

ALL NATIONS WILL BE HERE

One Day of State Fair Will Be Set Apart for Special Recognition

DIRECTOR IS CHOSEN

Mrs. Patterson Named to Formulate Program; Educational Value Big

An outstanding feature of the coming state fair, September 26 to October 1, will be the All-American exhibit which is to be

made primarily to show that the people of foreign countries have brought to enrich American arts and crafts and also to establish more friendly relations between the residents of this state and those who have accepted citizenship and created homes here. The state fair board undertook the work last year, setting aside one day for those of foreign birth. The initial effort was so satisfactory and successful from every point of view, that it was decided to give over a section of the educational building for similar exhibits this year, the place to be occupied by them during the entire week.

Mrs. Patterson Named
Mrs. Isaac Lee Patterson, vice president general of the National Society of the Daughters of the American Revolution, who presided over the fair last year, has again been named to take charge. In her endeavors she will have the assistance of other members of her organization, who will act as hostesses and lend aid in other ways.

Efforts have been going on for several months past in soliciting cooperation of foreign-American citizens in different parts of the state. Selection of material has claimed much time, and judging from the beautiful array of articles already on hand, the exhibit will be easily the most notable and interesting of all that the educational building has housed. Things shown last year covered a wide variety from exquisite needlework to remarkable crafts and art objects. The display this fall will be similar to the original one.

Decorations of a patriotic nature will furnish a fitting background for the booths which will be presided over throughout the week by representatives of the different nationalities. One evening of the week will be given over to these people, who are to put on the regular program in the new pavilion. Folk dances and songs will be in order, with those taking part garbed in native costumes. The Swedish citizens of Oregon will send John Olson of Portland to the state fair to lead in characteristic dances. He will be assisted by six couples and three musicians. Mr. Olson has as a background for his work many years experience in similar activities all over the United States.

Greeks and Russians Come
The Greeks and Russians are preparing for dances and the Swiss will demonstrate yodeling.

Other exhibits of arts and crafts will be shown in the art department in the new pavilion and in the textile building. Mrs. Alice Weister of Portland is superintendent of the former, this year being her sixth season in that capacity. She will be assisted by Mrs. J. Albert Jackson, also of Portland, who has a thorough art education to aid her in her work. Mrs. Weister is anticipating one of the best exhibits in years. Some splendid loan exhibits are to be made, and many new artists who are gaining distinction in the northwest will be represented. Among old favorites will be Sidney Bell, Clyde Leon Keller, Margaret De Voe White and many others.

Renewed Interest Probable
Mrs. Walter J. Holman of Portland will supervise the textile department again this year, which is her second season. Owing to the more normal pricing of linen and needlework goods Mrs. Holman predicts renewed interest in work which her section represents and in consequence expects to display many new and fine work on fives already to substantiate her assertion, coming from as far east as Massachusetts.

Those who realize the tremendous educational value of arts and crafts are endeavoring to get an appropriation for a separate building, and it is thought that by another year, two years at most, the dream will be realized.

VALLEY APPLES HELD SUPERIOR

C. I. Lewis Compares Conditions Here With Those Elsewhere in West

Spitzenberg, Ortlely, Winter Banana, Rome and Grimes apples grown in this section are unsurpassed in quality by those of any other section of the northwest. This is the opinion of C. I. Lewis, who has had wide experience in apple producing, marketing and judging. Mr. Lewis has judged at many international apple shows and is of the opinion that these varieties can not be surpassed by those from any other section of the country.

Present indications are that the fruit will be of superior quality to that shipped in ordinary years. It has more color than is normally found this early in the season and is large and unusually free from imperfections. Completed estimates of the Oregon Growers' Co-operative association show that it will have 1000 cars of apples. Of these, 600 will come from the Rogue River valley and the remaining 400 from the Willamette and Umpqua valleys and Wasco county.

The apple harvest is expected to start more than a week earlier than it did last year. Grimes will move during the first week in September, and other varieties will follow at about 10 day intervals, coming in order as follows: Jonathan, Wagener, Spitzenberg and Ortlely, Rome, Newton and other late varieties will follow after the middle of October.

REDUCED ROUND TRIP FARES TO PORTLAND OREGON ELECTRIC RY. Tickets on sale daily, \$3.40 good for return same day; on sale Saturday and Sunday limited to return Monday \$3.00. Fares include tax, Station State and High streets. —J. W. Ritchie, Agent—Adv.

BANDITS HOLD MEN IN VAULT

Two Masked Robbers Loot Bank at Metalfine Falls, Wash., Escape

BANK OFFICERS PRESENT

Thugs Fire at Storekeeper, Are Afoot, Posse Follows Into Hills

SPOKANE, Wash., Aug. 19.—After locking two officers of the Metalfine Falls State bank at Metalfine Falls, Wash., 25 miles northeast of here, in the bank vault this afternoon, two unmasked men escaped with about \$4000 in Liberty bonds and \$2000 in currency, it was estimated.

Sheriff On Trail
Deputy Sheriff Deer of Ione, and a posse of 30 men were on the trail of the robbers tonight who were reported to have crossed Sullivan creek and escaped into the mountains. The men were on foot.

The two men entered the bank through the rear door and ordered A. W. Dressel, cashier, and H. W. Neelands, president, to face the wall with their hands in the air. The younger man then forced Neelands into the vault where he was compelled to surrender a part of the Liberty bonds and about \$1700 in currency. The cash drawer was rifled whereupon the robber made a second trip to the

vault and took the remainder of the Liberty bonds.

