Sunday Hot Enough Even For Mr. Millard of Salem

"For almost two years, ever since the big freeze two winters ago, I've been all wrinkled up with the cold," says E. E. Millard, paying teller in the Ladd & Bush bank. "I've been wishing I could get a six-months ticket for Manila, or Cebu or any of those red-hot Philippine ports. "Say, but it's genuine hotness down there, where the mercury goes through the roof of the thermometer like a rocket in a greenhouse. I've been wondering if there was going to be any more of that genuine honest-to-goodness heat left in the world, after the great frost two years ago. "But say, it's all right! Sunday gives the lie to the theory that the world is cooling off, and that we're all going to freeze to death. Why, I could almost hear the coconuts dropping off the palms, and see the monkeys skipping through the branches overhead, and feel seven million mosquitoes to the square inch as the sun goes down, and see the ships blustering out there in the harbor. "I've been wanting to go back to Manila; that hot country has been looking and feeling mighty good to me. But these few hot days will save the price and the time of a journey. Hope you like it, too!"

RIFLE TEAM TO BE SENT EAST

Government Sets Aside Fund for Transportations of Oregonians

Oregon shooting fans are to have a chance to compete in the national rifle matches at Camp Perry, O., according to telegraphic information received by Adjutant General George A. White, advising him that government funds have been set aside for a civilian rifle team from Oregon. This team will be in addition to the Oregon national guard team, and will be made up of 14 members. Calls for competitors and their records as marksmen have been sent out by the adjutant general for the purpose of learning whether a civilian firing team can be made up in time to leave Oregon for Camp Perry in the middle of the month. The government pays each member 5 cents a mile for transportation and furnishes him with food and ammunition while at the matches which occupy about three weeks time. Three applications for selection on the team were received before the funds were apportioned to the state.

Razor Missing When Blanket Roll Found

Yesterday morning, H. L. Cratty, transient, reported that his blanket roll had slipped from him. According to his report, the roll, containing blankets, overalls, a book of proreology and a razor, had been left in front of a residence on Fairgrounds road, when Mr. Cratty emerged from the house his possessions were missing. This morning Mr. Cratty was reunited to his belongings, except for one item. The razor was not to be found when the police opened the bundle at the station last night. It was found by M. R. Matthews, 1649 1/2 street, in a vacant lot to the rear of Mr. Matthews residence. The bundle was brought to the station after Mr. Matthews had announced his find.

Not To Be Caught

The aged mariner was well known for his powers of exaggeration. At supper one night he was describing a thrilling voyage. "While cruising in the Mediterranean," said he, "we passed an island that was red with lobsters." "But," said one of the politely incredulous guests, "lobsters are not red until boiled." "Of course not," said the old salt, "but this was a volcanic island with boiling springs!"—Philadelphia Ledger.
