Thought He Had to Have Apoplexy

Because he was forty-five and had suffered a stroke of apoplexy, an Indiana bank president made his will. One entire side of his body, even including half his tongue was paralyzed. Chiropractic spinal adjustments restored first his speech, and then gradually completed his recovery. Chiropractic spinal adjustments will not restore destroyed tissue, such as is often missing in apoplexy cases, but if the paralysis, as in the case of this Hoosier bank president, is unaccompanied by brain clot, or destroyed nerve cells, there is a chance.

TAKE SALTS TO FLUSH KIDNEYS

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder-irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

Opinion Relates to Delinquent Tax Payments

In response to an inquiry by the state tax commission, Attorney General Van Winkle holds that assessments by the sheriff of property which has been omitted from the tax rolls in former years are to be made by the sheriff upon the rolls of the several years in which the property was omitted and that the same notice to the owner and time for payment must be allowed as required when the property is assessed in the regular way and has become delinquent. It is estimated that the law does not allow the issuance of certificates of delinquency until six months after the taxes have become delinquent and notice has been mailed to the delinquent owner and the delinquency published.
