Monday being her 55th birthday, Mrs. Ashley White was fettered a delightful surprise by a few of her very close friends at her home, 642 North Cottage street. They came laden with flowers—gladioli, sweet peas and fern—cut glass and many other tasteful and acceptable gifts. At 5 o'clock Mrs. E. M. Law and Mrs. Esther Armstrong served a dainty tea, cakes and ice cream being the principal refreshments.

The afternoon was spent in an informally social manner. Mrs. White has lived in Salem for many years, her husband whose death occurred a few years ago, having been in business here.

L. J. Whitley and son Ernest, of Hornell, N. Y., arrived in Salem Sunday evening, having made the entire trip across the continent by automobile. This is Mr. Whitley's first trip by the northern route although he has made the southern journey several times.

Mr. Whitley and his son are the

## Susan Smart Suits

These Suits Are Very High Class and Have a Style All Their Own  
A Description of a Few, Although You Will Find a Splendid Assortment to Choose From.

The fashionable Miss will be delighted with his striking model. It is made of that rich, warm ill-wool material called Mousyne, which has a soft velvety appearance. It is in the smart looking Russian blouse effect, hand embroidered in Russian design. The color of this Suit is Surrento Blue.

**Priced \$89.50**

Here is a wonderfully smart style, one of the most fashionable materials, all-wool Veldyne. This Suit displays the newest fashion ideas in the belted Coat with trim silhouette lines. An admirable large shawl collar of blue Fox and Fur adds to the charm of this Suit. The color is a rich lark brown.

**Priced \$135.00**

A High-Class Suit is this one of Brown Dunet Superior with a snug, warm collar of Mole fur. The Jacket is lined with a pretty fancy lining. The desired trimming touch is given by an artistic band of embroidery that is altogether very charming.

**Priced \$75.00**

Skillful designing and one of the season's choicest materials have made this very late style Suit. Made of all Dunet Superior in Navy Blue. The fashionable slynx on the collar, which can be worn turned up or down, and also two rows down the front and round the bottom of the Jacket adds beauty to this Suit. The hand work of dull gold embroidery on the Jacket is very good looking.

**Priced \$98.00**

**PLEASE REMEMBER**  
That we also have Suits that are not so expensive, Suits of Tricotine, Serge and other materials that are stylish and well tailored, at prices beginning at \$25.00, and on upward.

**Majorities of Candidates Seem To Be On Increase**

LONDON, Sept. 5.—The majorities of the government candidates in the province of Victoria, Australia, have been increased in the general elections just held, according to Melbourne dispatches. The present state of the parties is: Government 32; labor 21; farmers 12. The state of the parties for the last assembly was: Government (liberals) 29; independent liberals 2; labor 20; farmers 13; independent labor 1.

The elections were almost entirely fought on the government's intention to abolish the wheat pool, the cabinet having recently decided that the time was opportune for de-control in pursuance of its policy of non-interference in commercial activities.

The Victoria parliament will assemble December 6.

**Poland May Send Bid To American Finance Expert**

LONDON, Sept. 5.—Poland is contemplating inviting an American expert to help solve Polish financial difficulties, according to a dispatch from Barstow to the London Times today. Six months ago Poland invited the assistance of a British treasury official, but Hilton Young, who was selected, was unable to accept because of his appointment as financial under secretary.

The Times correspondent declares inflation has been necessary because Poland does not raise sufficient revenue to pay expenses.

**Condensed Cows There**  
Mr. Augustus Linkins of Suvville, Ala., was reading an old newspaper in which he chanced upon an item he thought might interest his friend.

Observing by his paper, said Mr. Linkins, "dat de smallest cows in de world is to be found in de South Seas. Dis papah says dat de average weight of sich a cow does not exceed 150 pounds."

"Does yo' suppose," asked his listener, "dat dat's where dey gits de condensed milk from?"—Harper's Magazine.

**British Golf Champion Is Beaten By American**

GREAT NECK, N. Y., Sept. 5.—Jim Barnes, American open golf champion today defeated J. H. Hutchinson, British champion, five up and four to play, in a 36-hole match for a silver cup and a purse of \$2000.

Barnes started the afternoon play with a lead of four up, which he increased to five up before the end of the match. Hutchinson drove wildly several times.

**The Well Dressed Woman**

There is never a season when I do not find sports clothes interesting and never a season when there is not something really new among them. I fancy that my love of them is not fully explained by my love of sports, but is a sort of atavism—that I am barbarian enough still to revel in the gorgeous colors that are always permissible at the country club, no matter what we are wearing on the streets or in the evening.

