# HIKE IS ENJOYED BY LOCAL SCOUTS

Not One of Boys Fall Out in Long March Over Mountain Trail

Ammonia and adhesive plaster are mostly in demand among the Boy Scouts who are having the time of their young lives at McCredie Springs, according to C. B. Clancey, who returned from the camp Saturday morning. These are being applied on bee stings and on minor cuts.

The hike of 11 miles made last Monday evening from Oakridge at the terminus of the railroad to McCredie Springs was made with not a boy falling out, and this fine record is holding good in the activities of the week, Mr. Clancey said.

**Why Not Clean Up?**  
Editor Statesman:

Portland has a weed campaign on. It is time Salem put one on in good earnest for more than one day in the year. A spurt of "The City Beautiful" spirit accomplishes very little.

We should "carry on."

Some one says, "We have an ordinance against these neglected lots—just complain." Why is it necessary to "complain?" All but the blind can see.

Even on our main streets where hundreds of tourists pass through unsightly spots offend the eye. State street alone has a crop of uncut weeds that would saw the whole country. In some places they are cut and allowed to remain on the ground all summer. A match or cigar stub would burn the block if not worse.

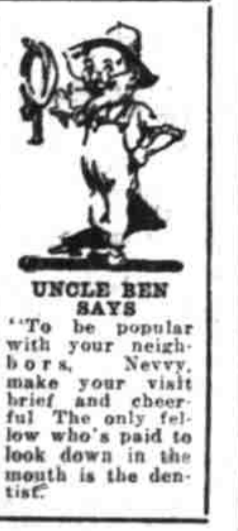

It is most discouraging to those who try to keep a little lawn. Clean up! Get ready for the state fair—if not for our own pleasure, do it for the visitor. Some people keep house this way. Even that is better than not to clean at all.

# Freedom From Fear of Overheating

Thermic Fever is the technical name for sunstroke. It means the inability of the body to adjust itself to any temperature. Some are never in danger of overheating. Others are never out of danger.

Adapting the body to greater heat is a matter of elimination of heat through the skin, and the condition of the skin is due principally to the activity of the kidneys. A displacement of spinal joints causing pressure on spinal nerves to the kidneys is alone enough to cause overheating. When by chiropractic spinal adjustments the spinal nerves to the kidneys are freed there is little danger of overheating.

**Troubled For 20 Years**

"I easily overheated and at intervals would have stinging pains in my abdomen. This started 20 years ago, and for several years increased in frequency. Then it became a pronounced kidney trouble with pain and soreness which I thought was a growing cancer. Chiropractic spinal adjustments have removed the trouble. Every bit of the pain and soreness has gone. Chiropractic is an untold blessing."—Mrs. Mary E. Johnson, Chiropractic Research Bureau, Statement No. 1273H.

# RIFLE TEAMS OFF FOR OREGON CAMP

Monitor and Portland Men to Meet in Matched Contests Today

An informal rifle shoot will be held today at the Clackamas rifle range between the Monitor and Portland rifle clubs. Colonel George A. White, adjutant general, will attend the shoot and will discuss the selection of the civilian team to attend the national meet to be held at Camp Perry.

It is not known as yet whether any Salem men will be on the team. Salem has a rifle team with W. H. Trindle as president. It is understood from information received at the adjutant general's office that a certain mileage will be paid by the government to those who attend the national matches.

A selection will be made Monday by Colonel White and others, of the men who will constitute that National Guard team to represent Oregon at the national matches. The national guard team, as well as the state civilian team will each include 14 of the most expert rifle men of the state. They will leave for Camp Perry about August 22.

# DELINQUENT CORPORATION TAXES ARE COMMENTED ON

The delinquent personal tax of a corporation should not be charged against the real estate of any stockholder of the corporation, and the personal property of the corporation may be seized and sold for the tax assessed against it, according to an opinion written by Attorney General Van Winkle, in reply to an inquiry by the state tax commission.

Also the attorney general holds that if the members of a co-partnership are separately assessed for their individual shares, each partner is liable only to the extent of his shares in such partnership. If the partners are jointly assessed, then either or any of such partners shall be liable for payment of the whole tax.

# Peter Deumens Leaves to Visit Missouri Friends

Fears that Peter Deumens, 56, Salem shoemaker, was the man who figured in a reported suicide attempt near this city Tuesday afternoon were set at rest late yesterday when it was learned from friends that Deumens had left this city for St. Louis, Mo.

Deumens, who has managed a shoe repair shop at 321 North Commercial street for the past two years, recently sold the place, and according to the purchaser, had demanded and received \$750, the purchase price, in currency. The transaction occurred August 2, Deumens last being seen here on August 5 when he stated that he intended to visit friends in the east, but promising to say "good-bye" to Salem acquaintances before leaving.

When Deumens failed to return and apparently disappeared a search was instituted, which resulted in yesterday's findings.