Officers Tied.
After tying the hands of the two bank officers, the robbers pushed them into the vault and shut the door. An alarm connected with the store of E. O. Dressel, brother of the cashier, gave the warning and as the robbers were looting the bank, the brother rushed out with a revolver. The bandits fired at him but missed.

Utility Valuations Are Compiled by Mr. Lovell

Frank K. Lovell, state tax commissioner, has written letters to the heads of various utility corporations operating in Oregon, asking them to call at his office in Salem within the next few weeks to discuss the valuations of their respective properties. Levying of taxes on these corporations will not be completed until December, but because of the many intricate problems involved in making the assessments, the officials of the various concerns will be given an opportunity to be heard. This, Mr. Lovell believes, will eliminate misunderstandings and prove more satisfactory to all concerned.

Prisoner Given Credit For Time Incarcerated

A person sentenced to pay a fine and to be imprisoned in default of payment thereof, is entitled to credit at the rate of \$2 per day for the time he remains in jail, according to a legal opinion handed down by L. H. VanWinkle, attorney general. The attorney general also held that the prisoner may at any time pay the amount remaining unsatisfied and demand his discharge. The opinion was given at the request of John L. Foote, district attorney of Columbia county.

FIRST SHIPMENT OF PEARS GOES

Entire Tonnage Held by Association in Two Valleys Sold at \$65

The first shipment of pears from the Oregon growers' warehouse today. The entire tonnage in the hands of the association in the Willamette and Umpqua valleys has been sold on the basis of \$65 a ton f. o. b. shipping point for No. 1's and shipments will be made regularly from this time forward.

Pears are several days earlier than they were last year and the crop is of larger size. This is due largely to the light crop which enabled the few pears on the trees to develop to the maximum size. The August report of the bureau of estimates places the Oregon crop at about 60 to 70 per cent normal.

The pears are running strongly to the No. 1 grade in spite of more than the usual amount of frost following the late spring rains.

Hats Are Off to Oregon Barreled Strawberries

That quality is appreciated and desired in again borne out by the following communication received by the Oregon growers' association concerning two cars of barreled strawberries which were sold on the Chicago market. "This morning we received the cars of barreled strawberries and our hats are certainly off to you.

They are the cleanest and the nicest barreled strawberries we have ever seen.

"Only one objection could be made—the berries are a little small, but in method of handling, in cleanliness of packing and in excellence of shipping containers, you have done a noble job. We congratulate you."

The association makes every effort, consistent with reason, to get out products of the highest quality possible. It is through this sort of effort that a market for Oregon fruit can be built up that will be profitable and steady no matter what other conditions may be.

Cheese Factory Closed Temporarily at Silverton

SILVERTON, Ore., Aug. 19.—(Special to The Statesman)—The Evergreen Cheese factory has stopped the manufacture of cheese for the remainder of the summer season. Mr. Zahler, the cheesemaker, said that in all probability the factory would begin operations again in about two weeks. In the meantime the factory is still receiving milk and sending it to the condensary.

Attorneys and Appraisers To Be Paid by Soldiers

Both attorneys and appraisers employed in connection with the administration of the soldiers' bonus law, will be paid by the state, according to an announcement made by Captain Brumbaugh, secretary of the World War Veterans aid commission.

Captain Brumbaugh said the commission had come out that the appraisers would be paid out of funds appropriated by the last legislature for the administration of the bonus act.

AYER REFUSES TO ACCEPT POSITION

Normal Regents Must Select Another Successor of Late President

Normal regents must select another successor of the late president. Dr. Fred C. Ayer had declined to accept the presidency of the Oregon state normal school to succeed J. E. Ackerman, who received yesterday by Miss Cornelia Marvin, state librarian, and a member of the board of regents of the institution. Dr. Ayer is now connected with the University of Washington where he has been employed as professor of education for the past three years.

Dr. Ayer was elected President of the state normal school at a meeting of the board of regents held in Salem last week. He had been an active candidate for the place, and his rejection came as a complete surprise here.

Miss Marvin got into communication with other members of the board of regents, and it was said that another selection would be made within the next few days. It was not believed that it will be necessary again to call the regents together as all applicants were given careful consideration at the last meeting.

Pomeroy and Stokes Are Called to Investigate

H. H. Pomeroy and George W. Stokes, special arson investigators for the state fire marshal's department, have come to Seaside where they are making an investigation of an alleged suspicious fire in that vicinity. No formal

report with relation to the fire under probe had been received at the state fire marshal's office yesterday.

No Fatalities Reported During Last Seven Days

Although there were 408 accidents in Oregon industries during the week ending August 18, there were no fatalities, according to a report prepared by the state industrial accident commissioner. Of the total of 408 accidents reported, 400 were subject to the provisions of the workmen's compensation act, two were from firms and corporations that had rejected the law, and six were from public utilities not subject to benefits under the act.

The FRUIT of WISE BUYING!

From Atlantic to Pacific—from Canadian to Mexican borders Nature has hurled her Golden Harvest—and as if in friendly rivalry our factories and mills have produced more than expected. All this is not without result—abundance and plenty are to be found on all sides, and the natural result is a lowering of prices which puts within reach of all a HARVEST OF OPPORTUNITY. This will be in sharp contrast to conditions which will prevail this coming winter, for prices might ascend to prohibitive figures. Are we to let opportunity slip by unheeded? Are we to ignore the warning to prepare for winter? The far-sighted will not; the others should not.

PREMIUM TRADING COUPONS
On all small purchases of 50c and upward—Make your money do double duty. Premium Department display open to your inspection.

DOUBLE PREMIUM COUPONS will be given in the furnishing, dry goods and shoe departments.
