But The Oregon Magazine, cutting loose from the gaudy lure of cheap fiction, is built on the basis of industrial and social helpfulness. Because of its attitude, its write-up of the industries and the causes why these industries exist in Stlem (is instructive, truthful, helpful, inspiring. It is an "inspirational" magazine, for the truth is the greatest inspiration in the world. It is the most lasting thing as well; the Oregon Magazine deserves to last, for it has the elements that make ageless youth and fadeless strength. The brief write-ups of the vari-

ous big productive industries of the Willamette valley-livestock, fruit, grain, education - are presented with text-book accuracy; less, with six adults who had that they are brief, adds to rather than detracts from their merit. While this particular number is local, the magazine is following a consistent course of development publicity for the whole state, that makes it a real state asset. Both as a home product, and as a booster that is on the right track and getting results, it is worthy wide patronage.
