By Mrs. W. T. Thompson, Are you going to show some of do as a matter of fact frequently your "chickens" at your county or show faint glimmerings of real common chicken-sense.

state fair? No? Well, why not? "Oh, well, I compete with those is going on, or what is better still, big fellows who make a business after the ribbons are placed; ask of breeding fancy poultry." Don't the judge to explain to you why be too sure of that. Just listen to the birds in your class were so what Judge E. C. Branch told me placed. You will be surprised to last winter at the Montana State note how much pleasure this Show at Helena when I asked him seems to give him. You know he

the question: "Who raises the is a chicken crank. Would rather best White - Orpingtons?" Of talk chicken than eat. I've known course I referred to the big fellows them to miss a meal to help out whose names and winnings are some embryo fancier to judge his well known to all renders of the own birds, or to advise him how poultry papers.

me then and I pass it along to my improve some good points. sister and brother amateurs for their encouragement. He said: "The best birds are being raised here and there over the country deal like standing on the beach. by the small breeder and the back lotter." This applies with equal force to all the breeds and varieties. Who knows, perhaps the best cockerel or pullet of the year is now maturing in your back yard

and you don't know it. This is not going to be a learned treatise on the art of growing, fitting and showing, but merely a little common sense talk amongst ourselves. Possibly I may give you a bit of my own personal experience before I get through.

Don't be frightened by all this learned twaddle about preparation of "birds" for the show. Just as though this fitting was the whole thing and that quality didn't count. This isn't the fact. Though of couse it does help the appearance some, just as it does when you wash Willie's face and hands and comb his hair and perhaps put on a clean waist before the company comes.

This once over doesn't really make Willie a better or more perfect child, but it does help the casual observer to realize that Willie is good to look upon.

But how much does the beautiful hand embroidered, ribbon bedecked dress fool the expert "Better Babies judge?" Not one little bit. He takes the measurements, puts the babies on the scales. Then lo and behold! Perhaps the perfect baby is the Japanese, Negro. Indian or from the home of the great middle class.

So it is with the poultry judge. The Standard of Perfection. Not- fun of it." withstanding much current belief as yet. Well, he hunted up an to the contrary, he judges the birds before him, rather than their number of old and young chickowners. As a matter of fact, if number of old and young chickowners. As a matter of fact, if number of old and young thick in attendance and is doing good work he shows any preference, it is in them right into the box. Then we find a welcome wish us. Morning wor the new beginners and for their encouragement. Let me all drove to town. tell you one thing more about these judges. Appointments Possible At Meeting Tuesday

Members of the so-called soldier's bonus commission will meet in Salem Tuesday, when tinal action will be taken with relation to adopting rules and regulations governing the administration of the bonus act. It was said that the commission also would take up applications for attorneys and appraisers at this session.

More than 100 attorneys have applied for positions under the bonus act, while nearly twice this number of applications have been reseived from prospective appraisers. Under the bonus law the attorneys will recove not to exceed \$10 for each abstract examined, while the appraisers will be paid \$5 for each transaction reterred to their attention. Both the attorneys and appraisers will be paid by the applicants, and not invited to our services and to our reading out of the state appropriation of \$30,000 authorized for administration of the law.

In Vienna a scientist has trans-What Does the Widow at the Sermon at 7:45. Service at Fruitland planted eyes into a fish and made it see. Here is a hint for the "blind tigers."

# Presenting

The new Buick Four is a distinctively Buick creation in every feature of design and construction. It embodies those principles of construction that have characterized Buick automobiles for more than

The engine is of the famed Buick Valvein-Head type. The bore is 3 3-8 inches -the stroke 4 3-4 inches, wheel base 109 inches, turning radius, 36 feet.

A Marvel carburetor with the new auto-

matic heat control insures proper vapor-

ization of the common low grade of commercial gasoline. Multiple disc clutch, the transmission and

universal joint are of standard Buick construction—the universal joint being lubricated from the transmission.

The rear axle is the three-quarter floating type with semi-elliptical type springs front and rear. The frame is a deep channel section, strongly re-inforced with four cross members.

High pressure Alemite system provides lubrication. Delco equipment with Exide battery insures efficient starting, lighting and ignition.

All models have non-glare headlight lenses—all are complete with tire carrier and extra rim. Closed models are equipped with adjustable windshield visors, windshield cleaner, dome light, ventilating windshield, adjustable windows, and sun shade in rear window.
