

FEDERAL UNITS CAMP AT LOGAN

Three Regiments, a Total of 2100 Men, Stationed Through Zone.

MOVEMENT IS QUIET

Plane Bombing Unit and 200 Men Added to Other Forces on Guard

CHARLESTON, W. Va., Sept. 2.—Federal troops are in West Virginia, ready to put down the disorder that has been disturbing the peace of the state since last week.

The first contingent of the soldiers were met at Saint Albans by Colonel Stanley H. Ford, war department general staff, who conveyed orders to the commander of the troops where to place his men.

Units Stationed

Brigadier General H. H. Bandholtz, in command of all the troops ordered here, worked out the details for placing the command today. He would not divide the exact spots where men are to be stationed.

Peace is Expected

General Bandholtz gave out no statement, but said he expected that when the military dispersed the invaders it would disperse

and return to their homes. This is also the opinion of state authorities and responsible members of the United Mine Workers.

General Morgan's office gave out unofficial reports of continued shooting in the mountains to the south. There were, however, no details as to the extent of casualties on either side.

WASHINGTON, Sept. 2.—A report received at the war department tonight from Brigadier General Bandholtz in West Virginia said:

"Airplane reconnaissance upon reports reported everything quiet throughout the disturbed area during reconnaissance. Other reports indicate that there was at least the usual amount of fighting during the day."

Force is Remedy

WASHINGTON, Sept. 2.—The war department set in motion today machinery to apply irresistible force to unruly elements in the five mining counties of West Virginia, where labor disorders have smoldered into what officials term insurrection.

the scene, has been designated in command. Behind this force, Secretary Weeks said, were an auxiliary force numbering 200, and bombing airplanes which already have arrived in the disturbed district.

Officials Approve. The government's action in sending troops into West Virginia, Secretary Weeks said today, evidently had the approval of mine union officials, as well as the civic authorities of West Virginia, had asked for them.

When railroads are closed up, and armed bands of men establish themselves in the country, marching to and fro overpowering resistance, the secretary said, "you may call it what you please. We call it insurrection."

Infantry Move. The 19th infantry from Camp Sherman and Columbus, Ohio and the 26th from Camp Dix, N. J., which were the first to move, are provided with machine guns, howitzers, radio and headquarters machinery, one-pounders, special rifles in gas warfare, as well as rifles, riot guns, automatic rifles and revolvers.

As benefits its position—"at the crossroads of the Pacific"—Honolulu probably is the most cosmopolitan community under the American flag. Here are Filipinos, Japanese, Chinese and natives of all other Pacific ocean lands and islands in profusion.

Native Lure Awaits. Visiting newspaper men will walk through shaded lanes of giant royal palm trees, crowned with bunches of green coconuts. In other districts they will crunch fallen dates which carpet the earth.

First Carload Apples is Shipped from Sheridan

SHERIDAN, Or., Sept. 2.—(Special to the Statesman)—The first car of apples to be packed here this season was shipped yesterday by the Oregon Growers' association to Alabama.

LAND OF HAWAII AWAITS EDITORS

"Crossroads of the Pacific" Represents Many Tongues and Many Peoples

PALM AND "POI" AWAIT

Members of World Press to Meet Difficulty if Water is Asked For

HONOLULU, T. H., Aug. 21.—Mainland newspaper men arriving in Honolulu for the first time to attend the World Press congress sessions here in October will find it hard to believe at first that they are trodding United States territory.

For its domestic language, customs, many foods, traditions, vegetation and climate, this far-flung outpost of the United States differs from the mainland as night differs from day.

As benefits its position—"at the crossroads of the Pacific"—Honolulu probably is the most cosmopolitan community under the American flag. Here are Filipinos, Japanese, Chinese and natives of all other Pacific ocean lands and islands in profusion.

Native Lure Awaits

Visiting newspaper men will walk through shaded lanes of giant royal palm trees, crowned with bunches of green coconuts. In other districts they will crunch fallen dates which carpet the earth.

