**BITS FOR BREAKFAST**  
Beautiful weather.

Frank Davey, back from California, says we have the best climate in the world.

It was interesting for a girl telephone operator to tell how a dame in Portland cursed her out. But what has that got to do with the question whether the telephone rates are too high?

What has anything that has been said or done in the hearing got to do with that question?

The whole thing is a hot air hearing that is not worth the price of a last year's bird's nest. It should never have been called, and there should never have been any occasion for thinking it should be called.

The final figures on St. Mawes' Lad's Lady's year's record are 11,729 pounds of milk and 827.47 pounds of butterfat. These figures remain to be officially accepted by the American Jersey Cattle club. Any way, all the statements of championship stand.

Herbert Hoover, an Oregon boy, is at the head of Russian relief; Philip Carroll, an Oregon man (Portland), is at the head of the immediate work of feeding the starving people of that country; and John P. Gregg of Portland is another member of the relief committee. A remarkable showing for Oregon men.

The Pacific highway from Sa-

lem to Jefferson is all but finished. In a day or two or three more it will be done; and then its opening will await only the hardening of the concrete on the part joining up with South Commercial street. Salem ought to celebrate the opening.

**Grain Comes Slowly to Sheridan Warehouses**

SHERIDAN, Or., Aug. 20.—(Special to The Statesman.)—Grain is coming in slowly here this week, many farmers holding their crop until a firmer market is apparent. The Schmidt warehouse is receiving considerable wheat. About 7000 bushels have been received thus far, according to the manager. The price quoted is 95 cents a bushel, unstacked, or \$1 with sacks.

Hay continues to come to town and about 1000 tons have been stored in the Schmidt warehouse. The price is said to be \$11 to \$12 a ton, with few sales reported. A carload sold last week by Mrs. Lou Chapin of Bellevue brought \$11.50 on board the car. Most receipts are oats and vetch hay.

**ACCUSED MAN DOES NOT EAT MENU OF JAIL**  
(Continued from page 1.)

that Mrs. Brumfield has been permitted to talk for hours with her husband, no other persons being present, and has been permitted to enter and leave the jail without being searched.

Upon the arrival of District Attorney Neuner in the city he is understood to have issued orders that Mrs. Brumfield's visits and other favors be curtailed, or at least carried on in accordance with ordinary precautions.

There are only two other prisoners in the jail. They are two youths who for five weeks have been awaiting trial on a charge of having stolen the engine from a Ford car that had been burned along the highway south of Roseburg. Tourists who passed along the same route, removed the springs and lights from the burned machine. They were halted by officers and the articles taken from them and allowed to go free. No charges have been made against the tourists.

A syndicate has purchased for \$1800 a family Bible once owned by William Burns, father of Robert Burns, the Scotch poet. A small fraction of that amount would have served to save Bobbie Burns from writing that despon-

dent letter to a friend in Dumfries asking the loan of a pound to pay an irascible haberdasher in the Scotch town who insisted upon wanting his money.
