SALEM IS THE DEHYDRATION CENTER OF THE WORLD

Do you realize what that means? It means that there is a market, and a growing market for every vegetable and fruit that can be raised on the land in this territory.

And that means more than is apparent to the stranger at first glance; for a greater variety of fruits and vegetables can be successfully grown here than in any other part of this country or the world.

Dehydration is the greatest thing in the world, in food conservation.

It takes out the water; the consumer puts it back, at any time in the future, anywhere under the shining sun—and then he has the fruit or the vegetable as good as fresh, in every nutritive quality, and in every other way.

The saving will be billions, annually. And all the money comes to Salem excepting what is expended for the nails in the shipping boxes.

Better than a gold mine; for it will never "pinch out."

KING'S PRODUCTS COMPANY SALEM OREGON (This company is committed to the growth of this community, by a program that will make its output ten times its present output—that will employ 2500 people at its factory; that will pay to the growers \$20,000,000 a year for their products.)

10 per cent. More Butterfat

Ten per cent more butterfat! That's what the University of California's string of twenty-six cows tested after eating silage rations.

Official Statement U. C. Agr. Bulletin 282.

"Through addition of Indian corn silage or milo silage, to rations of alfalfa hay, or alfalfa with grain feeds, an increase in production amounting to from ten to twenty-five per cent was secured—butterfat was increased by about ten per cent."

An Indiana silo will help you add this ten per cent to your cream check. Twenty thousand Pacific Coast farmers earn greater profits with Indiana Silos.

Salem Is The Best Hog Market In The World

The Valley Packing Company was yesterday paying \$10.50 a hundred pounds for hogs. That was 50 cents a hundred pounds below the Portland market; and that is the rule here—50 cents a hundred pounds below that market— But is it really higher than the Portland market, when the expense of getting hogs to the Portland market is considered. The expense is about 75 cents a hundred pounds, so the Salem market is really about a quarter of a cent a pound higher than the Portland market— And it is therefore the highest market in the world— For the Portland market is almost all the time higher than the Chicago market. It was about the same yesterday, but that is unusual— And the farmers of the Salem district, on the quarter of a cent a pound saving, saved about \$15,000 last year, by reason of the fact that the Valley Packing Company is here and doing business and paying the prices it does to our people. There should be more pig clubs; every neighborhood should have one. There should be more hogs raised in the Salem district, and still more; hundreds of thousands more every year. In some respects, this is the best hog district in the world—especially on the dairy farms. There is no better or surer source of wealth. Salem Beautiful is the Salem Slogan subject for next week.

DID YOU KNOW That the Salem district ought to be a great swine breeding center; that Salem is becoming an important pork packing center, and it should grow in this respect constantly; that swine breeding here goes admirably with dairying, and there should be twenty cows where one is milked in this district now, and tens of thousands more hogs on the dairy farms; that every farm of every kind should have a few hogs—at least; that this is a good hog country—some good judges say it is the best hog country in the world; and that there is room for thousands of men who know the best methods of swine breeding and other thousands who are willing to learn? And did you know that this is the best hog market in the United States?

CLETRAC Tank-Type-Tractor

As soon as the plowing job is finished, hook the Cletrac to the harrow and seeder, and finish the job.

The 'CLETRAC' rides the top of the soil lightly and does not pack the ground.
