Bring Down Grocery Prices

It is interesting to note the decided reduction in Grocery prices, when we es-

tablish one of our stores in a community. The local merchant is at a loss to

figure out how we can sell so reasonable, and immediately cuts his prices to

try and meet ours. He learns very quickly that his small buying power pro-

hibits him from continuing so he resorts to the method of giving SPECIALS

(Bait) for the Day or Week on a few articles. We offer no SPECIALS but

This modern method of serving the public has gained us thousands of Satis-