Language Difficult. But perhaps the greatest difference between Honolulu and the mainland is in the adoption of nearly all residents of several dozen native words which are used in preference to English equivalents.

There is, for instance, no north, south, east or west. Instead of north it is "ewa," toward the Kawa plantation in the Ewa plantation in the northern portion of Oahu.

Meaning Involved. Practically every Hawaiian proper name has a meaning. That of Duke Kahanamoku, world's champion short distance swimmer, as an example, means "The boater."

Peculiar Names. A literal translation of ukulele, musical instrument of wide renown, is the "bouncing flea," as "uku" means flea and "lele" to jump.

It is expected that with all these words of general use and many more which are common to the mainland with far greater vocabularies than were theirs when they came to Honolulu.

FRUIT RIPENING FAST IN ALASKA

Summer Season is Short But Flowers Are Abundant, Berries Luscious

ANCHORAGE, Alaska, Sept. 2.—The summer season in these northern latitudes is short, but in the long days of sunlight, vegetables and fruits ripen rapidly, and many persons have established canning outfits at their homes.

Attention is being paid to the growing of strawberries and green peas in southwestern Alaska, and a small cannery is being established at Anchorage to take care of these crops.

Funeral of Soldier Will Be Held at Fox Valley. Funeral services for Gus Zoellner, who lost his life in France during the world war, will be held next Sunday at Fox Valley, according to information received today by Dr. F. B. Pound, commander American legion post No. 9.

Young Engineer Devises An Aircraft Engine System Permitting Wide Range. LOS ANGELES, Aug. 25.—An airplane with two power plants that may be used together or separately, has been perfected and successfully flown here, remaining aloft more than four hours in one flight.

Mill and Camp Work to Be Subject of Conference

PORTLAND, Or., Sept. 1.—A special conference on lumber mill and camp employment for the coming winter, with special attention to preference for American labor, will be held at Aberdeen, Wash., September 2 and 3, under the leadership of Norman F. Coleman, president of the Loyal Legion of Loggers and Lumbermen, according to announcement by Coleman here today.

British Tennis Player Proves Good Sportsman

NEW YORK, Sept. 1.—A spirit of sportsmanship was displayed today by John H. Gilbert of the British Davis cup team when, with one point needed for victory, he defaulted his match in the Metropolitan championship tournament to F. C. Anderson of Brooklyn.

APPLAUSE WAS DEAFENING.

The trap drummer in the jazz orchestra had been hitting the hootch. He had set his music stand within reach, but it started to fall. He reached for it and it upset and hit the bass drum.

SHERIDAN NOTES. SHERIDAN, Or., Sept. 1.—(Special to the Statesman)—Miss Vivian Hammer, who has been visiting at the home of her brother, R. H. Stone left this afternoon for her home at Conrad, Mont. Her father is seriously ill there.

GIRL INJURED. WOODBURN, Or., Sept. 2.—(Special to the Statesman)—Miss Ruth Johnston, daughter of Walter Johnston, was badly injured early today while running across the tracks of the Southern Pacific company. She tripped and fell face foremost on the crushed gravel, severely bruising one side of her face.

Gen. Weyler, who gained notoriety for his exploits in Cuba during the Spanish-American war, has offered his services to the Spanish Government in order "to kill all the Moroccans." Weyler made a proposal, saying that he could quell the revolt that is now menacing Spain in two months, if he would be able to go about it in his own way.

SEPARATE UNITS FOR PLANE USE

Young Engineer Devises An Aircraft Engine System Permitting Wide Range. LOS ANGELES, Aug. 25.—An airplane with two power plants that may be used together or separately, has been perfected and successfully flown here, remaining aloft more than four hours in one flight.

Wilkie Collins Joins University Faculty List

EUGENE, Or., Sept. 2.—A. Wilkie Collins, former head of the department of English at the University of Idaho, and recently with the United States shipping board, will be on the University of Oregon faculty for the coming year, according to announcement made here today.
