THE ARMY OF UNEMPLOYED

(American Economist, August 19.)

The statement to the United States Senate on August 16th by Secretary of Labor Davis to the effent that there are 5,735,000 unemployed workers in the United States at the present time is startling. Never before has there been such an army of unemployed. The free trade New York World claims that this great unemployment is not due to free trade, since importations are falling off while we are still under free trade. It is true that importations have fallen off, but they are still greatly above normal, so that the World's claim is without substantial foundation. Also it must be remembered that the agricultural products of the country are now protected, and that the overwhelming flood of grain and other farm products into this country has, to a great extent, been

But not even the World will claim that business is not waiting on congress. The producing interests of the country, guided by past experience, are not going to blindly enlarge their producing facilities or increase their output until they know whether they are going to meet foreign competition without the benefit of an adequate protective tariff.

Many manufacturing plants are now closed and they will not be reopened if the products which have been manufactured there are not given adequate Protection. In their place foreign products are being imported-

And the workmen formerly engaged in making the domestic products are now a part of the great army of the un-shows up especially well in employed.

That tells the tale. The "organizers" of the Non Partisan League are busy in Oregon. They are in that game merely for the \$18 membership fee which they collect from each man who is induced to join their outfit. That is all the thing will amount to in Oregon: meal tickets for a lot of organizers. The men induced to pay the \$18 a throw will, for the most part, become disgusted after a time and consider themselves skinned; which is all it will amount to. ADVANTAGES OF THE JOINT ACCOUNT

HUSBAND and wife, mother and daughter, or business partners, find many advantages in joint accounts.

In case of illness of one, the other may sign checks, and attend to business. In case of death the survivor receives the funds without delay.

Don't nurse a weakness. but substitute a strength. If you stoop because it is more comfortable that way, you are nursing a weakness. The natural position of the spine does not call for a stoop and those who stoop are simply nursing some form of weakness or disease.

Chiropractic spinal adjustments will restore the alignment of disordered spinal joints and eliminate the cause of disease. When spinal nerves to the eyes are pinched by misalignment of spinal joints chiropractic spinal adjustments will often get rid of headaches, as well as help a better carriage of the head.

Chiropractic spinal adjustments free spinal nerves by restoring normal nerve openings and by this simple process chiropractors everywhere are correcting diseases of the eyes, ears, nose, throat, lungs, heart, stomach, liver, kidneys, bowels and genital organs.

Snaps Off Brands

In buying groceries there are but two points to bear in mind-QUALITY and PRICE. Some merchants who want to give their customers what they term a bargain and incidentally make additional profit for themselves, buy what the wholesaler terms a SNAP. This snap, generally speaking, is an inferior OFF-BRAND product without merit and quality, and is expensive at any price.

It has been our policy from the first to handle NATIONALLY ADVERTISED BRANDS, which protects both our customer and ourselves as to Quality and Price. We guarantee without question every article that we sell. And with our ENORMOUS BUYING POWER, sell dependable products at the price you pay for off-brands.
