

ESTABLISH RYE UNIT FOR VALUE

Measure of 36 Pounds Standard of Exchange, Many Articles Imported

RIGA, Latvia, July 25.—One pood (36 pounds) of rye has been adopted by the Petrograd government as the unit of exchange in dealings between the peasants and workmen in exchange of food for agricultural and other implements, says a Petrograd dispatch. Various equivalents for this pood of rye have been fixed, both as to foodstuffs and manufactured articles. The table of values, as expressed in the government order, is an index to the present Communist idea of the respective values of various products.

The following manufactured goods are considered "tradable" on this basis: Two poods of rye for one sythe; 1 pood for one sickle; 3 poods for one carpenter's axe; 15 poods for one horse plow; 1 pood for 20 whetstones; 1 pood for five pounds of axle grease; 1 pood for four horse-

shoes; 1 pood each for 30 boxes of matches, 10 lamp chimneys, four packages of needles, three spools of thread, 800 cigarettes, one pound of tobacco, one iron pail, six pieces of wall paper, three arshenes (an arshene is a little less than a yard) of chintz, or one spade without the handle.

If the peasant has no rye to trade he may exchange other farm products on the basis that a pood of rye is equal to one and a half poods of barley, 2 poods of oats, 3 poods of potatoes, 5 of hay, 10 of straw, or one pood of milk curds. Or he may turn in five pounds of butter, 15 pounds of meat, 10 pounds of dried mushrooms, 6 vedros (a vedro is 2.70 gallons) of milk, or 150 eggs.

The Moscow paper, *Economiche-skaya Zhizn* (Economic Life) recently commented rather dolefully that the peasants seemed to have more desire, however, for fashionable articles of dress, perfumes and cosmetics, than for the useful articles imported for them.

ON HIS FIRST HITCH

"Say," remarked the peevish party at the table, "How long have you been working in this restaurant?"

"Six weeks, sir," replied the waiter.

"I beg your pardon," apologized the peevish party. "Then it wasn't you I ordered that steak from—"

Christian Church Will Build Fifty Structures

LONG BEACH, Cal., Aug. 18.—Four million dollars will be spent in the construction of new churches within the next ten years in Southern California, according to an announcement made recently at the convention of the Christian church held here. This sum, it was said, will be distributed among fifty or more churches. One central edifice, however, will be erected in the downtown section of Los Angeles, as the outstanding place of worship in the west. In connection with this Christian church will be maintained a large auditorium, to be neighbored by offices of various missionary organizations.

Financing of the building program has been started, it was announced.

BRITISH WOMEN DEMAND PLACES

Appointments to Foreign Diplomatic Service Asked

LONDON, March 25.—British women are beginning to demand the appointment of members of their sex as diplomats in foreign services. They do not ask to be made ambassadors or ministers but there is no knowing how soon they may. At present they seem to be content with suggesting that women be appointed as councilors, one to each British embassy.

The idea has been put forward by Prof. Winifred Cullis of Cambridge university, who stated in an address before the English Speaking union, that women could aid the British ambassadors and ministers in improving the points of view of people of other nations, now that women have a voice in the government. She also proposed that women should be sent on special diplomatic missions.