This suit, which caused my immediate downfall, seems to be conclusive proof of my theory. The full and pleated flannel skirt is of the most entrancing clear scarlet, the little hat of the same material, while the tailored blouse is the loveliest, deep, soft, corn color.

As is essential in such a brilliant and startling combination, both waist and skirt are severely plain. The blouse with its pleated collar, cuffs and front will stand for neither neckwear nor tie.

The skirt is utterly untrimmed save for its elaborate belt. The belt is made of the flannel, fastens with a matching celluloid buckle, and then is almost completely covered with an applique of glazed kid popples, and corn flowers in their own natural shades, and heads of wheat in brown, gold and orange, with a beard of silk threads.

The soft little red hat is trimmed in the same manner. Think how wonderful one will look flaming out against the brown of the autumn woods or the opaque blues of the autumn skies.

**ACADEMY TO OPEN ON SEPTEMBER 12**

Sacred Heart to Enter 59th Year as Educational Institution

Sacred Heart Academy, Salem's pioneer academy and school will enter upon its 59th year of successful educational work Monday, September 12, and during the summer vacation the building has been prepared to accommodate all the boys and girls of the grammar grade classes whose parents or guardians desire to place them in this well known and progressive school.

Whereas formerly the four years of academic work were open

to girls only, arrangements have been completed to accept boys in the first year of high school.

The boarding school department is now ready to receive their resident students and are requested to arrive in time for the opening classes on Monday morning. Irregularity in registering and attending classes the opening week is a detriment to the tardy student, and a source of extra work for both teachers and pupils.

The music department offers excellent advantages to pupils of all stages of advancement on piano, organ, violin and harp, as well as in theory and harmony.

All students who expect to register in any of the departments of Sacred Heart academy are requested to bring reports or credit sheets showing scholastic standing in order to facilitate grading and assignment to classes.

We have had all sorts of novelists in our day, but so far none has had the nerve to lay the scenes in the White House. And don't think for a minute there is no material there.

**Germany Would Dispose of War Trained Canines**

BERLIN, Sept. 6.—The German government is selling off its war dogs. It has a large number of wounded and disabled canines for sale and has offered them to the public at a price to be fixed by a valuation commission composed of veterinarians.

Many of the dogs are said to be too old for war work and others have been sick so long that the army officials have despaired of their ever being able to engage in

active service again, should such service be required.

The public, which appears greatly attached to the lively and ferocious "police dog," has, nevertheless, displayed little interest in these canine veterans.

"Johnnie" (for that seemed to be his name), began the new voter, addressing her husband, "how can we scratch a candidate intelligently if we do not know where he liches?"

"He always liches for office, wherever that may be," replied the wise and able man.—Country Gentleman.

**Waterproof your bathroom with Valspar**

WATER may splash—suds and lather may fly—scalding steam may cloud the room, but no harm will be done to your bathroom woodwork when protected by Valspar Varnish.

For Valspar is absolutely waterproof. But not only in your bathroom, in every room in your home there is woodwork that needs Valspar protection.

Remember that Valspar is very easy to apply and that it is poor economy to let yourself be talked into buying cheap varnish. Valspar costs more than ordinary varnish—re-varnishing costs more than Valspar.

## Your Paint Dollar —How Big in 5 Years

**THE best paint will be good five or more years hence, if properly applied. Cheap paint, on the average, starts cracking in twelve months.**

It's what paint covers that you want to save—not merely a few cents per gallon in first cost.

Cheap paint does not spread as easily or as far as good paint. So when you figure labor and square yards covered, cheap paint on the house costs just as much as good paint.

Cheap paint in practically every instance, is the most expensive you can buy. Don't allow surfaces to rot. It costs less to paint them.

The paints specified by Fuller are the result of 72 years' experience in the making of all kinds of paints, varnishes, etc., for western use.

We use the best materials, PURE PIONEER WHITE LEAD, pure linseed oil, zinc and color as others do, but we combine them with a 72 years' knowledge and long-time skill.

Our white-lead base is finely ground pure white. It must pass through a silk screen with 40,000 meshes to the square inch. We use special machines for mixing the materials in scientifically exact proportions.

So Fuller colors are exceptionally clear-toned and Fuller house paints are noted for covering capacity, ease of spread and great durability.

If you want from five or more years' protection for your property investment, get Fuller's western paint for western weather conditions—a paint you know.

For all exterior jobs of painting it is advisable to obtain the services of a Master Painter

**Free Advice on Painting**
