SALEM IS THE DEHYDRATION CENTER OF THE WORLD

Do you realize what that means?

It means that there is a market, and a growing market for every vegetable and fruit that can be raised on the land in this territory.

And that means more than is apparent to the stranger at first glance; for a greater variety of fruits and vegetables can be successfully grown here than in any other part of this country or the world.

Dehydration is the greatest thing in the world, in food conservation.

It takes out the water; the consumer puts it back, at any time in the future, anywhere under the shining sun—and then he has the fruit or the vegetable as good as fresh, in every nutritive quality, and in every other way.

The saving will be billions, annually. And all the money comes to Salem excepting what is expended for the nails in the shipping boxes.

Better than a gold mine; for it will never "pinch out."

KING'S PRODUCTS COMPANY

SALEM OREGON

(This company is committed to the growth of this community, by a program that will make its output ten times its present output—that will employ 2500 people at its factory; that will pay to the growers \$20,000,000 a year for their products.)

Salem - - - - Oregon

Salem Has Become An Outstanding Live Stock Center
On account of three things, Salem has become an outstanding live stock center—First, on account of the operations of the new packing house here, owned by local capital—the Valley Packing Company.
Second, on account of the tremendous strides being made in the dairying industry, which practically doubled its output of milk and butter fat in a year.
Third, on account of the fact that the whole world has come to recognize the fact that this is the best cow country of all the lands bordering on the seven seas—that our breeders are producing the best cows in the world by the true standards of production; breaking world record after world record.
There might be mentioned a number of other reasons, among them the fact that there has grown up here in the Salem district a splendid type of breeders, who are satisfied with nothing less than the best in all lines of breeding; and that the natural conditions here are unsurpassed for their highest endeavors. Nature has done more for the Salem district in this respect than for any other section of the world.
And so Salem's importance as a live stock center is bound to grow, to her own great benefit and the vast improvement of the great surrounding country.
The automotive industry of the Salem district will have the call of the Salem Slogan pages for next week. Then will follow four more issues ending the campaign of two years—after which a new name will be given to the Thursday development pages, which will be continued under somewhat different auspices.

DID YOU KNOW That Salem has become an important live stock center, through the building and operation and growth of the Valley Packing Company, the new meat handling concern owned by local capital; that this stabilizes and guarantees the best prices in the United States for all kinds of marketable live stock; that the farmers of the Salem district ought to raise more and more cattle and horses and hogs and sheep and poultry, for the profits they can make directly, and for the benefits that will come to them indirectly in the better farming methods that will thus be encouraged; and that this is the very best farming and fruit growing and mixed farming section in the whole United States, and, for the matter of that, in the entire world; and that there is room here for thousands of new men on our farms and ranches and ranges?

CLETRAC

Tank-Type-Tractor

As soon as the plowing job is finished, hook the Cletrac to the harrow and seeder, and finish the job.

The CLETRAC rides the top of the soil lightly and does not pack the ground.
