tunity to exercise their lungs in
excitedly cheering the far and
its smiling drivers.

Only those who know what a
three-day grind over the sun-baked
desert sands of Nevada means
can appreciate what a strain such
a grueling race is upon both the
car drivers. Even a thousand-
mile race over the smooth high-
ways of California is a terrific test
for the ordinary mortal, but to
reel off this distance over the deep
sandy stretches of the waste des-
ert lands of Nevada and through

the alkali mud flats, which often
are nothing but soft, oozy mud,
baked by the sun on top, is a real
test for any automobile or mortal
man.
Through the keen judgment
and brainy driving of the Nikrent
brothers the valve-in-head entry
was kept within striking distance
of the leaders, and through the
consistency of the motor and gen-
eral reliability of the Buick under
all the trying conditions which
were met in the long three-day
grind over the Sagebrush state.

State Almost Traversed
The first day the Buick had to

travel almost clear across the
state of Nevada, from Reno to
Elko, where the car was checked
in until the following morning.
The Buick maintained a steady
pace this leg of the journey. The
second day's run was from Elko
to Tonopah, over sandy and
muddy wastes, as well as over the
rough roads leading across the
Humboldt mountains. It was on
this leg of the race that the Buick
met with trouble. Near Cherry
creek Nikrent hit an immense
rock, which was submerged in the
sand, and the steering knuckle
was bent. Despite this mishap,

Nikrent drove the Buick to Ely, a
distance of 60 miles, repaired the
damage done and started for Ton-
opah, arriving there in good time
and being one of the three cars
to check in for the night control.
In the final stretch on the third
day of the race the Buick left
Tonopah third, passed the cars in
front of it on the way to Reno,
and finished this final leg in front
of the other contenders, much to
the wild joy of the thousands of
people who flocked to the race
track for the finish.

Highway Protection Force To Operate in Washington

OLYMPIA, Wash., July 8.—
Highways in Washington state
will be patrolled regularly after
August 1 by 25 men who will
travel on "good" cycles but who
will not be "speed" cops. Their
organization will be known as the
highway protection force and
their duty will be to prevent mis-
use of the roads and to enforce
highway rules adopted by the
last legislature. One duty will
be to report sections of roads in
need of repair.

MAKE VACATION TIME A PLEASURE

Classic Ridge House and Camp
Schlumberger, 1016 Tillamook trail, open
July 1. For reservations address J. H.
1 4 Edwards, 1016, 1018, at Morrison
Main 7292. Service of self service.

Only "Good" Parts Can Give Service

In our work only those
bicycle parts we have
found by experience to
give satisfactory service
are used. You can thus
profit by what we have
learned.

Bicycle Specialists

Long experience as bi-
cycle mechanics makes us
specialists in our line.

Studebaker LEADERSHIP

Studebaker is one of the world's largest automobile manufacturers, and a consistent
leader in all developments of the automobile for the benefit of the user. Among its con-
tributions in improved quality, better performance and greater value may be mentioned.

- First to make extensive use of pressed steel.
- First to make six-cylinder motors in single casting, or en bloc.
- First to produce a car with crown fenders.
- First to sell a six-cylinder car for less than \$2000.
- First to use plate glass windows in top as standard equipment.
- First to use cord tires as standard equipment on a car selling for less than \$2000.
- First to produce a car selling for less than \$1500 with crankshaft and connecting rods machined all over.
- First to cast the intake manifold in detachable head.
- First to use and inventor of the internal hot spot.
- First to use 20 degrees inclined silent operating valves.
- First to use, and inventor of improved mounting and lubrication of engine accessories on front drive shaft.

And a fact not to be forgotten by the prospective purchasers that STUDEBAKER IS
BUILDING BETTER AUTOMOBILES and that THIS IS A STUDEBAKER YEAR.
