

NUT GROWERS HERE FRIDAY

Half Hundred Producers From All Parts of Valley Discuss Industry

STANDARDIZATION URGED

Higher Price Offered for Oregon Variety Than California Kind

Nearly 50 leading walnut growers from all sections of the Willamette valley met in Salem Saturday in the offices of the Oregon Growers.

The walnut industry is rapidly gaining in size and importance in Oregon and is reaching such proportions that standardized methods of handling and grading are necessary.

Standardizing Necessary
In addressing the meeting C. I. Lewis, assistant general manager of the association said:

"The product must be standardized whether it is done this year or one soon to follow.

"The walnuts of the northwest are on the verge of a large tonnage and it will be necessary to cooperate in developing both local and eastern markets."

Oregon Nuts Superior
Oregon walnuts are superior in quality to those produced in California and the Franquette, the most widely grown of Oregon grafted varieties, is of special excellence.

Buyers who know the relative merits of the Oregon and California products stand ready to give 2 cents a pound more for Oregon nuts, no matter what the opening prices on the California crop may be.

The growers discussed methods for handling this year's bumper crop and established four grades which the association will use in standardizing walnuts passing through its hands. The walnuts will be sold under the Mistland brand as Jumbo, Grafted, No. 1, and No. 2 grades.

Prominent Growers Here
Among the prominent walnut growers discussed methods for handling this year's bumper crop and established four grades which the association will use in standardizing walnuts passing through its hands.
